What if Mary had skipped across the green? Mary Rogers, we mean, who, according to the St. Albans Messenger's revelations, was allowed to work for weeks in the prison kitchen at Windsor, close to an un-locked door which led to an un-fenced lawn. This wasn't back in the ime of Supt. Oakes, who is still under the fire of the investigating committee. It was after Mary's last reprieve, after she had opened one lock with scissors and Verne Rogers had opened another with an improvised key and their scandal had become known to the world. One would naturally suppose that a condemned murdress, under reprieve, who had indulged in one liaison while a prisoner, would be kept in close confinement. It is apparently about time to start anew in the management of the prison, and to put at its head a man of character, trained alike in criminology and institutional management. The state prison, after a dose of moral formaldehyde, should be put under a discipline as strict, at least,

ments 53 prisoners have been herded at one time. There are no conveniences for the sick, and those young in crime, charged with minor offenses or arrested upon in their defeat. civil processes are quartered with the hardened and vicious. In closing its scathing criticism the grand jury says:

"The jail is so arranged that the sheriff and his family cannot escape from all the vile conversation and noises peculiar o such an institution. Some of us have read about how badly prisoners are treated in Russia and Siberia but we think that sympathy for misused prisoners may well begin at home, right in Chittenden county, Vt. We cannot find words severe enough to describe the condition found, but wish to condemn the building, which is utterly unfit for such a purpose." | Hamilton.

H. W. Dennison, the ex-Vermonter who counsel of the Japanese envoys, says Japan did not insist upon an indemnity as her position did not permit of insistence. He says: "If we had had a fleet in the Baltic sea or an army before St. Petersburg or at the gates of Moscov we might have enjoyed the same advantage that the Germans possessed when they occupied Paris. They got a big indemnity from France merely as an inducement to go away. An indemnity, in international affairs, you know, is not s much payment for past losses as a guar antee that future losses will be prevented. But our fleets and armles were many thousands of miles from Europe and Russia. We could, it is true, have renew ed the war and captured Vladivostok and got, perhaps, in a position to collect an indemnity, but it would have cost us as much as the indemnity itself was worth, not to speak of loss of men." In this connection it is interesting to note that the disturbances resulting from dissatisfaction with the peace terms have subsided in Tokio. Secretary Taft explains that the people in Tokio wished, in a peaceable manner, to protest on the subject, but the police authorities of Tokio unwisely and ungratefully sought to restrain a legitimate popular demonstration, and so met remonstrance. This resulted in riot and at once placed con-

The history-mak-ing events of the past few years in the Orient are likely to hasten the awakening of China, so long delayed but often predicted.

# FRAZIER FINED \$1050

Convicted in County Court on

Three Counts of Liquor Selling

His Alternative Sentence Would Be About Ten Years in House of Correc-

Newfane, Sept. 21. In the Luke White will case of Whitngham, reported last week, the jury returned a verdict establishing the will. Herbert Illesby of Grafton was convicted of larceny and sentenced to not

nore than 31/2 years nor less than 21/2 years in the house of correction. Charles W. White of Bellows Falls, who stole \$159 from a barber shop, was convicted of larceny and sentenced to not more than 7 nor less than 6 years in state

prison.

Alonzo Frazier of Brattleboro—familiarly known as Santiago—who was arrested
two weeks ago, was convicted of illegally
selling liquor on three counts and sentenced to pay a fine of \$359 on each count,
or a total of \$1050 and costs, with the
alternative sentence of three times as
many days in the house of correction as
there are dollars in the fine and costa.
This would give Frazier a term of about
10 years.

This would give Frazier a term of about 10 years.

John Walsh, charged with grand larceny, and Lyman H. May, charged with assault, were acquitted by the jury.

The last case for jury trial this term it that of the state vs. Dennis Jones of Townshend, charged with assault with intent to kill and murder. It appears that there was bad blood between Jones and one Lewellen Kent, which led to a fight June 24, in which Kent was "worsted," as he claims because he was drunk, and on June 29 Kent, with his brother, George Kent, and his son, George Kent, went to Jones's, Lewellen intending to give Jones a licking. The son George was armed with a Winchester rifle. Loud and rough talk followed and the respondent's wife assisted her husband, and, as the respondent claims, both he and his wife were greatly intimidated, but owing to the fact that he had a scythe when the men approached, and secured his Winchester rifle from the house nearby, no fighting took place and the Kents went away, Lewellen swenring vengeance at a later time.

July 9 about dark the Joneses saw

July 9 about dark the Joneses saw a man standing near their house, in the man stations near their house, in the pasture, whom they did not know, but who proved to be young George Kent, and Mrs. Jones cried out that the Kents were coming again, and the respondent got his rifle, whereupon young Kent went across the lot out of sight, as the Joneses claim, but to make things safe the respondent fired seven shots, as his evidence shows in a different direction from that taken by young Kent, but by some miracle one shot went through young Kent's coat tail and through two tin boxes which he had in his pocket, one containing fish lines and hooks and the other salve.
