LOSS OF VOICE After Acute Bronchitis CURED BY USING

ER'S Cherry Pectoral

A PREACHER'S EXPERIENCE.

"Three months ago, I took a violent cold which resulted in an attack of acute bronchitis, I put myself under medical treatment, and at the end of two months was no better, I found it very difficult to preach, and concluded to try Ayer's Cherry

Pectoral. The first bottle gave me great relief; the second, which I am now taking, has relieved me almost entirely of all unpleasant symptoms, and I feel sure that one or two bottles more will effect a permanent cure. To all ministers suffering from throat troubles, I recommend Ayer's Cherry Pectoral."-E.M. BRAWLEY, D. D., Dist. Secretary, Am. Bapt. Publication Society, Petersburg, Va.

Perfect Hot Air **Blast Draft Furnace**

it produces as much heat from the gases and smoke alone, by consuming them, as the ordinary furnaces make from the coal, producing 30 de-grees higher temperature of heat with 11 per-cent less coal. This is accomplished by supply-ing oxygen heated to a high temperature through the middle of the body of coal on each side of fire pot forcing all gases from the fuel, intro-ducing high temperature oxygen above the sur-face of the fire. Result, perfect ignition of oxygen, gases and smoke producing more heat with less coal than any furnace on the market. These are not idle words, but the application of the scientific, modern, practical way of obtaining the full benefit of the combustion of the coal.

I will set one of these furnaces in competition

with any other make of furnace in the world and if it will not produce more heat with less fuel I will set one in your house and charge you rothing

THE NEWS IN BRIEF.

McKane Should Not be Pardoned. An application will be made for the parcommutation of sentence of John Y. McKane, the boss of Gravesend, whose six-year term in Sing Sing does not expire until 1898. The prison physician has certified that McKane is suffering from lesion of the heart, Bright's disease and asthma. McKane has had charge of the construction of new buildings at Sing Sing and it is claimed that he has saved the state \$17,000. Gen. Benjamin F. Tracy and Edwin M. Shepard, who were the prosecuting attorneys on the McKane trial, have signified their willingness to appear before Gov. Morton in McKane's behalf, on the ground that justice has been vindicated and that McKane's sentence was

heavy one under the circumstaness. The Springfield Republican is right when it says editorially that there are the strongest reasons why McKane should not be pardoned unless release from prison is absolutely necessary to save his life. "Men who will debauch the ballot, who will cheat and swindle and defraud at elections, who will corrupt voters, forge registration or enrollment lists, encourage repeating and illegal voting, or practice trickery and de-ceit in order to win places for themselves or their tools and friends, power for themselves or victory for their party, are worse enemies to the country and society than any other class of criminals, and when society gets its grasp on one of the worst of these criminals only the very strongest reasons should induce it to release him un-til he has paid the uttermost farthing of the penalty imposed upon him."

Terrible Case of Leprosy in Boston. A woman suffering all the pains and hideous tortures of leprosy was discovered in South Boston a few days ago and was removed to Galloupe's island in the harbor. That it is a case of leprosy is not denied by Dr. Durgin and other members of the board of health. The woman is 35 years old, of English birth, and her husband is a hard working man. They have five bright chil-dren and the family have lived in South Boston five years. The doctors are satis-fied that neither the husband nor any of the family have the disease. The family have not mingled with their neighbors, and, as the house has been thoroughly fumigated and the other members of the family properly cared for, there is no fear

Death of Wm. H. English.

Wm. H. English, 73, died at his home wm. H. Engissi, 15, died at his home in Indianapolis, Ind., Friday. He was a lawyer by profession, and in 1852 was elected to Congress as a Democrat. He served from 1853 to 1861, when he resigned and engaged in banking. He was prominently identified with the legislation of that period and was the author of a compromise measure in relation to the admission of Kansas as a state, which became a law and was a prolific theme of controversy in the heated political contests of that day under the name of "the English bill." From 1853 till 1861 he was one of the regents of the Smithsonian institution in Washington. In 1880 Mr. English was unanimously nominated for vice president on the ticket with Gen. Hancock by the Democratic national convention. He was president of the Indiana historical society and is the author of a historical and bio-graphical work on the constitution and lawmakers of that state. Mr. English leaves a fortune of several million dollars.

New Cure for Consumption.

A remedy for tuberculosis is announced. It was discovered by Dr. Cyrus Edson of New York city, and tested and experimented with by a score of the best physicians in and about New York. The treatment consists of hypodermic injections of a new remedy called aseptolin, the formula for which has been made public. Two hundred and eighteen cases have been formally reported upon by physicians, besides those treated by Dr. Edson himself. Twenty-three of these patients have been discharged cured. Sixty-eight are so far along toward complete recovery that the attending physicians announce a belief in the certainty of cure. Ninety-one show marked improvement, but have not yet been under treatment long enough for the the doctors to feel positive of coming recovery. Three have resisted the remedy entirely. One died under treatment.

Boiler Explosion.

One man was killed and one fatally and five slightly injured by an explosion of the 110 power boiler in a mill at Lonesdale, R. I., Monday. By the force of the explosion six other bollers were damaged and the boiler house demolished. Windows were shattered in places a thousand feet away. The assistant engineer and his employes, about 15 in number, were just getting ready for the day's labor. The noise and shock of the concussion were terrific.

Hungarians and Poles, embittered by troubles of five years, clashed at Whiting, Ind., Thursday. The riot was quelled after three had been killed and two injured.

The plant of the Brimmer-Sprague com pany, shirt manufacturers was burned at Pittsfield, Mass, Friday. Loss about \$40,-000, fully insured. About 225 people were employed by the company. .

The steel mills at Fort Payne, Ala., are to be put in operation at once. They were built eight years ago at a cost of \$300,000, never been run because of the collapse of the Fort Payne boom.

Burglars blew open the safe in the post-office at Bristol, R. I., Friday night and office at Bristol, R. I., Friday night and secured some \$600 in cash and \$60 or \$70 in stamps. The customs house in the same building was somewhat damaged by the ex-

plosion. The Reed toy company's factory at Leominster, Mass., was burned Friday night. The company employed about 100 hands and the concern was one of the best industries of the town. The loss is estimated at \$70,000; insurance, \$50,000.

During a carousal among French Canalians in a disreputable house at Old Town, Me., Friday night, Charles Doloff drew a revolver and shot Joseph Albert through the heart because of his attentions to a girl in the company. The murderer is 18 and his victim was 26. Doloff was arrest-

The Nashua, N. H., manufacturing company will build the largest cotton manufacturing mill in Alabama at Cordova, 40 miles west of Birmingham. The mill will contain 40,000 spindles and will cost \$300,-000. The chief inducement that secured the location at Cordova was the low price

of coal. Judge Sutherland, in Rochester, N. Y. Saturday sentenced the Rev. John M. Fitzgerald to Auburn prison for 10 years. Fitzerald was recently convicted of arsen, he having been implicated in the burning of the school house connected with the parish of which he was the priest. The prisoner made a speech in court affirming his inno-

Peter Atkins, a blacksmith of Middle-town, N. Y., and a companion named Maud Kelley were drowned in the Wall Kill river, at Hopkins bridge, Saturday night. Atkins attempted to cross the stream, which is greatly swollen by the recent rains, in a light wagon. The strong current overturned the vehicle, and its occupants were thrown out and carried away.

dis To

THE RAGING ELEMENTS.

Bound Brook, N. J., Devastated by Fire and Flood.

Phree Vessels Wrecked on the New Conn., Acadent Resulted in Six

Beaths. Bound Brook, N. J., was devastated by two opposite elements, fire and water, Thursday night of last week. The heavy rain swelled the volume of water in the Raritan river so that the arched openings of the bridge of the New Jersey Central railroad would not permit the water to flow through. It backed up and inundat-ed the town to the depth of five to 10 feet. The people took refuge in the second stories of the houses. Many frail structures were torn from their foundation, and numbers of dead animals went down in the torrents. A man named Miller, whose boat was overturned, was the only person who was drowned. A quantity of lime in Cook's lumber yard was slacked by the water, and ignited the surrounding piles of lumber. The flames were fanned by a fierce wind, and as the fire department was helpless because of the high water nothing could be done to save the burning buildcomings. The total damage in the town was \$150,000. The lower part of Morristown, N. J., was flooded to a depth of seven to ten feet by the breaking of Pocahontas lake

