Frank Crane, who has for years been superintendent of schools of Codington...

McCormick of Hyde raised a commotion when he stood up and proposed that every federal officer be excluded from the floor of the house.

Mr. Gardner, of Pennington, made a very pretty little speech in presenting the game of Mr. Thornby for the office of house messenger—but it was no use.

McCormick brought down the house by defining the duties of the watchman to be drawing \$4 a day and going to bed in the cloak room at 10 o'clock.

Believing that the organized county of Stanley and the unorganized counties in the newly opened country west of the Missouri river should have some representation in the legislature...

It occurs to the scribe that the senate would save a great deal of time by having the journal printed daily, in which case the reading could be dispensed with.

The senate is now ready for business, and we may expect to see this body, at least, get down to earnest business at an early date.

Contest cases will soon begin to attract considerable attention, and it is probable that fur will fly when the election committees open up business.

Among the candidates for speaker of the third house, at the meeting called elsewhere, are Frank Crane of Watertown; John Baldwin of St. Lawrence; Cyrus Fry has announced himself a candidate for sergeant-at-arms.

II. A. Benedict, publisher of the Hot Springs Star, is looking over the boys. He can look over them easily too—as he is 6 foot 6 inches tall—just an inch shorter than Capt. Knight.

Hon. T. M. Wilkins is sizing up matters here politically. He was territorial secretary a number of years ago.

Hon. D. M. Inman, of Vermillion, says the democracy is soaring on top and seems greatly rejoiced thereat. We do not begrudge democracy having a little fun occasionally.

Major Lieben correctly expressed the situation as it occurred in the organization of the house yesterday, so far as republicans are concerned. He says it was "a sort of a general at-squatulation!"

We notice a new artist of superior merit has taken the field in the house. It is Major Thorp, the Britton banker, and he finds some rich subjects.

Judge Drake and wife arrived last evening in time to take a hand in the inaugural ball and no doubt the judge will take a hand in the senatorial scrap.

Even Rev. E. B. Cummins was enthusiastic over the governor's message, and said it was good enough for him.

The Inaugural Ball.

WEDNESDAY'S DAILY.

One of the grandest social events ever held in Pierre, or the state either, was the inaugural ball at the Locke last evening.

The committee in charge, Messrs Dell Coy, J. H. Owen and L. B. Albright had left nothing undone to make the affair a splendid success.

The walls of the parlor floor and the balconies were profusely decorated in national colors and long folds of tri-colored bunting hung from the sky-light above and were looped to the sides.

A life sized oil painting of Governor Mellette, the work of S. C. Hayes, was hung in the center of the first balcony.

Evergreen and flowers were tastefully run in loops and wreaths about the corridors, and the general tone and effect was beautifully perfect.

Across the first balcony an immense platform was constructed, which supported the Sewall and Robinson orchestra of twelve pieces.

The spacious dining room was very elaborately and tastefully decorated, also both floors were covered with merry dancers until after midnight.

The music was superb, and the arrangement was such that dancers on either floor could easily hear the music and calls.

The members of the supreme court and the state officers, with their wives, held an informal reception for an hour or so, when the dance was allowed to proceed.

Never before had we seen such elaborate and lovely costumes. One hundred and fifty ladies were on the floor in the course of the evening—and the balconies were filled with spectators to a late hour.

We should be ever so delighted to give a description of the costumes of the ladies as is usually attempted by enterprising papers—but we have had some experience in this line that we recall with a shudder.

The ladies that we supposed were favored with notices were unsatisfied and thought the description faulty, and the ladies who had put in sleepless nights of scheming and days of hard work—and got no notice, worked on their husbands to have the paper stopped, so we defer any efforts in that direction again.

The ladies of Pierre, however, made unusual effort to "shine" and they succeeded beautifully.

