Only a Mask.

Only a Mask.

Many are not being benefited by the summer vacation as they should be. Now, notwithstanding much outdoor life, they are little if any stronger than they were. The tan on their faces is darker and makes them look healthier, but it is only a mask. They are still nervous, easily tired, upset by trifles, and they do not eat nor sleep well. What they need is what tones the nerves, perfects digestion, creates appetite, and makes sleep refreshing, and that is Hood's Sarsaparilla. Pupils and teachers generally will find the chief purpose of the vacation best subserved by this great medicine which, as we know, "builds up the whole system."

HINSDALE, N. H.

Baby Left on Priest's Veranda.

People in the vicinity of the Catho-church were disturbed early Sunday morning by the frequent cries of an in-fant which seemed nearby, yet could not be exactly located. Soon after day-light Joseph Boucher and James Redding were passing the parochial resi-dence and were startled to see a basket on the veranda in front of the door, from which a baby's hand was waving. They quickly notified Father Cahili. The basket was found to contain a tiny baby girl four or five weeks old with auburn hair and blue eyes, an attractive child, poorly clothed. The basket also contained a small bottle partly filled with cold milk, a second set of clothes and a note saying, "Put this baby in a Catholic family and by and by we may meet face to face." After early mass Mr. and Mrs. William Cunningham volunteered to take the child for the present, and later signified a desire to adopt it. It was christened Helena Teresa, the same morning. It is not known at what time the child was brought there, although an auto-The basket was found to contain a tiny was brought there, although an auto-mobile was heard to drive rapidly from that direction about 1 o'clock. Touched Off Big Blasts,

Some heavy blasting took place the first of the week near the home of Mrs. Dix, where the drilling in the ledge has been going on for so long. Some of these holes went to the depth of 40 feet. From 16 to 18 charges were set off at once on Monday and Tuesday, and on Wednesday the largest blast of all included 23 charges. Many of these blasts jarred houses in the vil-lage, but much less damage was done to Mrs. Dix's buildings than had been anticipated, although bricks fell from the chimney and plastering was knocked off. The last blast, however, made many holes in the roof. Stones were thrown a considerable distance and to a great height. It is reported that over a ton of dynamite was used for the last blast.

Another Fatality on the New Railroad. Another fatal accident occurred on the railroad construction job Tuesday. A gang of men were digging in a bank beside the steam shovel located near the river tavern when the bank above the river tavern when the bank above cave in. Antonio Masta, one of the number, gave the alarm. The rest, including Basta's brother, escaped, but Basta was buried by the 50 or 60 tons of dirt which fell. Fully 20 minutes elapsed before the body could be reached when he was found deed from ed, when he was found dead from suffocation. Basta was 23 years of age unmarried and came here from New Ha-ven. The funeral was held Thursday at 9 a. m., in St. Joseph's Roman Catholic church, and the burial took place in the local cemetery.

Life Insurance or Death Insurance—Which?

People willingly pay large sums for fife insurance, which is really death insurance; but real life insurance frequently consists in taking Eckman's Alterative.

Can any "lung*sick" person afford not to take the Alterative?

It sharpens the appetite, makes life look different, brings better health with greater enriling power. Often persons are so much improved that they can work even before they are finslly cured.

Investigate it, if you are broad minded enough to believe that there can be a cure for Consumption, which has not been sensationally exploited, or which is not based merely on climatic or diet restrictions. Mr. Webb's report follows:—

"Gentlemen:—During 1906, my physiciates and the control of the control o

Everybody is well treated at that bank and everybody is satisfied.

Ask your neighbor who deposits there and see if he does not vouch for the truthfulness of this statment.
