

From the Hartford Patriot and Democrat.
THE BET—A SHAMELESS "BACK-
ING OUT."

The following is a plain statement of the facts in relation to the Bet lately proposed by the Loco Focos of Norwich, through the columns of the Aurora, a paper published at that place. In that paper of the 10th inst. a correspondent offered to accept a bet previously proposed by us, the amount of which he stated at \$2000, (divided as follows, \$400 that Harrison will get the vote of Ohio, \$400 that he will get Pennsylvania, \$400 that he will get N. York, and \$800 that he will be elected President) provided the money was deposited in specie with Col. J. Isham of Colchester—and then adds, that in addition to our offer he "will bet \$500 that Harrison will not get the vote of his own township—\$500 that he will not get Ohio—\$500 that he will not get one Southern State \$500 that he will not get Kentucky—\$400 that Van Buren carries the State of N. York by 15000 majority—and \$2000 that Harrison will not get one third of the Electoral votes—all the money to be deposited in specie with Col. Isham, and delivered over to the winner the day after he ascends who is chosen." In reply to this challenge it was stated in the Patriot and Democrat of June 13th, that the proposition was undoubtedly a sham, but that if there was any sincerity about it we would take the bet upon the terms here stated, and would meet the Norwich gentleman at Colchester, specie in hand, on Saturday, the 20th inst. to complete the arrangement—provided we received satisfactory assurances before that time that the proposal was not a Loco Foco Hoax." In answer to this the Norwich Aurora of the 17th inst. stated that "the proposition was no hoax," and added that they would be "at Colchester" at the time appointed, "the 20th of June at half past 9 o'clock, A. M. with their part of the money, \$6,400 in Gold, to be deposited, with an equal sum to be presented by the Patriot and Democrat, with Col. Isham, to be paid over according to his decision."

After this particular and positive assurance that the Norwich Locos did really intend to stand to their proposition, we considered the bet fairly and honorably made.—Accordingly on the morning of the 20th inst. we were on the ground punctually with \$6,400 in Gold, which we deposited with Col. Isham agreeably to the proposition.—The agent of the Norwich Locos, a Mr. Chapman, had arrived before us, but had not deposited his money, if he had any, with Col. Isham. We immediately had an interview with the Norwich gentleman at the public house in Colchester, and presented him a written statement of the bet, which we had drawn up exactly in accordance with the conditions specified in the Norwich Aurora. He read it over attentively, and said that it was all correct with the exception of the concluding paragraph—and that he would accept it if that was stricken out. The paragraph objected to, and which we believe to be not only in conformity to the custom in such cases but with our original proposition, was "that if Gen. Harrison should die previous to the election, the bet should be of no effect." After considerable conversation upon this point, during which the Norwich agent repeatedly said that this was the only objection he had to the writing, and that this omitted he was ready to deposit the money, we finally consented to have it stricken out, and it was so stricken out. We then remarked to Col. Isham and his son, who were present, that they could now proceed to count the money, when the Norwich gentleman said "he came there to make the best bargain he could, and that he would not agree to the written statement before him unless a paragraph was inserted that if Gen. Harrison died before the election it should be considered that he won the bet." In reply to this new quibble, we told him that we were unwilling to bet upon the life of any man, and moreover that there was no such condition specified in the Aurora's proposition—that we were mere agents of those who had staked the money, and were not authorized to add to the terms specified in the Aurora.—He then declared that he would not make the bet upon the terms specified in our statement, unless such a paragraph as the above was inserted, to which we told him we could not agree—and here the matter ended for a time.

Being desirous, however, to make the bet, we subsequently read to the Norwich gentleman the bet as proposed in the Aurora, and told him that we had come to Colchester for the purpose of depositing the money upon that bet—that we had deposited it, and were now ready to leave with Col. Isham the Norwich Aurora containing the proposition, and abide the issue upon their own printed statement. He replied that he would not deposit the money nor close the bet upon the terms specified in the Aurora.—Such is the result of our mission to Colchester, and we confess we are not disappointed. We believed from the outset that the Locos would not and dare not bet, and we came away from Colchester fully satisfied that the agent of the Norwich Subscribers came there with instructions not to deposit the money upon any terms—their object being, by intrigue, bragging and evasion to make some party capital. But in this, at least, they have been defeated.

Mr. Rush, the American legation in London, and Mr. Schenley of England, arrived in the city on Saturday—the former with despatches from our minister in England, and the latter with despatches from the British Minister here. We are glad to find that an impression prevails, which we are inclined to think a well founded one, that the general tone and aspect of the communications from our Minister in England are decidedly pacific touching the Northeastern Boundary question.—Nat. Intell. June 23.