dam. The damage amounted to \$50,000. The stretch of coast between Portsmouth, N. H., and Ipswich, Mass., was the scene of three wrecks Sunday, attended by the loss of ten lives. One vessel went ashore on Hampton Beach, another on Salisbury Beach and a third on Plum Island. At Hampton Beach, all the crew of the wrecked vessel, the schooner Glendon, were saved; but everybody on board the Florida, which was driven ashore at Salisbury, perished in sight of the people on the strand. Three of those on on the strand. Three of those on board the schooner Allianza, which pounded to pieces on Plum Island, perished with the vessel. The life-saving crews did all that was humanly possible, but the weeks occurring at the same time and at a distance of several miles from each other, much time was unavoidably lost by those who sought to rescue the doomed seamen. This part of the coast is so well lighted and so well known to captains of coasting vessels that the disasters are probably attributable only to the hazards of the sea, the super ority of storm over the strongest fabric

that the hands of man can put together.

The falling of the railroad bridge at Bristol, Conn., on Thursday night was not attended with so great a loss of life as first reported. Six men who went down with the falling mass were drowned, and the bodies of all but one have been recov-

John D. Capron, son of Charles S. Ca-pron of Uxbridge, Mass., junior member of the firm of Cole, Sr., & Co., at Med-way, was drowned in the Charles river at Medway Thursday night while attempting to raise the flashboards on the dam. The board on which he was standing broke and he was carried over the dam

The Bond Issue.

The Government Will Receive \$111,-

600,000 --- the Vermont Allotments. The allotment of the new 4 per cent oonds was made Saturday at the treasury lepartment in Washington. Geographically considered, the bonds are distributed in round figures as follows: New York, \$78,000,000; New England, \$9,000,000 eastern states (other than New York), \$5, 500,000; western states, \$3,250,000; cen-tral states, \$3,000,000; southern states, \$1, 250,000; J. P. Morgan & Co., and associates of New York got \$33,179,250 at 110,-6877. This is regarded as an indication that many bids from other cities were made brough New York banks and brokers The proceeds of the bond sale will be close to \$111,000,000. They cannot be less than \$110,687,700, because that would have been the amount if the entire award had been made to the Morgan syndicate, and every bid accepted at above that rate increases the net proceeds of the sale.

The following are the Vermonters who got bonds: F. W. Childs, Brattleboro, \$200 at 112; Granite Savings Bank and Trust company Barre, \$2000 at 114.05; Montpelier Sav

ngs Bank and Trust company, \$5000 at 111.84; National bank of Newbury, Wells River, \$50,000 at from 111 to 112; L. B. Harris, Lyndonville, \$5000 at 112.50; John F. Ruggles, Westbury, \$1500 at 112; Bax-ter National bank, Rutland, \$20,000 at 112.7814; Vermont National bank, Brattleboro, \$5000 at 111.25; Wright, Orwell, \$1000 at 114; Nationa bank of Orange county, Chelsea, \$15,000 at 111; Mrs. Florence J. Wheat, Putney, \$2000 at 112; Lucius P. Barry, Saxton River, \$300 at 113; People's National bank, Brattleboro, \$5000 at 111.60.

Waller is Guilty, but will be Released from Prison.

The President sent to Congress Tuesday long report from Secretary Olney, and all the correspondence in the case of John L Waller, ex-United States consul to Tamative (Madagascar), now confined in a French prison under conviction of treason Secretary Olney says that Waller was unquestionably guilty of the offence charged and that the penalty inflicted would be considered exceedingly moderate, but the French government proposes to release Waller from further imprisonment, and to pardon his offence on condition that the affair be thereby terminated as between the two governments, and that the United States should make no claim for damages in his behalf. Ambassador Eustis has been instructed to give notice to the French government of the acceptance by the United States of these conditions, and to ex-change the notes necessary to carry out the arrangement. It is said that Waller acting on the advice of his wife and brother-in-law, will insist on receiving compensation from France.

Will Row Across the Atlantic. George G. Harbo and Frank G. Samuelson, colored sailors, of Perth Amboy, N. J., are arranging to cross the Atlantic in an ordinary rowboat, to row the entire dis-tance from New York to Paris without any other aid than that of their oars. They are now having built at Branchport N. J., a boat 18 feet long and five feet wide, which will draw less than one fool of water, and will weigh about 200 pounds. She will be entirely open and will have a water-tight compartment at each end for

the storage of provisions.

