

From the New-York Journal of Commerce.

Altering Bank Bills.—A man yesterday went into the public house of Mr. Murphy, in the 3d avenue, and requested him to give him small bills for \$5 bill on the Newbury Bank of Vermont. Mr. Murphy acceded to his request, and gave him small bills, and the man had scarcely left the store when Mr. Murphy discovered that the bill purporting to be on the Newbury Bank was in reality on the Roxbury Bank of Massachusetts, and that the letters *Rox* had been ingeniously defaced, and the letters *New* put in their place, so as to make the word read Newbury instead of Roxbury. The words Welliver had also been put in place of the word Roxbury, at that part where the bill is dated, and the word Vermont substituted for Massachusetts, at the bottom of the bill. No other alterations appear to have been made in it, and such as have been were but clumsily executed, and require only a very cursory and a slight examination to detect them. Unfortunately, however, Mr. Murphy examined the bill in too cursory a manner to detect its character, but took sufficient notice of the person who passed it to be able to describe him to the Police, who will no doubt keep a good look-out for him.

Another bill, being a genuine one, on the Brooklyn Bank, but altered from a one to a ten dollar bill, was offered a few nights back at a place of public resort in the upper part of the City. The waiter to whom it was offered, suspected its character, and called officer King, of the Upper Police, who was in attendance on another part of the premises, but before he reached the spot, the man who tendered the bill ran away, leaving the bill in the waiter's hand.

Interesting Ceremony.—Married at the Institution for the Deaf and Dumb in New York, by the Rev. Dr. Milnor, Mr. J. R. Burnett, of Livingston, N. J. to Miss Phebe Osborn, of Castle, Genesee county, New York, (a pupil of the institution.)

We have seldom attended a matrimonial occasion of more agreeable interest than the one above mentioned, of two deaf mute persons.

It was a gala day at the institution. The annual examination of the school for the term had passed off successfully the day before, and the summer vacation was just commencing. The Secretary of State, in his official capacity, as superintendent of schools, together with several other literary gentlemen of distinction, had attended the examination, and all expressed themselves highly gratified with the progress of the pupils, and the prosperity of the institution; the majority of the pupils were just about to take their accustomed summer tour into the country, to visit their parents and friends, and the wedding was to be the finale of the term. Health, hope and happiness reigned among the inmates of the youthful mute community, and the language of every countenance seemed to be "come hither to the wedding—then haste to our homes."

At nine and a half A. M. the bride and her maids were dressed and decked with her flowers, and bridegroom and several of his relatives and friends arrived in carriages from town. Four pretty deaf mute girls officiated as brides maids, accompanied by two deaf mute young men, and two of the young gentlemen professors of the institution. Attended by these four couples, the pair betrothed, at ten o'clock, entered the large apartment in the west wing of the institution, where in the presence of an assemblage of some 200 persons, consisting of the pupils of the institution, the professors, matrons, &c.—the principal and his family—the officiating clergyman, and numerous invited guests, they were to be united in "the holy estate of matrimony."

A Brutal Outrage was committed last Saturday at Wilbraham upon a female, about 20 years of age, by two Irishmen, of that aggravated character which makes it a capital offence. The crime was committed about mid-day not far from the public highway, (about two miles this side of Glover's tavern)—and her cries were heard by persons passing by, but before they could go to her rescue, the crime was perpetrated, and the villain had fled. The young female on whom the outrage was committed is of respectable connections, and of unblemished character. She was engaged at the time in picking berries, accompanied with a brother and sister, 8 or 10 years old. The little girl fled with terror, but the little boy remained, and endeavored by entreaties to prevent the outrage.

Four persons were taken on suspicion, and brought before Geo. Colton, Esq. on Monday and examined, but the evidence was conclusive that they could not have been concerned in the horrid transaction, and they were discharged.

Diligent means are now being used by our citizens to detect the perpetrators of the atrocious act and bring them to justice. Two Irishmen supposed to be the villains, were seen soon after the time and not far from the spot where the deed was done, and probably the persons now engaged in the search will be able to trace them out and take them.

