THE NEWS IN BRIEF.

An Air Bicycle.

The New York World Claims to Have Settled the Question That a Man Can

The World claims to have settled the question that man can fly. "A reporter has succeeded in flying for hours here, there, backward and forward, and up and down in the air. With the aid of a bicycle attachment and a pair of wings, or aeroplanes, as the scientists call them, the problem of man-flight has been solved. No other flyng machine was ever able to stand still in ne air. No balloonist or aeronaut ever ntrived to rise in the air or descend without using any ballast or letting out gas from his balloon. And, of course, no aerial nachine ever constructed could turn around in the air and travel backward. The World's wonderful flying machine does all these things."

The machine, which has been tested in the country, is now in Brooklyn, and as soon as it can be put together a reporter will, it is said, take a trip over New York and astonish the citizens of the metropolis as Darius Green proposed to astonish the rustics of the county fair. The fly of the wonderful new machine will be awaited with interest, and if it does all that is claimed for it perhaps the popular bleycle may be superseded by the machine, which is independent of good roads, though, like the wheel, sensitive to punctures.

The Corn Crop Safe.

It Will Give the Farmers Much Money and Have an Effect on General Busi-

mean; Each week brings the West near to the time when the largest corn crop ever gath-ered will be secured. It is so far advanced in Kansas and part of Nebraska that it is practically out of the way of possible damage from hot winds, and another week will put part of it beyond harm from early frosts. About every well-informed rail-road man in the West estimates the crop at not below 2,250,000,000 bushels, and some say 2,500,000,000. The state reports coming in make the yield larger than the government figures a month ago, so that there will be corn "to burn" in the far

The corn crop, combined with the large yield of oats, will give the farmers more money than they have had for years, and money than they have had for years, and enable them to pay off a good part of their debts and also to buy goods freely. The prospects are for the largest grain traffic that the granger roads have had for years, and also a very heavy traffic in merchandise and manufactured goods. The movement regrees into thinking the assembly peace-able. The negroes as a result remained in and manufactured goods. The movement has only fairly started, but in another week it will be greatly enlarged. General managers of most of the roads are out in-

date.

"Gen," J. S. Coxey, who led the com-monweal army from Massilon to Washington, has been nominated for governor by the Ohio Populists. There is richness in the platform adopted, which declares for the free coinage of silver at the ratio of 16 to 1, demands the abolition of national banks, indorses the eight-hour labor system, indorses Coxey's good-roads idea, de-Senses of Taste clares it treason to issue interest-bearing bonds in time of peace, pronounces the Debs trial a subversion of the right to trial by jury, demands that all public monopoticle is applied into each nostril and is the nationalized, favors state control of the sale of intoxicating liquors without ed. 60 cents., ELY BROS., 56 Warren St. of all state and national officers by direct

Killed a Boy Who was Stealing Fruit. Miss Bessie Flagler, youngest daughter of Gen. D. W. Flagler, chief of ordnance of Gen. D. W. Flager, chief of ordance of the United States army and well known in Washington society, shot and instantly killed a colored boy maned Ernest Green, who was stealing fruit in the yard of the Flagler residence last Friday. Miss Flagler, whose father was away at the time, surrendered herself to the authorities, and no testioned the state of the hearthy given in the beaution of the state of the testimony was given at the hearing except her own. Boys have repeatedly raided he fruit trees of the Flagler grounds. Miss Flagler saw young Green and a companion enter the yard and her warning to them to withdraw was unheeded. She fired three shots with the revolver, but had no intention of injuring them. The jury discharged Miss Flagler, not considering her responsible for the boy's death. The ball entered the boy's head. His father is a messenger in one of the executive departments.

Hundreds of Divorces Invalid.

Following the decision that probate judges have no right to grant divorces in Oklahoma since August 13, 1893, the su-preme court of that territory has decided that even before that time their jurisdiction was confined to persons who had been residents of the territory two years or more, and that all divorces granted by them to persons on 90 days' residence are null and void and subsequent marriages bigamous. As all outsiders for divorces took advantage of the 90 days' residence clause, this decision invalidates between 300 and 400 divorces granted to Eastern people in addition to the 700 or 800 renfered invalid by the decision of last Saturday.

The New York World contains a story to the effect that a woman named Mrs. John Angell of Rouse's Point N. Y., will sue the estate of Jay Gould, claiming that she was the first and therefore the only wife of the multi-millionaire, and that her daughter is his daughter.

scarcely left the lips of Rev. Mr. Bowman, in the Methodist church at Quakertown, N. J., Sunday, when there came a blinding flash of lightening and a terrifying burst of thunder. The bolt entered the church and injured a score of people, several of them probably fatally.

massacre at Kucheng on July 31. At least ten missionaries were killed. The survivors had a terrible experience. The survivors had a terrible experience. They say death was the least part of the sufferings of the butchered women. The American missionaries, Miss Hartford and Dr. Gregory, escaped, but the former was fearfully injured. Several English and American children were killed.