Among the ladies from abroad that we saw on the floor, were: Mesdames Governor Mellette, of Watertown; A. O. Ringsrud of Elk Point, L. C. Taylor, of Alexandria; W. W. Taylor, of Redfield; Robt. Dollard, of Scotland; Misses Stella and Kittie Bullard, of Council Bluffs; Mrs. Senator Cory, of Redfield; Mrs. E. W. Caldwell and daughter Miss Maude, of Sioux Falls; Mrs. Max Bass and Mrs. John T. Goodes, of Aberdeen; Miss Flora Kleth, of Sioux Falls; Miss Bailey, of Iowa; Mrs. W. B. Sterling, Mrs. John Cain and Miss Ambros, of Huron; Mrs. J. Lou Hallett, of Fort Pierre; Mrs. Judge Corson, of Deadwood; Mrs. Comerford, of Plankinton; Mrs. B. H. Sullivan, of Huron; Mrs. Judge Bennett, of Clark; Mrs. Col. Sheafe, of Watertown; Mrs. Judge Kellam, Chamberlain; Mrs. Judge Drake, of Aberdeen; Mrs. Bartlett Tripp, of Yankton, and others whose names we could not obtain.

The following was handed in today with a request that it be published. The FREE PRESS, so far as Postmaster Gregory is concerned, can say that he is not responsible in any manner for the alleged infliction, as he rented the postoffice quarters in the building and the owner thereof reserved the right in the lease to dispose of the front portion of the room in any manner he chose.

My dear FREE PRESS: Will you allow me a word in a familiar way in your columns. I want to relieve myself of a disposition to kick by making a few suggestions to our worthy postmaster.

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrup, and Castor Oil.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Osgood, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby causing them to premature graves."

Dr. J. F. Kitchener, Conway, Ark.

The Centaur Company, 111 Broadway Street, New York City.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. Archer, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"The physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

FROM FORT PIERRE.

The Regular Grist of News From Over the River.

F. W. Pettigrew yesterday qualified as judge of Stanley county, and today is presiding over the regular term of court.

There is every reason to believe that Judge Pettigrew will serve the county ably and well in his new position.

An American Monument.

Sioux Falls Pass: The announcement of incorporation of a company to build a tower in Chicago for the world's fair, gives form to the theories as to what would be the feature.

The structure will be 142 feet high, in commemoration of the year in which Columbus landed in America. When Paris erected a tower 984 feet high, the world wondered. What will the result be when the American company sees that 984 feet and goes M. Eiffel 708 feet better? Think of a pile of metal 178 feet more than a quarter of a mile high. Can the earth stand the pressure?

Better Than Pierre.

Hot Springs Star: According to the FREE PRESS report of improvements in the capital city of Pierre, the amount of expenditures during the year 1890 counts up \$65,000.

The beautiful little city of Hot Springs expended in the same year \$68,810 and the report was not entirely complete. For the year 1891, Hot Springs has enough enterprise projected to exceed this amount, and Hot Springs is not booming either.

Newspapers Needed.

Sioux City Journal: Red Cloud says the wrongs of the Indians have never been redressed, "because the Indians have had no newspapers of their own to speak for them." That tells the whole story.

"Seeing is Believing."

Do you want to buy a Lamp? And the best lamp ever made, like the Aladdin's of old, "a wonderful lamp" a lamp absolutely explosion and unbreakable, which gives a clear, soft, brilliant white light.

"The Rochester." And with it there is no smoke, no smell, no flickering, no flickering, no sweating, no climbing up of flame, no "tantrams" nor annoyance of any kind, and it never needs trimming.

Only five years old and it is a million of these lamps in use. It must be a GOOD lamp to make such a telling success. Indeed it is, for lamps may come and lamps may go, but the "Rochester" shines on forever.

Ask the lamp dealer for it. Look for the trade-mark stamp, "The Rochester." If he hasn't the Rochester and the style you want, or if no lamp-store is near, send us for free illustrated catalogue (and reduced price) and we will look and send you any lamp safely by express, right to your door.
