She managed her affairs with great sconomy and falthfulness, and was as careful lest any of the estate should be dissipated as though it was to be jet at her death to children instead of to besevoient societies. For years she lived alone in her house in the village of Jamaica, and it was her unfailing habit to set two plates on the table at every meal—one for plates on the table at every meal—one for which term she always spoke of her husband. An amusing pseuliarity which was wellwhich term she always spoke of her husband, An amusing peculiarity which was well-amown to all the villagers, was her dislike of the neursions of the village cows as they assed her house to and from the pastures. Her house stood close to the street, with no for home stood close to the street, with no ence in front, and she always kept in her ront cutry a long pole and a pile of small subble stones with which she used to sally but to drive away the cows which ventured to albie her grass as they passed. With all her eccentricities, which were increased by he deafness from which she suffered, she had great kindiiness of heart, and her death leaves a real vacancy in the village life.

She has four children, the eldest 13 years old. She was taken to Keene and lodged in jail, and will be arraigned soon. Mrs. Hunter was at Richmond when arrested. A correspondent of the Boston Journal gives these additional facts: A sister of Mrs. Hunter had been visiting her, and on Thuraday morning, June 25, the day on which Hunter was shot at night, this sister left for her home in Plymouth, N. H., and took with her the two girls, aged respectively 13 and 7 years, with the intention of taking charge of them for the present. It appears that Mr. Hunter had not known of this arrangement for the partial breaking up of his family and Honter had not known of this arrangement for the partial breaking up of his family and was affected by and displeased at it when he found it out. He told the eldest girl. Mabel, when taking leave of her on the Thursday morning, that he should never see her again. It appears further that the family had been warned out of the tenement they occupied and after the children left removed to the house where Honter was shot at night.

The editors and crafteness of Brattleboro provided an elegant banquet at the Brooks House which was heartily enjoyed by the members of the association and invited goards to the number of 170. The First Regissent band, one of the finest in the state, played several pieces before the banquet, and the Fhilharmonic orchestra, another fine anusical organization, furnished music for the feast. Misses Howe and Brasor, two Brattleboro young ladies, also furnished fine vocal music, Mr. Locien Howe presiding at the plano. Brattleboro is a very fortunate town, in the prevalent public spirit of its citizens. Evidently they delight in the well deserved reputation which the town has acquired, and local united wish and prayer of its members that relief and strength and heart and hope and all good things for the life and that to come may be yours.

At the close of the banquet a short musical entertainment was given in the dancing hall, after which the adjourned annual meeting of the association was held and the following officers reported by the committee were elected for the year ensuing.

President, A. B. Tuitle of the Mattheway.

Friday morning a steam yacht was placed at the service of the association and a two hours cruise was enjoyed by many of the party, in which they had the rare felicity of sighting a school of whales. Others of the party, regardless of the low temperature of the water, sought a brief embrace from old Neptune; and everyone endeavored to get the most enjoyment possible out of the all too-brief time allotted for their stay. After dinner the party took their departure from the island, followed by the strains of "Auld Lang Syne" from the hotel orchestra. The return trip was scarzely less delightful than the going, and the excursionists returned to their several homes apparently unanimous in the feeling that this year's trip had been all in all the most notable and successful in the annals of the association.

A business meeting of the association was held on the steamer, at which some revision of the roll of members was made, and a committee appointed to report amendments to the constitution at the next meeting. The following resolutions were also adopted with cordial unanimity:
