

**From Mexico.**  
The steamer Palmetto at New Orleans on the 15th, from Vera Cruz and Tampico. She brings news only a few hours later from Vera Cruz, having sailed the same day with the Galveston.  
The advice is a day later from Tampico.  
The N. O. Picayune is confident in its own opinion, that the peace published at the Capital on the 5th, speaking of the terms of peace offered by the United States, English mediation, &c., was a hoax.  
Captain Maynor's expedition from Alvarado, against Pader, was unsuccessful.  
Jurata has positive orders to take no prisoners, and to but to death, not only every American, but every Mexican he can catch, who has rendered service to the Americans.  
Col. Pierce has not yet left Vera Cruz.  
The eight American prisoners who have arrived at New Orleans, reported at Tampico that 30 others attempted to escape with them, but were taken, and three were shot in the pursuit.  
It was reported that Dr. Russell's expedition to recover the prisoners had fallen.

**Later from Santa Fe.**  
A recent arrival from Santa Fe brings the intelligence that President Polk has disapproved of the acts of Gen. Kearney, in establishing a Territorial Government in New Mexico, and conferring citizenship on Mexicans; and had countermanded his orders. The Mexicans confined for treason, consequently had been released.  
The eldest son of the Emperor of Brazil is dead.

**Mexico.**  
There is nothing of interest from the armies in Mexico. Gen. Scott was lately reported to have advanced near the Capital, but it is not confirmed. He is waiting for reinforcements. Gen. Taylor, at last, arrives, with at Walnut Springs, near Monterey, also waiting reinforcements. Thus the fruits of every victory obtained by our arms, are lost for want of the means to follow them up. Had Gen. Scott been followed with transportation and men, the road to Mexico lay open to him after the battle of Cerro Gordo; now he will probably have to fight another bloody battle before reaching it.

**BRIGHTON MARKET.**—The Boston Traveler has not furnished us with the state of the Brighton market for the last two weeks, and we can only give the old quotations. We learn, however, from the New York markets, that there is no material change. Prices of Butter from 50 to 57 per cent.

**MELANCHOLY DEATH.**—A little daughter of Mr. Otis Lawrence, of Lyndon, Vt., recently, in returning from school, called at a house, as was supposed, for the purpose of obtaining the time of day, when finding the people about the house, she was seized by her hair on the window sill, raised herself from the ground, and put her head through the open window, that she might look at the clock, when the window fell upon her neck, causing her death before she could be discovered and assistance rendered.

**GREAT DEPOT.**—The Michigan Railroad Company are building at Detroit a brick depot, or freight warehouse, which will be 800 feet long and 400 feet wide—the largest building in the country. It will store 200,000 barrels of flour, and 200,000 bushels of wheat.

**FOR A DAHLIA.**—The Dublin Horticultural Society has recently offered a premium of \$10,000, and the Edinburgh Horticultural Society one of \$5,000, for a blue Dahlia!

**Impressed On Yoke.**—The Massachusetts Ploughmen thus describe the first impression On Yoke heard of during the last hundred years. It is in use in Seabrook and found to be of great advantage to the farmer:  
The bows go through a slide which is fitted to a mortise in the Yoke which is made 3 or 4 inches longer than the slide, making it changeable 6 or 8 inches, which makes the difference between a long and a short Yoke. The mortise is made an inch wider at the bottom than the top, with a groove in the center, half an inch each side for the slide to rest upon, an iron bolt at each end of the mortise and one in the center, which goes through a mortise in the slide and preserves the required strength. The slide is regulated by an iron strap attached to it and enters holes in the Yoke half an inch apart, which makes it easily fitted to any yoke of cattle, from a long to a short, and to give the advantage to either ox from half an inch to 6 or 8.

**Married.**  
At the Vermont House, in this village, July 14th, by Rev. J. H. Willis, Mr. Marshall W. Stebbins, to Miss Clara C. Gage, both of Northfield, Mass.  
Also, July 22d, Mr. Daniel W. Johnson, to Miss Sarah Jane Farrington, both of Northfield, Mass.  
At Portland, July 13th, by Rev. Mr. Graves, Mr. John S. Fullerton, to Miss Maria S. Farwell, both of Townsend.

**Died.**  
In this village on the 24th inst. George S., only child of Mr. Lewis Patton, aged 9 months.  
In Edinburgh, N. Y., June 14, widow Sally Noyes, relict of the late Isaac Noyes, aged 90 years.  
The subject of the above was born in Hingham, Mass. Her maiden name was Haven. In early life she removed with her parents to Wrentham, where she was married. From Wrentham they removed to Marlboro, Vt., where she resided for several years, and from thence about forty years since, to the place of her death, then an almost unbroken wilderness.