Harbo is a licensed steamboat pilot. He and Samuelson have chosen the month of June for smooth weather. Sufficient provisions will be carried to last the voyagers 60 days. The men declare that no offer or promise of money has been made to them in any way to make the voyage, nor is it to be done on a wager. If successful, they will exhibit themselves and their boat in London, Paris, Antwerp, Hamburg, Ber-lin, Stockholm, Copenhagen, Christiania and other European cities. They are ready to challenge any two men to row a race across the Atlantic

Pain from indigestion, dyspepsia, and too hearty eating is relieved at once by taking one of Carter's Little Liver Pills immediately after din-ner. Don't forget this.

Bat Shea was electrocuted in the Clinton rison at Dannemora, N. Y., Tuesday morn-og. When the last rites of the Roman Catholic church were administered Shea received the sacrament, shook hands with the priest and said, "I am innocent, father, England Coast Sunday -- the Bristol. led to the death chair. He left a letter stating that the testimony was false, and that he was not guilty of murder. It will be remembered that at the March election in Troy, N. Y., in 1894 the respectable peo-ple made an effort to have the election laws enforced. Shea, McGough and others who had led parties of repeaters to the polls for years were warned not to try such proceed-ings. When the repeaters appeared at the polls in the 13th ward a general melee took place in which Shea shot and killed Robert Ross, and McGough wounded Wm. Ross. McGough, who is now serving a sentence of 18 years in prison for his crime, made a confession recently, in which he claimed that he killed Robert Ross. It is supposed that he was induced to make this confes sion through the influence of politicians who wished to save Shea. There was no question about Shea's gifilt, as nearly 20 reputable witnesses saw him shoot Ross.

An innocent Girl Brutally Treated by = __ the Milwanker Police.

Miss Sadie Dwyer, whose parents live in Johnstown, N. Y., may die as a result of blundering and brutality upon the part of the police of Milwaukee, Wis. Miss Dwyer started out the other evening to visit friends. She had not gone far when a po-liceman placed her under arrest. She protested that she was innocent of any crime and begged the officer to accompany her a few blocks to the place where her friends lived so that she could furnish proof of her identity. He refused and took her to the Central police station. When he reached the station Miss Dwyer was thrown into a cell. The cell was filled with rats and other vermin and Miss Dwyer feli into a faint. Several hours later the police learned that they had made a mistake and took her home. Since then she has been sinking steadily, physicians say she will probably Since then she has been sinking die and even if she lives her mind will be wrecked. Her employers will prosecute

Hovas Rebel Against the French and

3000 are Killed. A French reporter writing from Mada-gascar under date of Jan. 24, says a conspiracy was discovered in Anathanarivo, the capital of Madagascar, the result of which was that a force of 4000 Hovas made an attack upon the French soldiers stationed there and were repulsed. The French followed upon their advantage and killed 3000 of the Hovas. Fourteen of the Hova chiefs were taken prisoners, con-demned to death, and immediately shot. Several others were transported. It was rumored that a number of French officers and soldiers have been murdered by the

Spiritualistic Fraud Exposed.

Samuel Thompson of Kingston has been giving seances in Gloversville, N. Y., for several months. The circle was harmonious until a human form came before the curtain, purorting to be the spirit of John Roberts, a prominent Odd Fellow, who died last fall. The medium motioned several of the fraternity to come forward, and the spirit gave them grips peculiar to the order. The spirit was dragged into the middle of the room and divested of its regalia, a piece of cheese cloth. It proved to be Thompson and he begged for mercy and was given a few hours to leave the city. He disappeared during the night.

Loving Cup for Boss Croker.

Richard Croker, the boss of Tammany hall, received a grand ovation Saturday night at a banquet in his honor at the Ho-tel Savoy in New York city. About 150 Thomas F. Grady presented Croker with a oving cup, a magnificent piece of silver workmanship, which cost \$2000. In acsepting the tribute Mr. Croker made a brief speech accepting the gift and prophesying greater success for Tammany in the future, if united, than was ever thought of in the past.

It was reported last week that Schlatter, the Denver healer, had perished in a snow storm in the northern part of New Mexico. It is now claimed that he is a member of the chain gang at San Bernardino, Cal., having been arrested at Redlands for va-grancy. The prisoner told the sheriff that he was doing penance, and had ridden across Yuma desert on a mule which

Rev. Theodore B. Foster of St. Paul's Episcopal church, Pawtucket, R. I., has resigned to accept a call to Rutland.

