Burlington High School 1 1 500
St. Albans High School 1 1 500
Montpelier Seminary 0 1 600
St. Johnsbury Academy 0 0 600

News From Camp Olympia.
The boys are much pleased that Capt.
Badger is to remain with us. It came
about in this way. A petition was cir-
culated and signed by every member
of the Company asking that he be in-
stalled as Captain. This petition was
sent to Governor Grant. Another peti-
tion was instituted and signed by all
the members of the Colonel's staff and
by the field officers who also recommend-
ed him. All the pressure from those
different sources was brought to bear
upon the Governor and much to the de-
light of the Company and the rest of
the regiment Captain Badger was re-
instated. He is obliged however to
waive certain rights as to receiving any
injury from the hardships of camp life.
Lieut. T. G. Carswell is Lieutenant
of the guard today.
Alfred McKelvey a graduate of God-
dard last year and now a student at U.
V. M. has enlisted in Company E.
1st Sergeant Kelly of the Montpelier
company who was thrown out on
account of his light weight has been re-
instated as second Lieutenant in the
place of Lieut. Ryan who failed to pass
the examination.
Capt. Burnham of the Bennington
company has been reinstated. He failed
to pass the examination on account
of a bad knee. He is obliged to waive
the right as Capt. Badger in regard to
injuries.
The vacancies caused in the other
companies besides those already men-
tioned have not as yet been settled.

NEW DISHES FOR COMPANY E.
A movement instituted by Capt. D. R.
Bisbee, who has just returned from
Camp Olympia, is on foot to raise
enough money by subscription to pur-
chase new agate plates, cups and bags
to keep them in for the use of the
boys of the Barre company. Capt. Bis-
bee reports that the tin plates now used
by the boys are very dangerous to their
health, as the tin is easily scraped from
the plate in cutting meat and becomes
mixed with the food. The tin is very
poisonous. The plan is to have the la-
dies of the city meet early next week
and make the bags. It will cost \$25
to buy the plates and cups and material
for the bags so that if 25 persons can
be found who will give \$1 each, the
good work will be accomplished and
perhaps thereby the good health of our
Barre boys at the front can be preserved.

On the Corner.
All the afternoon the "boss" looked
for a place where this aggregation of
"kickers" could hold their regular
meeting. The Inspector followed on,
anxious to be on hand if any important
matters were under debate. During the
several hours that the "Chief Cook"
was looking for a place, he tried to dodge
the Inspector, but "I have been on earth
a few days" and with the aid of a good
wheel I made quick time. The first
application made by the Boss for a meet-
ing place was at the engine house of the
Barre Railroad company, but too many
tramps have already asked the workmen
for lodging, and so the Boss moved on.
The next stop was in the rear of Fred
Slayton's stable, but Fred thought his
horses ought to have a little sleep and
so he refused to allow the noisy hood-
lums to pitch tents in his back yard.
Almost ready to give up the task, the
Boss decided to board the police any-
where on the Corner once more, if every
offender was put in the cage for it, and
so in spite of the orders of "The Cops"
this famous club of kickers held an all-
night session near the Corner, while
their Inspector occupied his old position
on the platform of the telephone pole.
As the leading question in the city at
the present time is the location of
the proposed new school
house, of course the Kickers could not
refrain from settling the question. "Locate
the school house down on the Bacon
place, why of course that is the place to
put the new thing," said one old lout-
nger who still trades any kind of merchan-
dise for a living. Another of the same
type agreed that the place for the new
school house was on the Bacon place,
but then came the crowd from the west
side of the river, and they certainly
would have made "Rome howl" with
their lightning orations which they
shot off in much the same fashion as
roman candles are lighted at a Fourth
of July celebration. The manner in
which they delivered their protests
would have done credit to a Henry or a
Douglass. "Why put that school house
in that one sided section?" cried one
haysced from the west side. "We have
more children to educate on the west
side and that is the place for the school
house." But the boys were not able to
settle the question of location and so
the question is still to be or not to be
settled. Well, my attention has been directed to
some of the tax dodgers who have just
returned to the city and as I wish to call
these men to the attention of the Asses-
sors I must beg you to excuse
The Inspector.