GOING IT STRONG.—The Columbus Democrat thus briefly sums up, under the head of matrimony, and its awful consequences, a few of the most important events in the life of a citizen of that place—He was married on a Tuesday evening; on Wednesday evening, his bride presented him with an heir on Thursday evening he got drunk! and on Friday evening he was committed to the common Jail of Lowndes county for his brides debts! Facts; beat them who can.

Awful. The Petersburg Constellation and the Warrentown Jeffersonian, two Virginia loco loco papers, have expired this life—disease, sub-treasuryism. As the whig victory in Virginia was hailed by the Tories as a Van Buren triumph, we presume that the death of these two journals, indicates a still greater increase of the administration in that state.

The Richmond Whig says, "We are authorized to assert that the statement of the Globe, that Mr. Campbell was removed from office for neglect of duty, is a most atrocious falsehood."

Wool.—This great staple article of our fertile mountain State, we are happy to learn, continues to be taken off the hands of the growers at about fifty cents per pound. No doubt but the farmers would be pleased to obtain a higher price; and doubtless some of them may, for superior lots; at least, we hope they may, but we could not advise them to hold on too long in these unsettled times. Should this year's clip, however, all go off this season, it will be an effectual remedy for hard times (with the promising harvest prospect before us) in Vermont, this year.

The proceeds of the wool in this State, if all sold at an average of fifty cents per pound will not vary much from fifteen hundred thousand dollars. Add to this the probable income from the sale of sheep, beef, pork, butter, cheese, &c. one million and a half more, making THREE MILLIONS; and we are sure no foreign panic created by the loco-focos, or any other faction, can affect Vermont very much. With her industry, good habits, and Whig principles, she cannot but be quite happy—without any of the "spoils," or 4th instalment!—*Rutland Herald.*

"TRAVELLING CABINET."

The President leaves town this morning, at half past 9, for Schenectady. He will be met on this route, we understand, by a delegation from that city. [Argus.]

Hon. John Forsyth, Secretary of State, arrived in this city yesterday, and has rooms at Congress Hall. [Alb. Argus.]

The Secretary of State of the United States leaves town this morning for Saratoga Springs. [Alb. Argus.]

The Hon. Mr. Poinsett, Secretary of War, arrived in this city yesterday morning, and took lodgings at the Waverly House. [New Era.]

[From old Jackson Papers.]

\$45000 REWARD.
Run or strayed away from the City of Washington, John Quincy Adams, President of the United States. He was last seen in the State of Massachusetts, on horseback, on Sunday, dressed in a jockey cap, wide pantaloons, silk stockings and pumps.

Foolish.—A young man named Wm. Sawyer, of West Newbury, Mass., drowned himself in a brook, a short time since. He had been married only three months. This furnishes melancholy reflection for bachelors. Well, it is said that the whole purpose of man is, to be born, get married, build himself a tomb, and die.—*N. Y. Visitor.*

A woman at Pontiac, on the premises of whose husband an injunction was laid for debt, beat him soundly for contracting it, and then attacked the "posse committatus," five in number, gave them a sound drubbing, and beat them entirely off.

A Slave Whipped to Death.—Alexander McGahey, the owner of a plantation at Yazoo, Miss., and Lewis G. Ross, his overseer, have been held to bail, the latter in \$2,000 as principal, and the former in \$10,000 as accessory, to the murder of one of McGahey's slaves, who was whipped to death by Ross.

Diabolical.—Captain Gilbert Appleby, of the steamboat Constitution, has been committed to jail at Buffalo, there to await the requisition of the Executive of Ohio for having committed an outrage on the person of a girl fifteen years old, who was a passenger on board his boat. He effected his damnable purposes by pretending to furnish her with better accommodations in his office than the steamer could afford.—*N. Y. Visitor.*

Sub treasurers guide. "The Democratic Almanac for 1840" is already published.—"It is calculated for five degrees of latitude so that it will answer from Maine to Texas." It also includes a list of the roads & routes of the United States, from Maine to Texas. It will be an invaluable work for postmasters and others in the employment of the administration.