The cruiser Columbia, Captain Sumner, arrived at New York Friday from South-ampton, having made the run in the re-markably short time of 6 days, 23 hours and 40 minutes, the average speed being 18.41 knots. The voyage was made under natural draught and the conditions on the cruiser were not especially favorable for great speed. No warship ever before crossed the Atlantic in so short a time.

The Missing Christian Endeavorer Found.

Mrs. Annie M. Gardner of Arcadia, Neb. the missing Christian Endeavor delegate, whose disappearance has caused much diswhose disappearance has caused much dis-cussion and speculation in the newspapers, was found Thesday at Norwich, Conn. She was working as a domestic in the family of Edward R. LaPierre. On arriving at Nor-wich Mrs. Gardner attended the summer school under the name of Dorothy Mans-field and at the close of the school found employment. She intended to enter the Norwich academy in the fall. She refused to return to her home because she said her husband accused her of being insane. Her presence in Norwich was learned by Mr. Landers, her husband's representative in the East. Mrs. Marshall of Cambridge, Mass, with whom Mrs. Gardner stayed during the Christian Endeavor convention, under the name given at Norwich, on reading the newspaper accounts became con-vinced that she had entertained the missing woman, and informed Mr. Landers that Mrs. Gardener had gone to a summer school in a Connecticut town. Mr. Gardner is now on his way from Nebraska to induce

his wife to return with him, Although Mrs. Gardner at first obsti-

Cloudbursts Flood Western Towns.

The flood in Socorro last week was the most serious in the history of New Mexi-co. The rain had been falling heavily two hours when a cloudburst occurred in the mountain five miles from the town, and in short time dark, gigantic waves took their devastating course through the streets. Many bridges and a mile of the railroad were washed away. The wave was 20 feet in two of the small suburbs. Forty buildings were destroyed and 100 more will fall. The damage is estimated at \$700,000. Eighteen persons, two of whom were Americans and the others Mexicans, were probably drowned and most of the bodies have been recovered. There was also a cloudburst at Adelaide, Colo., a mining town on the line of the Florence and Cripple Creek railroad. Forty buildings were wrecked and at least three persons drowned.

Italians Shoot Down Negro Miners. The Italians of Spring Valley, Ill., broke out Sunday in a war upon the negroes. The Italians for many months have wished to drive the negroes out of the coal mining able. The negroes as a result remained in their homes, and the Italians fell upon them like a lot of Apache Indians. The specting their lines and ordering repairs men were dragged out, trampled upon and made in all parts. "Gen." Coxey a Gubernatorial Candi- and slapped, and two of them were shot down and fatally injured. Sheriff Clark of Princeton was telegraphed for, but arrived too late. Many of the injured are expected

Further trouble at Spring Valley came Tuesday when the Italians carried out their threat to expel all colored people from the city. Disgraceful outrages were perpetrated under the protection of the mayor and policemen, all of whom are Italians. Innocent women and children were driven from their homes and their trunks and belongings dragged about and despoiled. The colored people in Chicago have issued a call to arms for the purpose of avenging the outrages upon their brethren at Spring Valley.

Sprague, Wash., Wiped Out by Fire. Sprague, the county seat of Lincoln county, Wash., and the division point and location of the Northern Pacific car shops, th wind was blowing at the time and the swept with resistless fury, destroying \$1,000,000 worth of property in two hours. Every business house except three small dores and the First National bank were burned. The fire may be a death-blow to Sprague, as it is probable that the Northern Pacific will now move its shops to Spokane. The burned district covers 320 acres. The loss to the Northern Pacific company alone amounted to \$750,000.

To Put Queen Lit on the Throne. The San Francisco Chronicle states that W. P. Morrow of that city has been en-listing from 200 to 400 men to go to the Hawalian Islands on a sailing vessel from San Francisco. The object is to capture the five steamers that ply between the islands and then approach Honolulu and then take possession of the revenue offices and the bank of Bishop & Co. The plot fur-ther involves the overthrow of the present Hawaiian government and the placing of the ex-queen on the throne as a mere figure-head. Hawaiian Consul-Gen-eral Wilder will look into the matter,

The Revolver in Kentucky.

