## BELLows FALLS.

Men are already at work on the foundation for the new house to be built by John T. Moore on Henry street.

Cleveland's minstrels held the boards at the opera house Monday evening, giving one of the best entertainments of its class ever held here.

A survey of Webb brook has been made and the question is being considered of using its water as an addition to the supply of the village.

E. G. Allen of the Long Shore Times, New Haven, Conn., has bought the County Chronicle, and that paper will hereafter be issued from the Times office.

The dwellings of John Robertson and Frank Landon are among the number who have been receiving the popular yellow and white shades of paint the past week.

The death of A. H. Sabin of Saxtons River last Friday removes from this end of Windham county one of the best known of prominent manufacturers and business men of 25 and 40 years ago.

George O. Webster, who was in former years for a long time ticket agent at our railroad station, has been for the past two years practicing dentistry very successfully at St. Albans, and already has a very lucrative business. He is still a bachelor and boards at the Golden House.

At the recent parish meeting of Immanuel church these delegates were chosen to attend the diocesan convention to be held in Rutland in June: John W. Flint, Wm. A. Hall, F. Carruthers, Geo. O. Guild, Alternates: J. H. Webb, Geo. H. Babbitt, H. E. Howells, Chas. W. Butterfield.

The first thunder storm of the season came Tuesday night, following two or three days of rain and cloudy weather. The grass which had been at a standstill during the dry time, has started up well since the rains, and now looks nearly as green as well as usual at this time of the year.

A small party from this place attended the "living whist" entertainment given by the Universalist society in Claremont, N. H., last evening. The entertainment was closed with a dance to which only a limited number of tickets were sold, and which was very enjoyable. Music was by Blaisdell's orchestra.

The board of cemetery commissioners held a meeting last Monday afternoon at the office of the Vermont Farm Machine company. Plans for the improvement of the grounds this season were laid, including the probable building of a new fence along the front on the Saxtons River road, replacing the old unsightly wooden fence of the past few years.

The first number of "The Parish Worker," a parish paper, has been received by members of Immanuel church this week. The paper will be issued monthly, and is, as it states, "A monthly record of parish work in Immanuel parish and a magazine of religious reading." The editorial department is conducted by the rector and the advertising department by the members of the brotherhood of St. Andrew. The price of the paper is 50 cents a year.

The annual May festival of the ladies of the Universalist society was held in union hall Tuesday evening, and was very largely attended. The proceeds were about \$150. More than a hundred supper tickets were sold, and the supper was fully up to the usual high standard of the ladies of this society. The cantata was a great success, and the evening closed with the usual dancing, with music by Hutton's orchestra.

A drunken man caused some amusement or disgust—as you look at it—as on Henry street, Wednesday afternoon, by attempting to drive over the machinery used in moving the Woods house. The horse and machinery for pulling the building stood directly at the entrance of Hadley street where he wanted to go and set in his wagon brandishing his whip and ordering the men to move the timbers out of his way, in language which was forcible if not polite. It is understood that he was taken in hand, later, by the police.

F. P. Ball, of the firm of Derby & Ball, is in attendance at the general conference of the Methodist Episcopal church in Omaha, Neb. This conference, which is held quadrennially, convened on the second of May and will be in session the greater part of the month. The conference now in session is a most important one, that body holding as it does, with a few exceptions, entire control, ecclesiastically, of the bishops and ministers of this branch of Methodism, as well as of its property interests. The delegates to the general conference are elected by the laymen, and the ratio is one delegate for every 45 ministers, and one for every fraction equal to two-thirds of that number. Among the many important questions to be discussed at this conference are those of a larger representation of the laity, and the question of the admission of women as delegates.
