Charles Webber Instantly Killed at Railroad Station

Attempted to Board Moving Train Yesterday Afternoon and Was Crushed Under Wheels-Was Going to Brattleboro.

in an attempt to board the afternoon coress train southbound yesterday aries Webber, 25, was thrown under wheels and crushed to death, dying metantly. Mr. Webber began work on a and for H. L. Bailey in the forenoon, at a storm made it necessary for him stop work so he decided to go to Bratnore. John Patterson, who lives near e station, got off the train, having been Bellows Falls, and Mr. Webber stopped talk with him in an effort to induce him to go to Brattleboro also. Mr. Paterson decided not to go, but Mr. Webber hill not cease talking with him until after the train was well under way. Then he started to get on board, taking hold of the rear end of the last car, but he was the rear end of the last car, but he was unable to swing himself upon the platform and was thrown under the wheels, which passed over his stomach. He was not badly bruised externally, but every bone in the path of the wheels was broken. Mr. Patterson and James Grimes, who is employed at the station, saw the accident and they went to Mr. Weiber at once, but he was dead. The body was taken to E. E. Knight's unstable process.

body was taken to E. E. Knight's undertaking rooms.

Mr. Webber was born in Putney April 26, 1817, and was a son of Mr. and Mrs. Mosss Webber. When he was a boy the family moved across the river into New Hampshire and a few years later Moses Webber began running the ferry near the Putney station, continuing in charge of it about 20 years. Mrs. Webber died about 18 years ago. Moses Webber died a year ago and since then Charles Webber laid lived with his brother, George Webber, in this village. He leaves another brother, William Webber of Alstead, and Iwo sisters, Mrs. George Brown of Westmoreland and Mrs. Orrin Stackford of Bellows Falls.

Clifford C. Butler Instantly Killed. Clifford C. Butler, 7, son of Raiph E. Butler, who moved his family from the Mae Brown house here to Hillsboro, N. H. a few weeks ago was shot and instantly killed Saturday night near the lumber camps at East Washington by a companion named Reed. The boys got into a farm house and loaded an old gun. They tried to set it off with matches and when it failed to go the Reed boy told when it failed to go the Reed boy told his companion to blow into the muzzle to make the powder go down into the to make the powder go down into the opening. The gun was discharged, the builet going into the Butler boy's mouth and coming out through his shoulder. Both the Butler and Reed families are employed at the lumber camps at the portable saw mill there.

Setting a Bug to Catch a Bug.

Samuel Hopkins Adams makes the subject of entomology a very absorbing and interesting one in the July American Magazine. He writes under the title of "Warring on Injurious Insects" and describes the work of the Washington Bureau of Entomology and some of the curious and interesting methods it employs to stop the predatory work of inploys to stop the predatory work of in-jurious insects. The following is Mr. Adams's account of how the San Jose scale was imported into this country and how eventually its spread was checked: "The scale was imported by a collector of plants at San Jose, Cal., probably from Australia. In a few years it had spread enormously, and was simply wiping out the orange crop wherever it gained a footbold. Working in conjunction with the progressive state authorities of California, the United States Bureau of Enterpology seet, an emissary to Australia. Summer and Fall Top-Dressing and tomology sent an emissary to Australia, where the scale was discovered in what was then supposed to be its original en-vironment. With the Australian scale, and preying upon its eggs, was found a small red-and-black ladybird, the Novius pardinalis. One hundred of these were prought back to California by Mr. Kobele, bred and distributed. To the terified and skeptical orange growers the Within two years from the time when the first ladybird began to breakfast on scale eggs, the victory was completely won. It was more than a victory; it was a slaughter. Since then the white scale, while it is not wholly eliminated and never will be, has ceased to be an element of peril to the citrus orchards of California."

If we did not believe doctors endorsed Ayer's Pills for constipation, billiousness, sickheadache, we would not offer them to you. Ask your own doctor about this.

Are Doctors Any Good?

Foolish question! Yet some people act as if a medicine could take the place of a doctor! The best medicine in

the world cannot do this. Have a family doctor, consult

him frequently, trust him fully. If we did not believe

doctors endorsed Ayer's Cherry Pectoral for coughs and

colds, we would not offer it to you. Ask your doctor.

Seeding Down Many farmers are finding it to their advantage to seed down during the summer and fall, claiming that by so doing they are apt to get a much better "catch" than they do when they follow the usual practice and seed down in the spring.
The same is true regarding top-dressing grass land. Some of the most progressive farmers put on top-dressing immediately after having, with perhaps a small application of nitrate of soda the following spring:
