A. C. BATTERLEE, Publisher.  
PIERRE, SOUTH DAKOTA

No longer is it regarded as good management to count uniform pieces one by one in manufacturing plants. Scales especially constructed for the purpose are now being employed for bounting material of like units. Not only is the weighing machine more accurate because it substitutes simple mechanical operation and the highest degree of mechanical precision for the complicated mental figuring and inaccuracies of other systems, but it counts from 100 to 1,000 per cent faster than the time worn methods.

The splitting up of the Rothschild family of Frankfurt into British, French and other branches has become an interesting though not remarkable phenomenon of the last 150 years of finance, and was recently instanced by the fact that a small French cruiser, which recently removed Germans from a Spanish liner, was formerly a Rothschild yacht.

Two Portland, Me., women, cleaning house, were startled to see a mouse leap out of an old trunk which they had just opened. After they had recovered their courage and investigated they found that the mouse was only an old toy moved by a spring which had been suddenly released when the trunk was opened.

A woman in Worcester, Mass., remarked in the hearing of her little daughter, age 7: "If we have an accident we are right near a hospital anyway." The child remembered this and when her baby brother cut his finger one day she led him to the hospital, where the scratch was attended to.

The port of New York in 1914 handled 46 per cent of the entire export trade of the United States, and the total of \$1,907,000,000 of foreign trade, export and import, which passed through the port was larger than that of all the other American ports combined.

An English scientist who has been investigating the oil bearing deposits of New Guinea has found evidence of petroleum extending over an area of 1,500 square miles and has recommended immediate development.

New York hotel men are advertising their hotels and their city by means of moving pictures throughout South America. The idea is to arouse a "wanderlust" in the minds of the Latin American spectators.

Replies to the Methodist Temperance society's query show that the 432 daily papers in this country declining liquor advertisements in February, 1915, had in February of this year increased to 840.

Statistics gathered from colleges throughout the country show that residents of the United States, both men and women, are growing taller, more robust and stronger.

In a machine invented in England to test the durability of textiles, dulled blades are rubbed by an electric motor against the fabrics until they are worn through.

After experiments covering several years rubber trees have been successfully transplanted from the banks of the Amazon to point in the interior of Brazil.

Considerable geysers are found in only three places—Yellowstone park, Iceland and New Zealand. Those in our own wonderland are the finest in the world.

Codes are more extensively used in telegraphing in China than in any other nation. Chinese sounds cannot be represented by Roman letters.

Some of the 150,000-horse power available at the Assuan dam in Egypt will be used for the production of atmospheric nitrogen by electricity.

The limit of the carrying power of thunder is about 30 miles, while 30 miles is not regarded as far for the sound of a big battle to travel.

The Chinese custom of burning small pieces of gold leaf of various anthers series sacrifices several million dollars' worth of metal annually.

Seventy per cent of the 400 brightest stars are redder than a normal star, 85 per cent of the 400 faintest are more blue than normal.

Many European peasants now in the contending armies are getting more meat in their rations than they ever had at home.

For years an almost unsalable product, New Zealand hemp has leaped into popularity and is now a great industry.

Vancouver island, it is estimated, alone can supply 1,000,000,000 feet of merchantable timber a year for 100 years.

Michigan, with 86 automobile factories, leads the United States; New York is second, with 60 factories.

Arrangements are being made for a direct steamship service between South Africa and South America.

The Breslau (Germany) Consumers' union closed its 50th year in November. The year was profitable.

On the farms of Denmark in 1915 the average wage paid to men was \$121 a year and \$72 to women.

Henry Clay served as speaker of the House of Representatives longer than any other persons.

Spain is credited with producing more than three-quarters of the world's supply of olive oil.

Air-light cases have been patented for protecting tennis rackets and balls from dampness.

Natives of Algeria bury with their dead all the medicines used in their last illness.

More than \$7,000,000 is spent every year in the United States for golf balls.

Summer flowers have been invented which bloom on women's bathing suits.

According to a per gram basis, the war has cost France 20 cents daily for each man in the army.

The American government of Philadelphia, Pa., is the first in the world to have a city engineer.

More than 10,000 miles of macadam roads have been ordered built in the United States.

