EAST DOVER.

The evening of Jan. 31 proved to be mild, with excellent roads, and the annual donation at the Baptist parsonage was largely attended. Conversation, music, games and supper at the chapel were the features of the gathering and upon their departure the company left the usual gen-erous and acceptable gifts for the benefit of the pastor and family. The presence of many members of the Methodist society was an indication of the pleasant relations existing between the two societies. The new kitchen and tables at the chapel were used for the first time exclusively for the benefit of the East Dover people and added much to the enjoyment of that part of the program. One might travel many miles through communities of the same number of inhabitants and not find a more complete and convenient set of buildings for church purposes than are to be seen

Golden Wedding Celebration.

One of the most enjoyable events of the season was the golden wedding anniversary of Mr. and Mrs. Cyrus Babbitt, celebrated last Saturday evening. Neighbors and friends filled their house to overflowing. about 150 being present, and the heartlest congratulations and good wishes were tendered to them. It is a remarkable fact that during these 50 years death has not entered their home. Of their five children two were unable to be present, one on acother, a physician at Washington, D. C., was unable to leave his business. Mrs. Carrie Pierce, a sister of Mrs. Babbitt, Mr. and Mrs. Alvah Pierce and Mr. and Mrs. Fred Rand from Saxtons River came to join their congratulations with other friends. Substantial tokens of esteem, including nearly \$100 in gold, were left with the hosts. There were songs by the John-son brothers and Harold Pembroke during the evening, and cake and coffee were

Attempted Robbery of the Post-Office. Last Sunday morning some one made an attempt to get into the post-office. Mr. Cutler was awakened about 12:30 A. M., by what he thought was some one pounding on the office door. Thinking that some one was III, or that something was wrong at the farm, and he was wanted immediately, Mr. Cutier got up and lighted a lamp. But it appears that no one was ill, that every thing was all right at the farm, and that the pounding was not intended to at-tract his attention at all, for as soon as there was a light the pounding stopped and the author of it gave three shrill whistles, whereupon a team drove up, slacked, but did not stop, the man who was at the door jumped in, and off they went toward Newfane. In the morning Mr. Cutler thought he would investigate the matter a little, and to his surprise found that a jimmy had been applied to the door with enough force to split off a three-cornered piece, about six inches in length. Without doubt this crowd is a part of the gang who have been cracking post-offices and robbing mail bags in the neighboring towns. This affair ought to be looked into and the gang run down.

There will be a teachers' institute held the village Wednesday, Feb. 12, under the direction of State Superintendent Ma-son S. Stone, assisted by County Super-visor Ryder. All those that are thinking of teaching are invited to be present. There will be a public session in the even-ing. Although the Bellamy system of housekeeping has not yet best fully developed, the women of the day are to be congratulated upon the cast strides that are tents made howard convenience and economy in housekeeping, and especially as regards the house full of fare.

In this connection, the Merrell-Soule company of Stracuse, has come conspicuously to the front with their None Soult Minos Meat, a material for desserts, the promisent features of which are its wholescinelesses, richiness of flavor, and the remarks by short time in which it can be prepared for the table.

The ingredients of this Mince Meat are prepared by exact rule, and with the greatest care, in no katchen in the land is there more scrupious cleanliness. The choicest apples, and the select direct in the land is there more scrupious cleanliness. The choicest apples, and the select direct are chopped by steam power, the currants are washed and re-washed by the same method. The raisons are seeded, the sugar ground, the spices mixed, and every operation performed with the skill that would meet the approval of the most particular housewife. The proprietors recognize that the immens sales of their product rest entirely on its being maintained at the highest possible standard, and it is their experience that those who try it once are unwilling to go back to the old isborious way of making mince pies, but accept the new order of things as thankfully as they do the sewing machine or the electric light.