1000 REWARD.—It having been stated in several papers that Gen. Harrison has refused to express his opinions upon subjects of leading interest to the country, the editor of the Cincinnati Gazette is authorized to offer \$1000 to any one who will show that Van Buren has expressed an opinion on any subject of general importance, on which General Harrison has not expressed an opinion.

For the Phoenix.
PERNICIOUS EFFECTS OF PARTY SPIRIT.

Party spirit, rancorous party spirit has become the bane of our Republic. Every patriot of all parties must have witnessed and lamented its pernicious effects. The great problem to be solved is, how shall this growing evil, which is preying upon all the dearest interests of our Republic be remedied? It must be acknowledged that for the last eight or ten years, party spirit has been rapidly increasing in its inveteracy. So long as Mr. Van Buren is in the field, it is in vain to hope for a diminution of the evil. It would probably increase in ten fold ratio under his continued administration. The only Constitutional and effectual remedy for this appalling evil is a thorough change in the administration of our Government. Judging the future by the past, this might prove an effectual remedy. Previous to the election of Mr. Monroe to the Presidency, party spirit had arrived to a high pitch—yet under the wise, conciliatory policy of his administration, party spirit in a great measure subsided, and all parties acquiesced and united in support of his administration—so much so, that old political party names and distinctions were in a measure lost and forgotten. This is an historical fact which cannot be denied. Now is there not the strongest reason to hope and believe that, should Gen. Harrison be the next President, under his wise, conciliatory and popular administration, the same desirable and happy results would be produced? Gen. Harrison from his earliest history, in all his public acts (and his public services have been long and various) has shown himself a real patriot, a true friend of the people. And should he come to the Presidency at this advanced period of his life, he could have no ambitious projects of power to accomplish—no selfish purposes or interests to advance. His highest ambition would be to administer the Government as best to advance the prominent interests of the whole country—in a manner most effectually to preserve and perpetuate her inestimable republican institutions, thereby endeavoring to promote the greatest sum of prosperity and happiness for the enjoyment of the present and future generations—insuring to himself at the close of life, the satisfaction above all price, of having well and faithfully served his country. Not so with Mr. Van Buren. It is a fact that he, from his earliest infancy, has been an ambitious, calculating, intriguing, selfish politician;—and since in the Presidency, has pursued a course of policy at war with the best interests of our country, and destructive of her free institutions. Should he be re-elected, what have we to hope from his future course? Nothing, certainly. His pertinacity in his wild, experimental schemes would hold him on his course, so that nothing for his country's good could be expected from him in future. Hence it would follow that party spirit, instead of being diminished, would increase in rancour and asperity to the close of his official career.

This is a subject well worthy the candid consideration of honest men of all parties. Laying aside party attachments, party prejudices and party trammels, let the considerate of all parties ponder and reflect—and looking to the good of their country, adopt a course of measures calculated to allay the demon of party spirit, and thereby restore prosperity and happiness to their once prosperous but now suffering country. This noble, patriotic object would be well worthy their united and strenuous exertions. Throw aside, then, party trammels, and go for our country, the whole country. In a future number, some of the many evils produced by a rancorous, unyielding party spirit, may be more particularly considered.

CANDOR.

HORRIBLE. It is stated in a Wheeling paper, on the authority of a letter from Marietta, Ohio, that a young lady from down the river, who was on a visit to her friends in that place, was last week thrown from a horse she was riding, and dragged seven miles. The horse was only stopped by the last of three shots from a rifle, and when so, the remains of the unfortunate lady were so mutilated that they could scarcely be recognized as those of a human being.

THE BANKRUPT LAW. The National Intelligencer of Friday says—"The Bankrupt Bill, we are happy to announce, has at length finally passed the Senate, though by a majority of only two votes—yeas 21 to nays 19. It has now to pass the ordeal of the other House, and we can only say "God send it a happy deliverance."

Attention Whigs!!!
ALL READY.

The members of the Young Men's Whig Association are requested to meet at Wheeler's Hall on Saturday at 7 o'clock A. M. for the purpose of making further arrangements for attending the Convention at Stratton on the 7th. Every individual who intends going with the Association must be present at that meeting and have their names enrolled as no provision will be made for their conveyance after that time.

For the information of our Whig friends in Guilford and Vernon, we would state that the Delegation from this place will start at 8 o'clock, A. M. on the morning of the 7th.—A morning Gun will be fired at half past two o'clock, A. M. as a signal for the members of the Association to meet.