The United States is the only country because the owner of an automobile.

## MAN STRUCK ON HEAD BY HATCHET, FOUND; FOUGHT OVER MONEY

### Says Motor Boat Partners Disagreed Over Finances—Assailant Arrested.

Yankton, S. D., July 10.—Jay Coates has returned to town last evening about 6:30 from his summer camp near the Jim river, when he was encountered by a man apparently badly hurt. The man stated that Schenk had hit him with a hatchet, as a result of a row which the two had gotten into over the receipts of a motor boat owned by Schenk and which Dodge had operated on the Fourth of July celebration at the former's park.

Dodge, it seems, was returning some checks to Schenk and some difference arose between them as to the amount of money that should be rebated on them. The two got into a heated discussion, ending in a fight, and were interrupted, so Dodge relates—by Mrs. Schenk, who came out and separated the two. Dodge claims that he then drew back and Schenk threw a hatchet at him, which hit him right over the bridge of the nose, cutting a deep wound. Dodge hurried to town, where medical aid was summoned, and several stitches taken.

Dodge swore out a warrant for the arrest of Schenk and the trial was supposed to be heard this morning, but was postponed on account of more urgent business.

### BOARD OF PARDONS NAMES TWO CASES FOR GOVERNOR

Pierre, S. D., July 10.—The board of pardons has recommended a parole, but not a pardon, for William Hardina, sentenced from Marshall county on a conviction of assault with intent to commit robbery.

It recommended also a pardon after September 1, for L. A. Williams, sentenced from Lyman county, for a statutory offense. Governor Byrne has taken the recommendations under advisement.

### ELK POINT MAN IS HELD ON CHARGE OF FORGERY

Elk Point, S. D., July 10.—Charged with passing a forged check, John Miller, who had been employed by Arthur Flannery, an Elk Point man, was arrested by the Union county authorities and will be held for trial at the next term of state circuit court. He is charged with forging the name of Flannery to a check for \$8, which an Elk Point business man cashed.

BELVIDERE—Paul K. Hodson, 20 months old son of O. A. Hodson, president of the Belvidere State bank, chewed a fire cracker and died. Rev. J. A. Thomas officiated at the funeral.

## IS DAUGHTER OF SOCIALIST LEADER

Miss Isabel London.

Miss Isabel London is the daughter of Representative and Meyer London, the only Socialist in congress, and Mrs. London. Like her father, she has an unusually serious mind and is deeply interested in social problems.

## FAIR AND WARM NEXT WEEK, SAYS FORECAST

Washington, D. C., July 18.—Plains states and upper Mississippi valley: Generally fair and moderately warm although widely scattered showers are probable in northern border states.

Rocky Mountain and plateau region: Generally fair, temperatures near normal.

Pacific states: Generally fair, except for widely scattered local showers in the North Pacific states first part of the week. Temperatures near the seasonal average.

### NEWMAN REAPPOINTED.

Washington, July 8.—Oliver P. Newman, one of the commissioners of the District of Columbia whom a committee of taxpayers has sought unsuccessfully to oust from office on grounds that he is not a legal resident of the district, was reappointed by President Wilson today for a term of three years.

A Canadian order in council of February 14, 1915, amends the previous war measure concerning patents by providing that in case the workings of a patent in Canada is prevented by circumstances occasioned by the war, the validity of the patent will not be affected by a failure to manufacture or construct such patented invention in Canada until six months after the conclusion of the war.

More than 10,000 miles of macadam roads have been ordered built in the United States.

## PEACE PREVAILS AT G. O. P. CONVENTION; FAVOR PREPAREDNESS

### Platform Gives Suffrage Mera Mention—E. E. Wagner Loses.

Pierre, S. D., July 8.—Preparedness sufficient to protect American lives and property everywhere, is advocated in the republican state platform, adopted here yesterday at the state convention. It also approves the National Guard.

The platform gives a mention to equal rights, although it has no pointed tendencies on the question. It merely reminds the voters that the question will be submitted to them at the fall election.

One of the features of the convention was E. E. Wagner's attempt to get an expression on his proposal to do away with the primary and return to the convention system. The chair ruled that Wagner was out of order. He appealed and was voted down.