Boots and Shoes sewed with Brass Wire.—A patent has been secured in France for sewing boots and shoes with brass wire. It is said that they do not admit moisture nor dust, nor do they rip when sewed in this manner. The sewing is done with as much ease as with a wax thread, nor is it more expensive.

Loco Focoism warring against Common Schools.—That the fact may not hereafter be denied by tory journals, we give the following official statement of the votes in Edgecomb county, North Carolina from one of their own prints in that county. "The Turbotown Press" of Aug. 3d:

Congressional Election—Third District.—The following is the official statement of the Polls in the several districts in this county, at the election held on Thursday, the 25th ult. The aggregate, it will be seen, is as follows: For Congress—Thomas H. Hall 1392 votes, for Edward Stanley 111—for Schools 165. No Schools 1078.

Hall is Loco. Stanley Whig.

JEFFERSON. Weeks & Jordan are about to publish a work which will create some little interest in the political world, viz: "The character of Thomas Jefferson, as exhibited in his own writings—by Theodore Dwight, author of the History of the Hartford Convention."

Any thing for a Lie.—The administration papers are getting tired of the falsehoods they have bandied about so often and so long—that Mr. Webster's friends had made him a present of fifty or sixty dollars—or perhaps they are ashamed of it at last, it has been so many times contradicted. The delicious Globe—which lies with a bolder front, if not with a better grace than any of its followers has got up a new version of the story; the same lie, but with variations. Now the tale runs that it was Mr. Clay's friends who made up the purse, to buy Mr. Webster off, and get him out the way!—*Prodigious!*

N. Y. Com. Adv.

Iron, Steel, &c.

Wrought scrap Iron, of good quality, purchased in any quantity, by R. R. & Co. Hartford, April 24, 1839.

The Resurrection or Persian PILLS.

SUPERIOR to the Hygean, Brandreth, or any other pills before the public, as certified by physicians and others who had used them. The name of this medicine originated from the circumstance of it being found only in the countries of Persia.

The extract of this wonderful production has been used in many parts of Europe with the most astonishing control over a great variety of diseases, since the year 1783. Early in the year 1793 it was combined with a certain vegetable medicine imported from Dura Baa in the East Indies and formed into Pills. The admirable effect of this compound upon the human system, led physicians and families into its general use. The operation of these pills is as singular as their origin, and is different from any other compound used in the Materia Medica. The Persian Pills cleanse the stomach and bowels from all impurities, and restore the secretory organs when torpid or morbidly affected, to a speedy and vigorous state of health. They also enter the circulation and purify the blood better than any medicine known; and from their detergent properties they expel all vitiated fluids and humors with the greatest certainty from the whole system.

Such is a brief outline of the operation of these pills. Without specifying the multitude of diseases in which they have been used with the most unparalleled success, they may be said to be a sovereign remedy—whose virtue needs only be known by the public in order to secure their general use. A large half sheet printed upon both sides accompanies each box, giving the history of the medicine and a great variety of certificates from those who have been cured by the use of these pills after all other medicines had failed to afford them relief. For sale in whole or half boxes, by DUTTON, CLARK & CO. Brattleboro, July, 1838.

Important to Females.

Reynolds & Parnely's Celebrated Female Health Restorative.