To Bombard
Charleston.
More News of Spanish
Plans.

Three Spanish Warships Wait-
ing for the Oregon.

THE CIENFUEGOS BATTLE IS
CONFIRMED.

Ready for Manila Expedition.

More of the Cienfuegos
Battle.

KEY WEST, May 14.—In the en-
gagement off Cienfuegos last Wednes-
day between the Marblehead, the
Nashville, and several thousand Span-
ish troops, one seaman named Reagan,
of the Marblehead, was killed, and
John Davis, of New York, and John
Doran, of Fall River, both of the
Marblehead, were seriously wounded.
Many of the Spaniards are known to
have been killed and wounded. The
Americans wounded were brought here
this morning. The fight occurred
while the American vessels were try-
ing to cut the cable between Cienfuegos
and Santiago De Cuba. The fight
was terrific, but the vessels succeeded
in cutting the cable. The troops were
assembled along the shore with masked
batteries so that the ships were ex-
posed to a terrible fire during the
whole time the work was going on.
There has been considerable discussion
about this engagement since the first
news of it was received from Havana
last Thursday, and it has been the
common belief that it had been con-
fused with the battle of Cardenas, but
it is now known that the report from
Havana was in part, at least, au-
thentic. A great work was accom-
plished in cutting the cable and the
Americans were very fortunate not
to have met with greater loss. Those
who were wounded are now in a very
dangerous condition and it is thought
they will not live.

San Juan Slightly Damaged.
MADRID, May 14.—A dispatch from
San Juan says the damage done to the
town is unimportant. The American
shells were aimed at a higher portion
of the town, passed over it and fell into
the bay. The enemy's bombardment
was very fierce.

The Manila Expedition.
SAN FRANCISCO, May 14.—It is ex-
pected that within 10 days 12,000 vol-
unteers will encamp at Presa Dio. 9000
blankets were ordered yesterday and
10,000 pairs of shoes were ordered to-
day. 800 horses and mules will be pur-
chased for the Artillery and Cavalry
division of the Manila expedition. The
plans to have everything in readi-
ness for the Philippines at a moment's
notice.

Spaniards Lost Heavily.
MADRID, May 14.—The Spanish
report from Manila admits that the
Spaniards lost 300 killed and 600
wounded when Dewey brought about
the annihilation of the Spanish fleet.
The Yankee's captured and burned
all the merchant vessels. The Spani-
ards are isolated by the American
blockade and are in constant fear of
an immediate attack.
Another despatch dated May 9th
says that the Arsenal has surrendered
and that Cavite has been evacuated by
the Spanish and that the Americans
suffered considerably. It says that an
officer on board the Olympia was killed
and that the Baltimore was seriously
damaged. The Spanish shells did not
burst while those of the Americans did.

The Prairie Sails.
NEW YORK, May 14.—The auxiliary
Cruiser Prairie with the Massachusetts
Naval Reserves on board sailed from
Quarantine at 11 o'clock this morning.

The Rita Arrives.
CHARLESTON, May 14.—The Span-
ish steamer Rita with her prize crew
which was captured a few days ago by
the United States cruiser Yale has ar-
rived here.

Look-out for the Oregon.
BOSTON, May 14.—The Herald this
afternoon says: "A despatch just re-
ceived from a Rio Janeiro correspond-
ent; is worded in conventional and
apparently innocent language because
of the censorship. He announces the
fact that three Spanish warships have
been sighted off the Brazilian coast
near Pernambuco. It is believed they
are searching for the Oregon.

M. V. M. 8th Regiment
Leaves To-day.
SOUTH FRAMINGHAM, May 14.—
The Eighth Massachusetts regiment
has been ordered to Chickamauga and
will leave this afternoon.

Quiet in Spain.

MADRID, May 14.—It is officially an-
nounced that there were no disturbances
in Spain yesterday. The Cabinet Crisis
still continues.