The following committees were appointed: Resolutions—Elrod of Clark; Bronson of Day; Danforth of Clay; Williams of McCook; Bushnell of Hand; Kellar of Tripp.

Credentials—Waggoner, of Haakon; Gibbs, of Beadle; Smith of Roberts; Smith, of Charles Mix; Lovenger, of Aurora; Phillips, of Minnehaha; Jackson, of Edmunds; Weaver, of Brown; King, of Brookings.

Permanent Organization—Stahelin, of Hanson; Wiley, of Hyde; Rooyl, of Kingsbury; Beebe, of Edmunds; Frangis, of Jackson; Latham, of Faulk; Pettijohn, of Hughes; Orth, of Lawrence; Zielensky, of Brule.

### MOTHER DIVIDES PROPERTY AMONG NINE CHILDREN

Trent, S. D., July 8.—Having reached an advanced age and deciding to retire from active farming, Mrs. B. K. Olson, who has been married for 40 years, has divided her farm of 280 acres between her nine children. Each of them received 30 acres, the one receiving 20 acres and the other 10 acres.

She is one of the wealthiest women in the state before the land division, retains \$5,000 in cash for herself, and divided the proceeds from the crop raised on the 280 acres this year. She has most of last year's crop still on hand, so there is no danger of the hungry wolf hovering about her doorway. She has decided to spend her remaining years in quietude, and will divide her time among her children. Since the death of her husband years ago she directed all the work of the large farm, and proved herself one of the most successful women farmers of the country.

### MAN SLEEPING ON RAILS NARROWLY ESCAPES DEATH

Sioux Falls, S. D., July 8.—Frank Burwell, claiming Boone, Ia., as his home, and a married man, was found on a train in the local yards of the Milwaukee railroad company last night. While a string of cars were being backed the trainmen were surprised to hear a cry for help coming from the cars. An investigation disclosed Burwell on the track. He was partially intoxicated and it appears had come to sleep backed the train. When the train was struck him and he was pushed a distance of about 12 feet without him going under the wheels, when the trainmen heard his cries and stopped the train.

### SOUTH DAKOTA TENNIS MEN TO HAVE TOURNAMENT SOON

Sioux Falls, S. D., July 8.—Arrangements have been completed for the annual tournament of the South Dakota Tennis association, which will open in Sioux Falls on June 17 and continue for several days. Local tennis players will furnish suitable entertainment for the touring players during such time as the tournament is not in progress. A good attendance of crack players of the state and northwest is expected, and some former records, it is believed, will be broken.

### TRIPP STORE ROBBED; CLOTHES, SHOES, MONEY.

Tripp, S. D., July 8.—The G. Hoerling & Sons store was robbed last night. Fifteen suits of clothes, a dozen pair of shoes and \$11 in cash were obtained. The burglars entered through a rear window leading into the warehouse.

SALEM—The first term of the county court on the civil side, for McCook county was held beginning yesterday. One criminal and one civil case was all that came on for trial. The criminal case was one brought under the contributory negligence statute of the state against a man by the name of Geo. L. Thurman living at Montrose. The state charged that he had contributed to the delinquency of a 15-year-old girl living at Salem. A jury trial resulted in a verdict of guilty, and a sequent sentence of six months in the county jail.

PIERRE—The present spell of warm weather is being taken advantage of by the alfalfa raisers to get their first cutting of alfalfa. The alfalfa raisers made the cutting of alfalfa a hard proposition and the change in weather is to the liking of raisers of this forage crop regardless of the fact that the temperature is rather high. This will also help put a good crop in the alfalfa, as too much rain is fatal to this valuable product of the alfalfa raiser.

PLANKINTON—The voters of Truro township, near here, at a special election held recently, voted in favor of school consolidation and the erection of a new, central school building in a convenient location in the township. The election proved to be illegal, and now another election has been called, as the result of which it is believed there will be no further difficulty in connection with the erection of the proposed new school building.

IRENE—An interesting event here was the celebration of the golden wedding anniversary of Mrs. Ole Bjerkie, a highly respected pioneer resident of this part of the state. About 100 relatives and friends were present to aid them in suitably observing the anniversary. They were married in Norway 50 years ago, and in 1892 came to the United States, locating on a homestead in Yankton county in the spring of that year.

