Beardless Soldiers.

Modern warriors generally wear hair on their frontispieces. It is thought to give them a martial appearance. But Alexander's invincible soldiers were all bare faced. He compelled them to shave for a sufficient reason—viz, lest the "outside barbarians" of Asia should seize them by their beards and so capture them.

It Was There.

"There's a boy wants to see you, sir."
"Has he got a bill in his hand?"
"No, sir."
"Then he's got it in his pocket! Send him away!"—Phil May in Punch.

Olive Oils in France

In the town of Istres, Department of the Bouches-du-Rhone, says a consular advice from France, the olive raisers complained of the bad market for their olive oil, contending that middlemen so adulterated the product that consumers had acquired a distaste for the pure article. Their syndicate bought a co-operative mill, in which pure olive oil is produced, and the farmers are hoping for better prices for their product, notwithstanding the competition of the olive growers of Tunis.

The Long Syrup Refining Company, San Francisco, has contracted for about all of the Pajaro Valley crop of loganberries and it is said, is paying good prices for them. It has contracted for large quantities of strawberries and raspberries.

Methods of Curing Jungle Fever.

I got over my attack, but it was a marvel that I did. One morning my doctor bled me till there was scarcely a drop of blood left in my body. He then gave me 40 grains of calomel, and in the evening, as the fever was still raging, he ordered me to be taken out to the yard of my quarters, laid on a bare rattan couch and buckets of cold water thrown over me for about 20 minutes! I was then put back to bed and fortunately fell asleep for several hours. After some weeks on the sick list, I was able to return to my post at Koruegalle.—"Fifty Years in Ceylon."

Loss of Appetite

Is Loss of Vitality, Vigor, Tone.

That stands to reason.

It is common in the Spring, when the blood, which needs cleansing, fails to give the organs the stimulus necessary for the proper performance of their functions.

Hood's Sarsaparilla

cleanses the blood, restores appetite, gives vitality, vigor, tone—this is one of the reasons why it's called the Greatest Spring Medicine.

Take it.

"I have taken Hood's Sarsaparilla and it has created a good appetite and cleansed my blood." ADOLPH RHODE, Plattsmouth, Neb.

"My little brother had no appetite. He has taken Hood's Sarsaparilla and now gets hungry like any other boy." MAUD KILGORE, Alden, Kan.

Hood's Sarsaparilla promises to cure and keeps the promise.

Antiquity of Man.

From a review in Science of De Mortillet's great work on prehistoric times the following is condensed. Twelve chapters are devoted to the question of tertiary man. It is concluded that while man did not exist during this period, precursors of man more intelligent than any of the living anthropoids did exist.

Pithecanthropus erectus is considered as the immediate precursor of man. The Calaveras skull is rejected. The paleolithic period is considered as corresponding to the early quaternary, and 222,000 years is assigned as the length of this period. Add to this number 10,000 years for the protohistoric and neolithic periods and 6,000 years more for the historic period, and we have 238,000 years, which is, according to the authors, a moderate estimate of man's antiquity.

No other hair preparation is on this scientific basis of destroying the dandruff germ than Newbro's Herpicide.

A Bad Judge.

Some years ago King Edward VII, then Prince of Wales, was a guest at a country house in England, and, picking up a sporting paper in the billiard room one morning, was soon deep in its contents. A clergyman, also a guest, noticed this, and, sidling up, asked in a tone that was meant to carry reproof, "Is your royal highness really interested in that paper?"

The prince glanced around, "I never read anything I do not feel interested in," he remarked.

The clergyman, though, would not be denied. "Do you know, your royal highness, that one of my friends has lost hundreds of pounds by betting on horse racing and has never won anything?" he asked.

"Well," said the prince as he turned to another column, "he must have been a very bad judge of horsemanship."