The annual Toucey scholarship at Trinity college, Hartford, has been awarded to Daniel Hugh Verder, '98, of Rutland. The annual value of the prize is \$200.

As the result of a prize fight in Phila-delphia Saturday, Frank Schlechters, 40, is dead, and ex-Policeman Henry Pluck-felder, 36, is in jail, charged with Schlecht-ers's murder. The fight was the result of a political quarrel. a political quarrel.

The Prescott piano works at Concord, N. H., were burned Sunday morning. The business was founded in 1814 by Abraham Prescott. The loss is between \$40,000 and \$50,000, with insurance of \$28,000. The company intends to continue the bus-

The 20th annual meeting of the American Aryshire Breeders' association was held at Boston Wednesday. One of the speakers was C. M. Winslow of Brandon. Obediah Brown of Providence, R. I., was chosen president of the association, and C M. Winslow secretary. Four vice presidents were elected, among them being H. R. C. Watson of Brandon and L. S. Drev of Burlington.

John Thomas, who lived near St. Albans, was lost on Lake Champlain during the storm of Sunday. He went fishing with a man named Bashaw, and in some way the two became separated. Bashaw reached the shore with great difficulty. Several great cracks in the ice were dis and Thomas probably fell into one of them or dropped in the snow from exhaustien.

Preston Paine, who graduated from Goddard seminary at Barre in '94, made an unsuccessful attempt to kill his boarding mistress and her child at Rockford, Ill., recently, and then sent a bullet through his own brain. He was one of the most expert foot ball players ever at Goddard, captaining the team two years. He secur-ed the first prize in the dramatic recital at the seminary in '93. He was temporarily

Three logs cut in Monkton and sawed last week in Fisher, Young & Co.'s mill at Vergennes, are the largest ever seen in that section, and there is but one other mill in the state where they could have been saw-ed. One log weighed 7820 pounds, was 48 inches in diameter, 13 feet long, and cut 875 feet of lumber; another weighed 8000 pounds, was 52 inches in diameter, 13 feet long and cut 950 feet of lumber, and the third was 45 inches in diameter, 13 feet long and cut 783 feet of lumber.

Cilhdren Cry for Pitcher's Castoria.

THE VERMONT NEWS.

Vermont Leads New England in Corn Wheat and Barley.

The reports of the agricultural depart ment show that Vermont leads the New England states in the crops of corn, wheat, barley, and stands second on the list for bariey, and stands second on the list for oats, rye, potatoes, buckwheat and hay. Maine leads on oats, potatoes, hay and buckwheat, while Massachusetts leads the list on rye. The corn crop was the largest in 16 years, while the average price is the lowest in the same period. The wheat crop was less than usual and the price lower. There were no oats during the last year and the price was ten cents lower per bushel. The bariey acreage exceeded any previous year, while the buckwheat crop was the smallest since 1879. The average farm price of corn, rye, oats, barley, buckwheat and potatoes was lower than in 1895 and for the previous 15 years, and in no year since 1880 was corn so low as in 1895. The potato crop of 1895 was unprece dented in magnitude and the price was also way below the average.

Cut His Own Thront. James Shanley, who was formerly employed in the street department at Bur-lington, attempted to commit suicide Mon-day night. He suffered sunstroke in Sep-tember, 1894, which caused him to become insane and for several months he was confined in the asylum at Waterbury. He was discharged as cured last April, but has of late shown symptoms of being men-tally unbalanced. While in the room with his wife he took a razor from a shelf and before she realized what he was doing he had drawn it across his throat twice, severing the wind-pipe. He is still living, but his condition is critical.

Stole \$7000 in Jewelry and Cash. Deputy Sheriff Timothy Denneer of St. Johnsville, N. Y., arrived at Vergennes Saturday to secure Charles Moore, aged 21 years, who is charged with larceny to the amount of \$7000. He was left alone in the house where he was staying and took \$5000 worth of jewelry and \$2000 in money and came to Vergennes, where he was arrested by Deputy Sheriff T. C. Middlebrook. Moore accompanied the officer diebrook. Moore accompanied the officer to St. Johnsville without requisition.