BALTIC—One of the largest single shipments of wool ever made from any town in eastern South Dakota was made from his place, when A. I. Berg shipped to a Sioux Falls dealer a lot of wool aggregating 3,771 pounds in weight, for which he received a check for \$1,700. Mr. Berg is only one of a large number of farmers in the Baltic territory who are making good money from their flocks of sheep.

BRIDGEWATER—Assessor C. A. Ray gives the total assessed valuation of both real and personal property for Bridgewater as \$13,200, an increase of \$2,935 over 1914.

## LIFE WITHOUT WIFE NOT BEARABLE; TRIES SUICIDE

Sioux Falls, S. D., July 8.—Daniel J. Higginbotham, aged 30, local barber, unable to withstand grief caused by his wife deserting him, ended his life by swallowing an ounce of carbolic acid. The cause was committed at the home of his mother-in-law. His wife left him Monday following a quarrel. He made several threats that he would end his life if she did not return to him. He told his acquaintances that life without wife was not worth living. There are no children in the family.

### YANKTON HAS ONE INJURY IN JULY 4 CELEBRATION

Yankton, S. D., July 8.—A heavy rain, precipitating several inches of water upon Yankton county, arrived just before the Fourth and made roads somewhat bad and picnics at least of doubtful value. After a lot week, in which the corn has been growing with great rapidity, the rain was of great value. It has helped to keep the corn prospects as excellent in this vicinity.

It is always with some apprehension that Yankton people approach the Fourth, as the city has seen some bad accidents in the past. The safe and sane rules of the past two years were again in force here, and so far as learned on July 5, after a close scrutiny of the field, only one accident resulted. This was to Tony Mormann, aged 16, who received a heavy charge of powder in his right eye, inflicting a painful wound. The eyesight was saved.

SIoux FALLS—Daniel J. Higginbotham, aged 30, local barber, unable to withstand grief caused by his wife deserting him, ended his life by swallowing an ounce of carbolic acid. The deed was committed at the home of his mother-in-law. His wife left him Monday following a quarrel. He made several threats that he would end his life if she did not return to him. He told his acquaintances that life without a wife was not worth living. There are no children in the family.

SIoux FALLS—The Sioux Falls lodge of Elks has just paid off the last outstanding obligation against their temple property which is being sold. The mortgage of \$10,000 against the property which they could have paid several months ago, but the holder of the mortgage preferred drawing interest and would not accept the money until this time, when the officers of the lodge were able to exchange cash for the mortgage. The Elks of Sioux Falls now own property valued at not less than \$75,000, against which there is not a single dollar of indebtedness. Few lodges in the country are in as good financial condition.

FREEMAN—A deputy state food inspector, during a visit to this city, caused the arrest of the wife of a well known farmer on the charge of selling state eggs. The woman was compelled to pay a fine and costs aggregating about \$20. The inspector charged to be in a store when the eggs brought in by the farmer's wife were being unpacked, and noticing that the eggs were not fresh, he ordered the setting hens for 10 days or more under investigation, which resulted in the woman's arrest.

SIoux FALLS—Forty members of the Minnehaha Mandors, a local singing society, which is made up largely of Sioux Falls business men, departed today for Grand Forks, N. D., where they will take part in the annual convention of the Norwegian Singing Association of America, which will open in the North Dakota city this week and continue several days. A number of school students, and have previously constructed their own wireless telegraphs and a wireless telephone.

CANTON—The local Commercial club has appointed a committee of three to confer with the county commissioners and the supervisors of Canton township in reference to the improvement of the road to what is known as three-mile bridge east of Canton. The Commercial club has charge of arrangements for the annual convention of the rural mail carriers of South Dakota, which will be held in Canton on Wednesday, July 12. The club is working on other projects for the welfare of the city.

ST. LAWRENCE—Mr. and Mrs. Charles Shephard, of St. Lawrence, have just celebrated the 50th anniversary of their wedding. Mrs. Shephard has an additional honor in that she was the first white woman to reside in Hand county. Mr. Shephard was section foreman on the Northwestern railroad at St. Lawrence in 1880, when the couple moved here, and there was no other white woman in the county at that time, it is said. Their first child in South Dakota was a considerable one of 1889-91, when the Dakotas suffered so severely from cold and snow, and St. Lawrence was without train service for four months.