The Meeting on Thursday evening will stand adjourned to Saturday morning. Joseph Clark, } Committee { I. G. Chandler,
J. W. Frost, } of { C. Swain,
E. Woodman, } Arrange- { F. Vandoren,
A. Donklee, } ments. { A. E. Dwinell,

Since our last paper went to press, information has been received from Hon. Mr. Hall, our Representative at Washington, that Mr. Webster has already left that place, intending to be at Barre on the 4th inst. and at Stratton on the 7th. At a meeting of the Whig citizens of this village, a Committee has been appointed to wait upon Mr. Webster at Barre and accompany him to Vermont. It is expected he will reach Brattleboro on Monday next to dine, and after seeing and conversing with as many of our good people as he can in the short time he will be at liberty to stop amongst us, will proceed Monday evening on his way to Stratton.

We are requested to state to those who hold Prospectuses for the 'Flair' that it is important and necessary that a return should be made of the number of subscribers in each town, with the payment in advance—if possible before the Convention at Stratton—but if not before, to be prepared to make a return at that time.

ALL FOR STRATTON.
Our neighbors in Guilford and Vernon inform us that there will be a real turnout for Stratton. We think they will be amply paid for their journey. We hope to see them here in season to join the delegation from this village.

HOW IS IT.
Will Marlboro be well represented at the District Convention. We have heard some doubts expressed on this point. We hope the Whigs of Marlboro will see that there is no mistake as to a delegation from that place.

"NOBODIES."
"Four years ago nobody knew Gen. Harrison." So says the Hon. Felix Grundy, in his speech before the Van Buren Federal Convention on the 5th of May. Let us see. Gen. Harrison received commissions for important offices from Washington, from Adams, from Jefferson, from Madison, from Monroe, and from Adams; he was elected Senator in Congress by the Legislature of Ohio, & Representative by the people of Hamilton. The declaration of Mr Grundy, therefore, is equivalent to saying, that Washington and his five next successors, the Legislature, and the people of Hamilton, are "nobodies." Col Johnson knew him well, and called him "wise, prudent and brave;" of course he is "nobody." Mr Niles, the newly appointed Postmaster General, wrote a life of Perry in which Gen H. received the most flattering notices—Mr Niles is "nobody." Neither is Mr Ritchie, who recommended the General for Secretary of War, many years since. A Congress of the United States voted him a medal; and the Legislatures of Kentucky returned him votes of thanks. But, says Mr Grundy, they are all "nobodies."—Less than four years ago, some millions of people voted him for President. They were "nobodies," too. We might go on for an hour, or a day, with Mr Grundy's "nobodies"—but the above will do for a sample. It is thought that between "nobodies" and "grannies," General Harrison is likely to become "somebody," even in the opinion of Mr Grundy.—Scioto Gazette.

MR. SPEAKER HUNTER. In reference to certain reports concerning the political opinions of this gentleman, the Alexandria Gazette says—"We are authorized by a friend of the Speaker of the House of Representatives, to say, that he has not declared himself in favor of Mr. Van Buren."

Unostentatious Generosity.—Monroe Edwards, Esq. of the parish of Iberville, La., has manumitted 160 slaves! He is now in this city, and has just had the deed of manumission prepared.—Cincinnati Gazette.

JAYNE'S HAIR TONIC.—We have, heretofore, numbered ourselves among those who believed that "Alibert's Hair Tonic," sold by Dr. Jayne, was one of the many quack nostrums whose virtues are never seen beyond the fulsome puff of their authors. We are willing, at length, to make public acknowledgement of the error of our belief. An intimate friend, some two or three months since, all the top of whose cranium was as bald as a piece of polished marble, maugre all our jesting and ridicule of the idea of attempting to cultivate so barren a spot, purchased a bottle or two of the Hair Tonic from Dr. Jayne, and according to his directions applied it. During the present week the same friend ushered himself into our presence, and uncovering his naked head, astonished us with a thin though luxuriant growth of hair, from one to two inches in length—upon the very premises we had believed as unyielding to cultivation as the trackless sand that skirts the Atlantic. This is no puff, but is religiously true, and to those who doubt the gentleman can be pointed out. What is more in favor of this "Tonic," the case here cited was not one of temporary baldness—no sudden loss of the hair—but was one of years' standing, though the gentleman is but forty-five years of age.—Philadelphia Spirit of the Times, October 21st, 1839.