Spanish Fleet Not in Sight.

ST. PIERRE, Martinique, May 14.—
Nothing can be seen from here of the
Spanish fleet.

Pensylvania Moves.

MOUNT CRETAN PA., May. 14.—The
colonels of the different companies
camped here received orders to day
to get every Pensylvania regiment to
Chickamauga immediately.

Philena McKeon Dead.

LAWRENCE, MASS., May 14.—Miss
McKeon aged 76, and for 33 years prin-
cipal of Abbott Academy at Andover,
Mass., and a native of Bradford, Vt.,
died early this morning.

France and Great Britain.

LONDON, May 14.—A member of the
British government is reported to have
propheesied a war between France and
Great Britain within a month. Recrea-
tionary insurance are reported to have
been effected against a risk of war with
France in the next six months.

THE SECRET OF LONGEVITY.

Nineteen Commandments Which, if Kept,
May Insure One Hundred Years.
Sir James Sawyer, a well known phy-
sician of Birmingham, England, has
been confiding to an audience in that
town the secret of longevity. Keep the
following 19 commandments, and Sir
James sees no reason why you should
not live to be 100:
1. Eight hours' sleep.
2. Sleep on your right side.
3. Keep your bedroom window open
all night.
4. Have a mat to your bedroom door.
5. Do not have your bedstead against
the wall.
6. No cold tub in the morning, but a
bath at the temperature of the body.
7. Exercise before breakfast.
8. Eat little meat and see that it is
well cooked.
9. (For adults) Drink no milk.
10. Eat plenty of fat to feed the cells
which destroy disease germs.
11. Avoid intoxicants, which destroy
those cells.
12. Daily exercise in the open air.
13. Allow no pet animals in your liv-
ing rooms. They are apt to carry about
disease germs.
14. Live in the country if you can.
15. Watch the three D's—drinking
water, damp and drains.
16. Have change of occupation.
17. Take frequent and short holidays.
18. Limit your ambition.
19. Keep your temper.

Stories of Henry George.

The activity and power of intellect
of the late Henry George did not prevent
absentmindedness. A writer in The Re-
view of Reviews says that this quality
was "the jest of his circle."
Names escaped him. I heard him say
to Mr. Dayton, the candidate on his
ticket for comptroller and one of the
best known men in New York:
"You won't mind it, I hope, if I for-
get your name. I am so conscious of the
danger of getting names wrong that
when the need of remembering comes it
rattles me, and away the name goes."
He came late to a dinner at the Lotus
club, where he was to discuss with some
friends the question of his being a can-
didate in apprehended contingencies. It
was raining, and he took from his pocket
the slippers with which Mrs. George
had insisted on providing him in case
he should get his feet wet, and as he
put them on he apologized with honest
gravity:
"I lost time looking for a man I kept
asking after as Kinsella, and it turned
out his right name was Moriarity. At
least I think that was what he told me
it was when I found him."
But there was no absentmindedness
when discussion of the business in hand
ensued; it was keen and wide awake.

A Last Resort.

"Her father says positively that I
can't marry her."
"What are you going to do?"
"There's nothing left now but to ask
the girl."—Detroit Free Press.

Drimtaidhivichilichattan is the
name of a small hamlet in the isle of
Mull containing not more than a dozen
inhabitants. How they pronounce it is
a mystery only to be solved by some
one acquainted with Gaelic.

Great Britain and Ireland contain
380 banks, the most important being
the Bank of England, which has a cap-
ital of \$73,000,000.

Baking Day.

Substantial preparations for the Sab-
bath. Good cooking is the art of house-keeping.
The secret doesn't all rest in the person. A great deal de-
pends on the choice of ingredients. Are they poor? The
cost of pure baking requisities may be a trifle more than the
other kind, but its in the results that the great difference is
noticed. Pure Cream Tartar, 50c. a pound. Pure Saleratus,
roc. a pound. Pure Spices at right prices. For best goods