PEEBLER—Recently there has been an unusual amount of liquor furnished to the Indians belonging on the Sisseton reservation, and the federal authorities now have stepped in with the intention of putting a stop to the traffic. Samuel Kirk, a special agent, was sent to the scene. Thus far he has arrested several white men on the charge of conducting bootlegging operations among the Indians. Among the prisoners thus far taken is a resident of Wadena and another man giving Orley as his home. The defendants have been lodged in the county jail pending their trial in the Roberts county circuit court.

Hudson—As the result of ptomaine poisoning, Mable Bauder, the 4-year-old daughter of a farmer living near town, has been in a serious condition for several days. The poisoning has affected her brain, but notwithstanding the serious symptom the physicians have strong hope of saving her life. However, it is expected it will be some time before she fully recovers.

MITCHELL—Concealed between the walls of the residence of Matthew Slad, a handbill advertising a pioneer concert, remained for nearly 40 years unnoticed. Recent alterations in the house brought it to light. It describes a band entertainment which was scheduled for Firestone, the village out of which Mitchell grew, on October 18, 1873, by the Presta family, the first band in Dakota territory.

DUPRE—There is no race suicide of the farm of Tom Sawyer, north of Dupree. Sawyer has a young cow on his farm which has become the mother of flourishing young animals, within the period of 13 months, the cow having given birth to twin calves twice in succession.

SPEARFISH—The total assessed valuation of all Spearfish property, as left by the equalization board, for 1916, is \$461,691.

CANOVA—At a meeting of the local Commercial club it was decided to fix Monday, July 19, as the time for the annual sports' day celebration, to be held in this city, and various committees were appointed to make the necessary arrangements. A fine program of entertainment will be provided, and several thousand persons who will be in attendance.

DALLAS—A number of Dallas women had a meeting and perfected the organization of a local W. C. T. U. Mrs. Ada S. Barton was elected president; Mrs. Bismora West, secretary, and Mrs. McDowell, treasurer. The new organization starts out with a good charter membership.

Blunt. From London answers. Jones' opinion of himself as a golfer was very much greater than his skill warranted.

Recently he was invited to play on a certain famous Scottish ground, as a visitor. Armed to the teeth with clubs of all sorts and sizes, he set off, and followed by a caddy, proceeded to play. He hurried his ball in every bunker, gully and rough grass on the course, and muttered naughtily. After half an hour of it, he turned to his silent caddy. "Really, it is the most difficult course I have ever played on."

"How did you keep?" replied the lad, in quiet scorn. "You haven't played on it yet!"

## SOUTH DAKOTA GUARDS DISLIKE PRACTICE OF PICNICS ON GROUNDS

### Visitors Have Habit of Littering Camp—Flies Are Attracted.

Aberdeen, S. D., July 7.—A wall of sorrow and indignation comes from the officers of the South Dakota National Guard at Camp Hagman, Redfield. It is based upon two causes. One is the habit some persons who visit the military camp have, of considering the camp grounds a picnic ground, and proceeding to dump watermelon rinds, banana peels, pieces of buttered bread, cake, and other remnants of a picnic feast about the grounds. The officers say it is a difficult enough task at any time to keep the camp ground where there are 1,200 men in a sanitary condition, and that the debris left by the picnickers attracts flies, and flies cause disease and disease death. So they urge visitors to the camp, if they must take a lunch along, to refrain from dumping the "leavings" on the camp ground or near there, for the sake of the health of the soldier boys, and to save them as well from the task of acting as scavengers for the picnickers.

Another thing the officers object to, is the habit of fond relatives and friends feeding the soldiers with camp, and other rich food. Plain, substantial food is acceptable, but gifts of pastry, candy, etc., is discouraged. It isn't good for the health of the men.