A new trial of William E. Chase for the murder of John E. Halloway of Glover be gan Monday at Newport.

An experiment will be made this year with 5000 sea tront eggs which came from Scotland. The attempt to hatch the eggs of this fish has never before been attempted in the United States. An effort will be made by a New York fish culturist, and the small fish will be placed in the pure water of an inland lake. Lake Hortonia in Sud-bury will probably be selected.

The famous Green Mountain Stock farm's herd of Jersey cattle at Randolph is to be tested for tuberculosis. The state cattle commission has for some time in-sisted that this herd was infected. Superficial examination has failed to detect any ground for this belief. The herd numbers nearly 300 head of the best Jersey strains, and has a national reputation, the butter from the farm having won the highest awards at the World's Fair and the Paris

Wm. B. McCarty was arraigned in city court hefore Judge Russell at Burlington Tuesday on a charge of assault with intent to kill Patrick M. Meldon of Rutland, recently. The case was continued until March 6. McCarty furnished bair in the sum of \$500 for appearance on that date. McCarty is the saloon keeper who was pardoned from the house of correction by Gov. Woodbury. Meldon is a Rutland lawyer. The assault grew out of a discussion over the governor's libel suit against the Rutland Herald.

Col. W. Seward Webb of New York cits whose country place at Shelburne, this state, is the finest in New England, has contracted for the erection of a marble palace at Scarborough, N. Y., at a cost of \$1, 500,000. The style of architecture will be a modification of the chateau renaissance. The house itself, including verandas, will be nearly 300 feet long and 130 feet wide. It is to be situated on an elevation, sur-rounded by beautiful Italian flower gardens and winding roads, and will command an extended view of the Hudson river for miles both north and south.

Easter Sunday Comes April 5th,

Easter Sunday this year falls on April 5 The establishment of the Christian festival of Easter, typical of the resurrection of the Lord, was a matter of much controversy in the church for centuries, but was finally established by the Gregorian calendar adopted by the Roman church in 1752, and Easter is always the first Sunday after the full moon which happens upon or next after March 21, which date is the beginning of the ecclesiastical year. Therefore the earliest date upon which Easter may occur is March 22. If the full moon should fall on March 21, Easter is the following Sunday. The latest date upon which the festival may fall is April 25. In 1761 and 1818 Easter fell on March 22, but that will not occur again in this or the next century In 1886 it fell on April 25 and will do so again in 1913.

Cold-blooded murder was committed Monday in the institution for the improved instruction of deaf mutes in New York city. The victim was Prof. Max Eglan, 62, an instructor in drawing. There were several gashes on the back of the head, and near the body was found a bloody iron shovel, with which the murder evidently had been committed. No apparent motive for the crime was discovered. Three pupils of the school have been arrested charged with the crime.

LIVER COMPLAINT.

P. Kielly of North Pownal, Vt., suffered from a disease that baffled Physicians. A SIMPLE REMEDY CURES HIM.

"It is with my sincere thanks and gratitude," writes Patrick Kieley of North Pownal, Vt., to Dr. Kennedy of Roundout, N. Y., "I write you of the great benefit! received from your medicine, Dr. David Kennedy's Favorite remedy. My case was a severe one and a puzzler to the doctors. About eighteen months ago I began to feel a pain in my right side: it gradually grew worse until I was compelled by the almost unbearable pain to give up work entirely. I would belch un until I was compelled by the almost unbearable pain to give up work entirely. I would belch up quantities of wind and water. I employed five different physicians, and after taking about a wagon load of medicines I seemed to grow worse By the advice of a friend, I began to use

DR. DAVID KENNEDY'S

After taking the first bottle I felt some better, so continued its use, and by the time I had taken three bottles the pain was entirely gone and have not felt a sign of it since. I have tried all of the different sarsaparilias, compounds and nervices on the market and I consider Dr. David Kennedy's Favorite Remedy the superior of them all."

Favorite Remedy restores the disordered liver to a healthy condition and corrects constipation. It is a certain cure for the diseases peculiar to women. It cures scrofula, salt rheum, crysiphias, nervousness, loss of sleep, or that worn out feeling. In cases of rheumatism, dyspepsia, Bright's disease, gravel, diabstes and bladder troubles, it has cured where all else failed.

DR. GREENE'S NERVURA.