W. Newton Lane, while on a spree, shot and killed young James Rodenbaugh at Versailles, Ky. The murdered man and the murderer quarreled and both pulled pistols. Rodenbaugh's father, a Federal veteran, was also shot by Lane, and will die. Lane is one of Colonel Breckinridge's friends and supporters.

In the final run Monday of the cruise of the New York yacht club, a 37-mile beat to windward from Vineyard Haven to Newport, the Defender started last and finished first. She beat the Vigilant nine minutes and nine seconds, and was about 20 minutes ahead of the Jubilee.

Albert and Henry O'Neal were shot to took place in the evening. The words of a fervent benediction had a received the lips of Rev. Mr. Bowman, in the Methodist church at Quakertown, men, who had all gone to the revival meeting heavily armed and "expecting trouble.

Charles Elliott and Elia Park ascended to an altitude of 1000 feet in a hot-air balhem probably fatally.

News has come from Shanghai of the massacre at Kucheng on July 31. At least on missionaries were killed. The survithe aeronauts were so horribly mangled by

the fall that they will not recover.

Defender won the yacht race Saturday from Newport to Vineyard Haven, finishing about six minutes ahead of Vigilant and 20 minutes ahead of Volunteer. The Vigilant was handicapped 52 seconds and the Volunteer 53 seconds. Taken from these figures, the Defender's win over the Vigilant is 5 minutes, 32 seconds.

The famous Hale and Norcross mining suit, by which M. W. Fox, for the stock-holders of the company, sought to recover millions from the directors, was decided by the supreme court of California on Saturday. Hayward, Hobart and Levy, the defendants, were denied a new trial, and ordered to pay \$210,197.50 to the plaintiff.

A Boston despatch says papers have been served in behalf of the American Bell Telephone company upon the National Telephone Manufacturing company in a sult for an order restraining the latter from infringing the Berliner patent. The suit | ning from the Barnard line through South as brought will test the validity of the Berliner patent. The suit | ning from the Barnard line through South as brought will test the validity of the Berliner patent. liner patent, and will be fought by the Na-tional company with the assistance of sev-of this road at a 2:40 clip without halt and eral other corporations.

THE VERMONT NEWS.

Sensational Shooting.

Dr. B. C. Senton of Rutland Fired Upon

John Quinn -- Cause of the Trouble. Rutland had a sensational but bloodless shooting affair Monday. Dr. B. C. Senshooting after Moneay. Dr. B. C. Senton, one of the best known physicians in the city, was the shooter, and John Quinn, a young man, was the target. Quinn's father, Michael Quinn, is a wealthy resident, and his home on Washington street is near that of Dr. Senton. Quinn had been in the city only once since last spring, being engaged with his brother in running a hotel at Lake Dunmore. It is said that Dr. Senton had threatened to shoot him if he did not leave the community. Quinn came to Rutland Monday and in a short time met Dr. Senton twice on the streets. He had secured some personal effects at his home and was on his way past Dr. Senton's house when the latter ran out with a revolver in hand. He pulled the trigger twice but the weapon was not dis-Atthough Mrs. Gardner at first obstinately refused to go home site finally yielded to the persuasion of the Norwich city
missionary and left with Mr. Landers for
Chicago Wednesday afternoon.

charged. Quinn then ran down the street
with Dr. Senton in pursuit. One more
shot was fired, which passed close to
Quinn's head. A. Van Harwood, a reporter for the Rutland Herald, seized Dr. Senton and persuasied him to return beton and persuaded him to return home. Quinn says he does not know why Senton fired at him. Senton claims that he made himself offensive to his family, that he lost control of himself and ought to have kicked the young man instead of shooting. The Rutland correspondent of the Burlington Free Press intimates that Quinn's relations with Mrs. Senton were the cause of the trouble. Quinn made no complaint against Senton and left at once for Lake Dinmore. Dr. Senton was health officer at Rutland last year and is assistant sur-

geon of the Vermont National Guard. Later,-Dr. Senton was arrested Tuesday on a warrant charging him with as-sault with intent to kill. He waived ex-amination and was bound over to appear before the county court. Bail was fixed at \$10,000 and was furnished by Henry O.

An Incendiary Captured at Lincoln. The burning of Moses Carpenter's barn at Lincoln July 2s, with the contents, which included about \$1200 worth of shoe block lasts, was the result of a plan to defraud the insurance companies of \$3400. The Carpenters, Moses and Henry, told several stories relative to the origin of the fire, which led W. A. Lawrence of Bristol, Addison county director of the Vermont Mutual, to make an investigation, resulting in the arrest of Henry Carpenter, a brother of Moses. He was taken before Justice I. A. Colby on Thursday, to whom he confessed having set the fire. Carpen-ter was placed under \$1000 bonds, in default of which he was taken to Jail to awalt the action of the grand jury. The Vermont Mutual carried \$1800, the Union Mutual and New England \$800 each of the insurance. In his confession Carpenter exonerates his brother Moses and his wife from guilt.