### SHORTHORN RAISERS FORM ASSOCIATION; WILL HAVE SALES

Alexandria, S. D., July 7.—A well represented gathering of the principal breeders of Shorthorn cattle from all parts of the state gathered at Huron and organized a state association. E. J. Williams, representing the Huron association, was present and, with Professor Shaw of St. Paul and Professor Wilson of the state agricultural college, gave some interesting addresses. It was decided to hold at least one Shorthorn sale at Huron, each year, under the auspices of the association, and other sales at other parts of the state as seen advisable by the executive committee. The following officers were elected: President, J. E. Ziebach, of Gann Valley; vice presidents, J. F. White, of Hurley, and E. W. Carr, of Miller; secretary, F. D. Peckham, of Alexandria; treasurer, D. E. McMonies, of Huron.

### GENE VIDAL, S. D. ATHLETE, APPOINTED TO WEST POINT

Madison, S. D., July 7.—Gene Vidal, of Madison, for the past few years the leading athlete at the state university, has been appointed by United States Senator Johnson to a cadetship at West Point. He has passed the physical examination successfully and will leave for West Point in a few days, to enter the engineering department.

### TWO BOYS INVENT BOAT TO BE STEERED BY WIRELESS

Mitchell S. D., July 7.—Two young Mitchell mechanics, Howard Van Penthuysen and Max Black, have perfected a motor boat controlled entirely by wireless. It is six feet long and is propelled by 15 batteries. A sending station on the shore steers and controls its movements. The builders are both high school students, and have previously constructed their own wireless telegraphs and a wireless telephone.

CANTON—The local Commercial club has appointed a committee of three to confer with the county commissioners and the supervisors of Canton township in reference to the improvement of the road to what is known as three-mile bridge east of Canton. The Commercial club has charge of arrangements for the annual convention of the rural mail carriers of South Dakota, which will be held in Canton on Wednesday, July 12. The club is working on other projects for the welfare of the city.

ST. LAWRENCE—Mr. and Mrs. Charles Shephard, of St. Lawrence, have just celebrated the 50th anniversary of their wedding. Mrs. Shephard has an additional honor in that she was the first white woman to reside in Hand county. Mr. Shephard was section foreman on the Northwestern railroad at St. Lawrence in 1880, when the couple moved here, and there was no other white woman in the county at that time, it is said. Their first child in South Dakota was a considerable one of 1889-91, when the Dakotas suffered so severely from cold and snow, and St. Lawrence was without train service for four months.

PEEBLER—Recently there has been an unusual amount of liquor furnished to the Indians belonging on the Sisseton reservation, and the federal authorities now have stepped in with the intention of putting a stop to the traffic. Samuel Kirk, a special agent, was sent to the scene. Thus far he has arrested several white men on the charge of conducting bootlegging operations among the Indians. Among the prisoners thus far taken is a resident of Wadena and another man giving Orley as his home. The defendants have been lodged in the county jail pending their trial in the Roberts county circuit court.

Hudson—As the result of ptomaine poisoning, Mable Bauder, the 4-year-old daughter of a farmer living near town, has been in a serious condition for several days. The poisoning has affected her brain, but notwithstanding the serious symptom the physicians have strong hope of saving her life. However, it is expected it will be some time before she fully recovers.

MITCHELL—Concealed between the walls of the residence of Matthew Slad, a handbill advertising a pioneer concert, remained for nearly 40 years unnoticed. Recent alterations in the house brought it to light. It describes a band entertainment which was scheduled for Firestone, the village out of which Mitchell grew, on October 18, 1873, by the Presta family, the first band in Dakota territory.

DUPRE—There is no race suicide of the farm of Tom Sawyer, north of Dupree. Sawyer has a young cow on his farm which has become the mother of flourishing young animals, within the period of 13 months, the cow having given birth to twin calves twice in succession.

SPEARFISH—The total assessed valuation of all Spearfish property, as left by the equalization board, for 1916, is \$461,691.

CANOVA—At a meeting of the local Commercial club it was decided to fix Monday, July 19, as the time for the annual sports' day celebration, to be held in this city, and various committees were appointed to make the necessary arrangements. A fine program of entertainment will be provided, and several thousand persons who will be in attendance.

DALLAS—A number of Dallas women had a meeting and perfected the organization of a local W. C. T. U. Mrs. Ada S. Barton was elected president; Mrs. Bismora West, secretary, and Mrs. McDowell, treasurer. The new organization starts out with a good charter membership.