**THE LATE JUDGE WHITE.**  
He was born in South Hadley, Mass., October 30, 1770, and graduated at Dartmouth College in 1797, just fifty years ago the ensuing Commencement. A meeting of the surviving members of the Class of that year has, for some time, been in contemplation. He anticipates the pleasure in a few weeks of exchanging friendly salutations with some early associates in study, and of paying his respects once more to his honored Alma Mater. But the hope he so fondly cherished has been disappointed.  
On leaving College, he entered upon the study of Law, and pursued the prescribed course under the direction of the Hon. Charles Marshall, of Woodstock, and Judge Porter of Danversburg. He was admitted to the Bar in 1797, about which time he commenced practice in Fitchburg, where he has since resided.

In addition to the office of Civil Magistrate, which he has filled for a long course of years, he was successively Register of Probate, Judge of Probate, and First Judge in the County Court. For several years he represented his own town in the General Assembly of Vermont, and was in the Senate the first two years under the new regulations. He has held a seat in the Congress of the United States in 1821 and '25.

Judge White made a public profession of faith in Christ, May, 1815, which he adhered to as a religious principle, and was a constant attendant on the services of the Christian Church. He was a man of pure and upright life. A friend to the interests of morality and religion, he was always ready to lend his countenance and aid in every judicious measure adopted to promote them. He was particularly interested in the domestic and moral relations, he was particularly able and kind, the devoted husband, the affectionate father, the constant friend. Few men can be found in any community, who by their broad and generous and generally bearing, secure for themselves a greater degree of affection and respect from all classes.

As the infirmities of age multiplied upon him, he became a more diligent reader of the Bible. He believed in the resurrection of the dead, and in the future life. He was a man of pure and upright life. A friend to the interests of morality and religion, he was always ready to lend his countenance and aid in every judicious measure adopted to promote them. He was particularly interested in the domestic and moral relations, he was particularly able and kind, the devoted husband, the affectionate father, the constant friend. Few men can be found in any community, who by their broad and generous and generally bearing, secure for themselves a greater degree of affection and respect from all classes.

**Townsend Academy.**  
THE FALL TERM of this Institution will commence on Wednesday, Sept. 1st, with the following Board of Instruction:  
Mr. M. LYNDON, Principal, and President of the Teachers' Association; Mr. P. F. WALKER, Assistant; Mr. W. B. RANNEY, Lecturer on Anatomy and Physiology; Mr. P. W. TAYLOR, Teacher of Penmanship; Mr. J. C. CORN, Precinctual Teacher of Drawing and Painting; Miss MARY L. DRAKE, Teacher of Music on the Piano and Organ.  
The Trustees take the responsibility of assuring the public, that in the teachers now employed, their highest expectations have been fully realized. They have been enabled to appreciate the advantages of permanent teachers over those employed for a short time, and of those who make teaching a profession, over those who occasionally engage in the business. Mr. Lyndon, our present Principal, has been with us four terms, and it is understood that he is permanently located here. His high reputation as a teacher, his deep, sufficient, in connection with other favorable circumstances, to render this Institution deservedly the most popular in the State.

The Classical Department, the present year, has contributed to the Freshman classes at different colleges, nine. Fitted for an advanced standing, three. The Teachers' Association connected with this Academy, in the advantages which it affords to young gentlemen and ladies for securing a thorough preparation for teaching, is believed to be inferior to no similar institution whatever.

To render our Academy still more attractive, the building is undergoing a thorough repair. A room is being fitted up for the reception of the Library lately presented to the Institution. All things seem to be taken in good order.

For terms of tuition see Catalogue last published. Board may be obtained in the most respectable families, at from \$1.25 to \$1.50 per week, including incidentals. In club, students board at from 60 cts. to \$1.00 per week. Rooms, either furnished or unfurnished, may be obtained by students wishing to board themselves. Students are requested to be present, if possible, at the commencement of the term, so as to enter the classes when they are formed.

**Normal School and Teachers' Institute.**  
THE subscriber proposes to open a Normal School and Teachers' Institute in this village, on Monday, the 6th of Sept. next, to continue ten weeks. The plan of study, instruction and lectures, will be adapted especially to those who intend to teach school. In addition to the common branches taught in our district schools, instruction will be given in Physiology, Drawing, Algebra, Book Keeping, by String Entry, The History of the United States, and the Structure of our Government and the duties of its Officers. Lectures will be delivered twice a week on subjects important to teachers. Free access will be given to all who wish to attend, and an opportunity afforded to visit the schools of the village. As the number of pupils must be limited, application for admission should be made as early as the middle of August. The Tuition will be Five Dollars for the Term, without extra charges.