Another Gold Mining Company.

The "Mineral Hill Gold Mining com-pany" has been organized with the follow-ing officers: President, F. S. Mackenzie, Woodstock; secretary and treasurer, Charles R. Montague, Woodstock; direct-ors, F. S. Mackenzie, C. R. Montague, Woodstock; Alexander S. Paton, Charles E. Hudson, J. W. Wilder, Leominster, Mass. The capital stock is \$150,000, divided into 15,000 shares of the par value of \$10 each. The property of the company adjoins that of the Ottauquechee Gold Mining company in Bridgewater, and surface prospects show some excellent ore. ment work on the property began

Former Montpeller Woman Mysteris ously Disappears.

Mrs. Silas S. Smith has mysteriously disappeared from her home in Lynn, Mass. She went to the railroad station with her 12-year-old boy, bought a ticket to Boston, and sent the lad home. Nothing has been heard from her since then. Mr. Smith does not believe that his wife has wilfully deserted him, but thinks she has been fouly dealt with. The couple have been married over 20 years and their relations have always been pleasant. The Smith family went to Lynn from Montpeller four or five years ago.

Threw Her Baby Into a Clump of

Bushes. The three-weeks-old infant of Rose Young, a girl of 14, disappeared from West Topsham. The mother said she had given the child to a woman who had driven away in a team. The story seemed so unreasonble that search was made and the child found alive where it had been thrown into a clump of blackberry bushes. The mother was arrested and placed under \$300 bonds for appearance before the county court.

Elopement at St. Johnsbury.

Flora, 17, daughter of D. H. McCloud of Flora, I7, daughter of D. H. McCloud of St. Johnsbury, disappeared last week, and she is supposed to have cloped to Portland with a man named Lewis, 35, who has been employed in C. H. Stevens's mill, Lewis had been forbidden to come to the house by the girl's parents, and she left her chamber by the window in the night.

Runaway Accident Results Fatally. Harry Russell, aged 82, was fatally injured at Shelburne last week Thursday, He was driving down a hill when his barness broke, and the carriage went forward upon the horse, causing the animal to run. Mr. Russell was thrown out. Two gashes were cut near his left eye, one arm broken, and he was injured internally. His death

Important Divorce Case. Mrs. Gertrude Barnes Jones of Barre has petitioned for a divorce from her husband, Rev. I. Jones, who was paster of the Congregational society at Williamstown from 1888 to 1890, on the ground of intolerable severity and non-support. Mr. Jones is a native of Wales and a graduate of Yale divinity school. Mrs. Jones is a member of a prominent family in Barre.

The Congregational church at Danville and the barns of Frederick Frye were burned Saturday night.

A fire supposed to be of incendiary origin occurred at West Enosburgh Sunday

evening. A large barn, valued at \$2000, containing 150 tons of hay, was burned. It was on Crampton & Richardson's farm, J. W. Edwards, formerly of Richmond, recently killed his wife, child and himself in San Jose, Calif. One daughter was saved. Particulars and causes for the hor-

rible crime are now known by his relatives, who live in Winooski. A shooting affair occurred at News Saturday when Willard Berry fired at Will Morey while the latter was standing in his own yard. The trouble grew out of a jealous feeling that had existed for some time. Morey has entered a complaint to

the state's attorney. The state highway commissioners report that the best six miles of road is that run-ning from the Barnard line through South without danger.

The Fish and Game League Meeting. The midsummer meeting of the Vermon

Fish and Game League was held last Thursday at the home of its president, Hon. N. W. Fiske, on Isle La Motte. The company of 300 present included many of the prominent men of the state. Dinner was served in two tents on the lawn. C. W. Wilds of Middlebury had charge of the post-prandial exercises. Among the speakers were Gov. Woodbury, ex-Senator George F. Edmunds, Senator Proctor, Con-gressman Grout and Powers, ex-Governor Stewart, Gen. J. G. McCullough and Pres-ident Buckham of the University of Ver-mont. No speaker was greeted with a heartier round of applause than was ex-Senato Edmunds. He said: "There is fun in fish ing and talking about it, and fun in hav-ing fishing organizations, but beyond al that, and beyond all the material advantag to a state as favorably situated as Vermon is, may be mentioned the educational part of fishing and hunting as intelligent and respectable people do. It brings us into in-tercourse with our Mother Nature. There are the water and rocks and trees and skie everywhere, and no man has so fine an op-portunity to study out what the whole life that they bring us into communion with what tends to make men better,"

Owen Raymond, aged 50, an inmate of cide by hanging Sunday, in a fit of tempo rary aberration.