## SCOURGE HAS APPEARED IN MANY STATES

### Scores of Cases of Infantile Paralysis Reported From Various Sections of the Country.

### FEWER DEATHS IN GOTHAM

### Physicians Doubt Disease Will Be Curbed Until Cold Weather Sets In—U. S. Gives Aid.

New York, July 10.—Although this was the hottest day since the beginning of the epidemic of infantile paralysis two weeks ago fatalities from the disease showed a decrease. During the 24 hours preceding 10 o'clock today the disease killed 18 children in the greater city, 15 of this number dying in Brooklyn.

Ninety-five new cases of the disease were reported in the five boroughs. During the week just ended there were 126 deaths, 105 of this number in Brooklyn. More than 800 cases were reported.

The falling off in the number of fatalities and new cases during the last three days although only slight is regarded as favorable by health experts. There were 24 deaths during the 24 hours ending at 10 o'clock Thursday morning, 22 on Friday and 18 today.

Many Cases Wrongly Diagnosed. Assistant Surgeon General W. C. Rucker, of the federal public health service was in consultation with Health Commissioner Emerson and other health officials today. That not 50 per cent of the cases reported to the health authorities as acute anterior poliomyelitis or infantile paralysis are genuine is the statement made today by Dr. Thomas Darlington, formerly president of the board of health.

Many physicians who are not expert in their diagnosis have reported as infantile paralysis all cases of infantile summer disorders which are in many cases filled with anterior poliomyelitis, he said. It is said that recognition of this disease is not possible at the outset or even during the early days of its course.

New York, July 8.—Health authorities of New York decided late last night to abandon for the present at least plans decided upon in the afternoon to appeal to the American Red Cross for assistance in stamping out the scourge of infantile paralysis in this city, which since June 1 has caused 196 deaths among children. Health Commissioner Emerson said he was now of the opinion, it would not be necessary to ask for outside aid as the hospitals of this city have agreed to extend their help more freely. The disease has appeared in other sections of the country.

Dr. Emerson frankly admitted that his department has been unable to determine the actual cause of the epidemic. All theories which previously had been held apparently have been disproved, he said. Proper isolation of the cases seems to be the only hope of preventing the spread of the disease, he declared.

Hopes For Cool Weather. Health Commissioner Emerson said today that only a cooler weather would stop the epidemic. He did not look for its abatement in the near future.

Dr. Emerson declared that one of the steps he had decided upon was the prosecution of physicians who have failed to report cases of the disease they have attended. Court actions would be begun he said wherever the necessary evidence could be obtained.

Another serious phase of the situation was reported today by the association for improving the condition of the poor, which has found that in the congested districts of the city frightened mothers have interned their children in their tenement houses in many instances with windows closed. Such action, it was pointed out, is likely to have serious effects not only to the children but on adults as well.

The proposal of a general quarantine of the city was abandoned by Dr. Emerson as impracticable.

Additional assurances were given today to the United States public health service that every possible aid would be given the municipal authorities in carrying on their work. Six officers already have been assigned to the task of tracing germ carriers.

Begin Research Work. Secretary of the Treasury McAdoo informed Mayor Mitchell today that after a conference with Secretary of the Agriculture Houston, the latter had agreed to do everything in his power to facilitate the entry into the country of shipments of monkeys from the Philippine islands, which are needed for research work.

Inspectors who are at work in all five boroughs of the greater city declare that never in their experience have they found so many slacker efforts made in the homes of the poor to follow instructions of the health department.

Almost every home visited has been spotlessly clean, but many of them are suffering with flies because the families have no funds with which to buy screens. As a result of these reports, money will be provided properly to screen all windows. Mothers were told to have their children get as much fresh air as possible, but to keep away from other children.

### SPREADS TO MONTREAL.

Montreal, July 8.—The epidemic of infantile paralysis reached Montreal yesterday. Five cases have been reported in the last 24 hours. City authorities have started a campaign to keep the disease from gaining a foothold.

### TWO NEW CASES.

Albany, N. Y., July 8.—Only two new cases of infantile paralysis in sections of the state outside New York City were reported to the state health department this forenoon. This brings the total number of cases outside of Greater New York to 47.

### DISEASE IS SPREADING.