THIS Medicine has effected cures in many cases where Physicians had given them over and the Saratoga Waters had proved ineffectual. It invariably removes obstructions, regulating in most cases of painful, too frequent, or profuse menstruation, & has cured the most obstinate cases of Fluv. Albus. All this is effected by strengthening and restoring the system to a healthy action—it does not operate as a cathartic. It is recommended by many of the most eminent physicians in the United States. Doct. J. Morrison, formerly of Columbia, Mass., who has practiced medicine some 20 years at Quebec, N.Y., says in relation to it, "That it is the best medicine now in use. In cases of retention, or suppression of the menses, I think it will sustain the application of specific. I have tried it in the worst cases with admirable success, and I wish for the good of suffering females, that all physicians would introduce it in their practice, and I have confidence to believe they would find happy results, as I have found the Pills to answer fully their recommendation." Doct. R. R. Davis of Syracuse, N.Y., will tell you a similar story, and many others that we might name. It has been tried by so many hundreds with such universal success, that the reputation of it stands unvaried and unequalled, where it is known. For further information, you are referred to the persons whose names are annexed to our show-bills, and also to pamphlets left with our agents for gratuitous distribution. Price—Two Dollars per box, containing nearly 100 pills. Prepared and sold wholesale and retail, by Reynolds & Parnely, Pittsford, Monroe Co. N.Y. Sold by—WILLISTON & TYLER. Brattleboro, July 1839.

For Albany, Troy, and

WESTERN COUNTRY,
Via BRATTLEBORO and BENNINGTON.

LEAVES Chase's every morning (Sundays excepted) at 3 o'clock, and arrive at Troy and Albany some evening, where it intersects the great Western Canal, Steam-boats for New York, Railroad for Ballston and Saratoga Springs, Stages, Packets, &c.

Passengers arriving at Troy or Albany, can procure passage for the West at almost any hour of the day, either by Stages, Packets or Railroad.

This line also, leaves Baker and Walker's Stage office, Albany and Troy, for Bennington and Brattleboro, daily, Sundays excepted. An accommodation Stage will leave Albany for Bennington every morning at 10 o'clock on the arrival of the Boat from New York, and Railroad from the West. Passengers going East, who arrive at Albany in the morning and take the Stage for Bennington, will not be subjected to riding in the night.

At Brattleboro, this line intersects with four different stage routes to Boston, and two for Lowell; also, Stage for Concord and all parts of New Hampshire, and the Connecticut River line of Stages for Walpole, Bellows Falls, Charlestown, Hanover, and Haverhill. Passengers can go from Albany through to any of the above towns in two days.

BAGGAGE WAGON TO TROY.

N. Bridge & Sons,
WILL run a BAGGAGE WAGON from Brattleboro to Troy, once a week, leaving Brattleboro, on Mondays of each week, and will take freight to Troy for 62 1-2 cents per hundred.

Families from the vicinity of Brattleboro going West, can have their effects carried to Troy and there stored or freighted as directed.

Apply to the Agent at Chase's Hotel, Brattleboro, or Griffiths Co. 149 River street, 2 doors below Congress, Troy, N.Y.

Freight to any amount directed to the care of N. BARNES & SONS, Brattleboro, will be forwarded without delay.

March 22, 1839.

Morocco.

APRIME lot of Morocco and Kid Skins, just received from New York, for sale, by WILLISTON & TYLER.

THIS wonderful Medicine has been introduced to the public but a short time, yet its fame has spread rapidly throughout the United States. The proprietor is constantly receiving orders from every part of the Union. The oil Hygean Theory, that impurity of the blood is the cause of all diseases, has become stale, while the Theory of Dr. Kingley, who concludes that the most frequent cause of disease, is a derangement in the functions of the Liver is rapidly gaining ground.

The proprietor has received a great number of communications from individuals who have been cured; among which are the following.