It is reported at Barre that a big syndi cate is being formed, with members in va-rious parts of the country, to purchase all the large granite plants in that section.

Willis K. Jackson of Barre, telegraph operator and ticket agent for the Central Vermont railroad, is an embezzler in the sum of \$350 and has been placed under

Gen. J. G. McCullough has nearly com pleted, at his farm near North Bennington fillage, what are said to be the second largest stock barns in the state, being ex-celled only by those of Dr. Webb at Shel-burne. The barns cost about \$16,000. Co. F, 21st United States infantry, a

rived at Burlington Monday from Platts-burg. The infantry at once started on its march of 90 miles to Faitiee to take part in the annual encampment of the Vermont

Roy, the 10-year-old son of Dr. J. H. Linsley of Burlington, fell a distance of 22 feet Saturday night, striking upon his head and shoulders. He was unconscious 18 hours and was twice pronounced dead, but was restored by artificial respiration. He is now expected to recover. The Berlin Iron Bridge company of East

The Berlin Iron Bridge company of East Berlin, Conn., has been awarded the con-tract, at \$24,547, for building a bridge across the Connecticut, connecting White River Junction and Lebanon. The bridge is of the Platt truss pattern of three spans, 580 feet over all, and will be completed in 90 days. The Berlin company will receive \$3000 for building the abutments. An Albert medal has been awarded to

An Albert medal has been awarded to Mr. Hereward Hewison of Newcastle, New South Wales, for saving his brother from a shark last year. The brother was seized by the arm while swimming, when Mr. Hewison swam to him and fought the shark till it bit off the arm at the elbow, releasing his prisoner; he then swam ashore, pushing his brother before him.

Sweden's state telephone is soon to be connected with the state telegraph. In-stead of addresses the telephone numbers will be used, the telegraph clerks looking up the address. Messages may be tele-phoned to the telegraph office and telephoned back, thus dispensing with the greater number of the messenger boys, as in Sweden nearly every one uses the tele-

canning industry in that state. The y claim that it will injure the reputation of the state and of other canning industries They don't want people to say or think "dead horse!" when they see the brand "Oregon" on cannel meats. The horse cannery has started business, but little is heard from it as yet. A strange phenomenon of the season is

the fact, as reported, that the St Lawrence river is three feet lower than usual, and ower than it has been known for 50 years. This low pitch of water has closed a num-ber of channels heretofore open to steam ers, and rendered navigation in several places difficult. No adequate explanation s given of this remarkable falling of the river. The phenomenon is not confined to the St. Lawrence. It is seen also in the Niagara and Lake Champlain.

An interesting exhibit to be sent to the Atlanta exposition by the women of Cobb county, Ga., is the noted "battle-scarred cabin" from the battlefield of Kennesaw Mountain. It is a plain log cabin, about 20 feet square, and was situated just behind the Confederate breastworks. It of fered a good mark for some of Sherman's batteries, and was bored in every part with shells and peppered with bullets, but did not take fire. There are over 30 clean holes through its walls made by federal shells, and many hundreds of bullets are buried in the logs. The cabin is to be taken down and rebuilt in the exposition grounds.

The New York and New England rail road company has found a "bottomles pit" at Towantic, ten miles west of Waterbury, Conn., at an elevation of 1000 feet. A swamp at that point was bridged when the road was built. Recently the company built a temporary track around the place and began to fill in the trestle work, as it had given evidence of weakness. Over 2,000 loads of gravel have been dumped of the trestle, but no perceptible effect has been made. The gravel dumped at night is swallowed up and disappears from sight before morning. When the western exten-sion of the road was built, a dozen years ago, a bottomless pit was found at Wha-len's Pond, west of Brewster's, and for months it looked as though the pond's hunger for gravel would never be filled.

A FEEBLE WOMAN

—suffering from nervous prostration, ex-citability, or dizzlness, the result of weak-ness, derangement, or displacement of the special organs—will find health regained after using Dr. Pierce's Favorite Prescrip-tion. In every case of "female complaint"

PIERCE antees a CURE OR MONEY RETURNED.

About two years ago I
was so sick with womb
trouble that I could not
cross the room without
fainting away. The
doctors could do me
no good and told me I
must die, but my
mother got me "Faverite Frescription,"
and in one week I began