Alexander Salvini, the Great Actor, Says Dr. Greene's Nervura Cures

What He Says Means Health to You if You Use This Grandest and Surest of all Medicines, Dr. Greene's Nervura.

of a great general or statesman, commands | happiness. It is the height of folly to sufthe attention of the world.

Alexander Salvini, son of the greatest actor that ever lived, is rapidly taking his father's place in the minds and hearts of the people. Every word of his, therefore, like the utterances of Jefferson or Irving, whom everybody honors and reveres, will be read with deepest interest and profound-est attention by all.

Mr. Salvini writes to the people:—
"Traveling as I do. I cannot fail to notice the great use of Dr. Greene's Nervura blood and nerve remedy, especially among my friends and acquaintances.

The word of an illustrious actor, like that , life, the thief of comfort, the destroyer of fer when a cure is easy, sure and speedy by using Dr. Greene's Nervura blood and nerve remedy. Use this great and won-derful remedy and the nervous, irritable, weak and trembling feelings will disappear; your sleep will be natural, caim, restful, and you will wake mornings feeling strong and vigorous instead of tired and exhaust ed; all gloomy depression and sense of anxiety will fade from the mind; your nerves will become strong and steady as steel,

my friends and acquaintances.

'From my own experience, I can strongly recommend it as a most excellent and reliable remedy, especially for rheumatism and neuralgia, nervousness and all nervous affections, which illnesses in our profession, we are most liable to contract."

Weak nerves, poor blood, low vitality, Weak nerves, poor blood, low vitality, all without charge, personally or by letter.

MASSACHUSETTS NOTES.

Sudden Death of a Well-known Man. Samuel H. Sawyer, 59, died suddenly from heart disease Friday, in the railroad station at Millers Falls while waiting to take a train. He was a native of Richmond, N. H., and his boyhood was spent there and at Winchester. He learned the trade of a millwright at Orange, Mass., and traveled for the Rodney Hunt company setting up machinery. He came to Millers Falls in 1869 and had charge of the work of constructing the dam and shops of the Millers Falls company. In recent years he had been a wood turner for the company, and lived in Erving, where he had served as selectman and as-sessor for eight years. He was twice married, and is survived by his second wife, who was a daughter of Henry L. Pratt, the president of the Millers Falls company years ago. He also leaves a son and daughter, the son being one of the depart-

Injunction Against Landlord Schoff. Mrs. Charlotte E. Adams and her two daughters, owners of the Mansion house at Greenfield, have obtained a preliminary injunction, restraining Albert Schoff, land-lord of the Mansion house, from taking out of the hotel the large bar and sideboard, which cost Mr. Schoff \$1000, electric light fixtures, refrigerator and closets. Schoff put them in recently at his own expense. His lease has now expired and one has been granted to W. E. Wood. Mr. Schoff simply desired to sell the articles at a fair value. Though his lease expires Monday he will remain in the hotel until the question is settled. Mr. Schoff and J. Martin Santer have recently bought the Hotel Brandon, a \$60,000 house at Bran-

Annexationists Win Again, Deerfield citizens held another town meeting Friday for the purpose of securing a two-thirds vote in order that money of the town may be used to oppose the annex ation of the Green River precinct of Deerfield to Greenfield. The object of those

DAVID J. BAILEY.

Commencing the Fifteenth. ment superintendents in the Millers Falls company's factory.

Remarkable Prices. Remarkable Prices.

Robert the following very remarkable prices. We bought these goods in large quantities for this special sale, and it is very doubtful if ever again they can be offered by us or any one else as low. These bargains are in theware. A 12 quart dishpan worth 35 cents for this sale only 19 cents; a 14 quart dishpan worth 35 cents for only 21 cents; a 16 quart dishpan worth 36 cents for just an even quarter. Lipped stew pans as follows: the ten cent ones for focus ones for 15 cents, and the 25 cent ones for cents. Stew kettles at the same prices. Tinware is with us, always very low, but these prices are special for just one week. Better not lose the opportunity. In dinner sets, and all dockery our prices are always the lowest, as you well know. These are the times when you want to buy at bottom prices, don't you! Then call on us, and you will be satisfied that no where else can you buy as low as at Will COX'S NEW YORK BARGAIN STORES, Brattleboro, Vt., and Greenfield, Mass.