I hereby certify, that in the Spring of 1836, I was attacked with what my Physician called the Influenza, attended with great inflammation of the Lungs and Throat, and a difficulty of breathing. I took the prescriptions of my family Physician, and obtained some relief, but the difficulty of breathing still remained, and I suffered severely, I could not lie down and was obliged to take what little sleep I could get sitting up in a chair. I continued in this way for about six months, when the complaint suddenly became more violent and alarming, the inflammation extended to my head and so affected my brain that I was deprived of my reason, for three weeks was a complete maniac. I was attended by two eminent Physicians who did all they could for me, but said that I could not live; however recovered my reason, and the violence of the disease abated in a measure, but the difficulty of breathing still remained. I had not been able to lie down for about nine months, when one of my friends who called in to see me advised me to try some of Dr. Kingley's Pills, he said he had taken them and they had given him great relief; I sent and procured a box and they gave me immediate relief; before I had taken half of them I could lie down and sleep comfortably which was indeed a great blessing. They produced a wonderful change in my system, and have completely restored me to health. I had also suffered much in consequence of inflammation in my right eye the passage which conveys the tears to the nostril, had become stopped, which is a very troublesome complaint. Soon after I began to take these Pills, I was entirely relieved from this affliction. I have recommended them to many persons who have all been benefited. I do not hesitate to pronounce them the best medicine that I have ever been acquainted with, and one that can be safely taken for any complaint.

JESSE STEARNS.
Boston, Oct. 1, 1837.

A lady in Coventry, Vt., has been cured of a complaint of four years standing, (which had baffled the skill of many able Physicians) by a course of this simple medicine.

A Gentleman from Methuen, Mass., called on the Agents, in this city, and stated that his wife who had been an invalid for three years was now restored to health by the use of Dr. Kingley's Pills.

These Pills are put up in neat boxes of two sizes the small size contains 25 pills, and the retail price is 25 cents; the large size contains 60 pills, the price is 50 cents.

Wheeler & Nash, No. 48 Ann st, Boston, are the sole Agents for the United States, where the genuine Pills can be had at all times. Also, of Jacob Hunt, Winchendon, Mass.; G. C. Noble, Fitzwilliam, N. H.; B. Nourse, Troy, N. H.; B. B. Murdoch, Northfield, Mass.; Wm. Hale, Hinsdale, N. H.; A. Perry, Bernardston, Mass.; T. O. Sparhawk, Greenfield, Mass.; and

DUTTON, CLARK & CO.
Brattleboro, April, 1839.

Brattleboro Centre, May 29, 1839.

MOFFAT'S LIFE MEDICINES—RE-

ANIMATION.—When the most important functions of life are suspended, and those who are invalids by inheritance or imprudence are reduced to a deplorable state of nervous debility, they should not even then despair, for it is not in despair that relief can be found. No. Let them first look around, and laying aside all prejudices, ask themselves this question—"If my physician cannot help me, is his reputed skill my only resort?"

Perhaps at that moment the heading of this advertisement, 'Moffat's Life Medicines,' would catch the eye, and were they in truth divided of foolish prejudices, they might perhaps, be induced to inquire whether Mr. Moffat's theory and treatment of diseases differed from that of their own physicians. They would then learn that it did differ, and very widely, and with most happy results, too.

If they pursued their inquiries still further, they would find that all practising physicians of the present day prescribe MERCURY, in some form, for almost every disease, and they would learn, too, that mercurial medicines, though they give present relief, undermine the constitution, and always leave the patient in a precarious state of health.

A GOOD VEGETABLE MEDICINE is just the reverse of all this. For hundreds of years before that scourge of mankind, 'Mercury,' was employed in the healing art, Physicians used nothing but herbs. Even the Bible recommends as 'a skilful physician' he who prepareth his medicines from herbs. Witness Ecclesiasticus, chap. xxiii.

V. 3. The skilful physician shall lift up his head; and in the sight of the great men he shall be in admiration.

V. 4. For he hath prepared his medicines out of the HERBS of the earth, and he that is wise will not abhor them.

Moffat's Vegetable Life Medicines possess qualities of the most mild and beneficial nature. They are composed of articles the most antiputrescent, combined with ingredients known as the only certain antidote for fevers of every description.

When the disease is produced either from cold, obstruction, bad air, swampy and camp situations, or putrid miasmata whether malignant or epidemic, or by other causes, these medicines are certain in their operation or effects. They are possessed of peculiar qualities which not only expel all disease but at the same time restore and invigorate the system. When first taken into the stomach, they immediately diffuse
