Some evil disposed person broke into William Bidleman's stable either Monday night or early Tuesday morning and gave his horses some rough on rats. It is supposed the intention was to poison the horses but an overdose was given. Mr. Bidleman has a good idea who the perpetrator of the deed is. It is hoped he can secure evidence enough to convict the guilty person as such a wretch should be behind prison bars.

Hotel-keepers are warned to be on the lookout for a pair of sharpers. Two men, arriving separately and apparently unacquainted, take a room each on the same floor of a hotel. One has a large trunk, the other a small one. At the first chance when no one is about the smaller is put inside the larger. The owner of the former then declares his loss, stating that the property has been stolen, and often leaves the house with a substantial sum in his pocket as a compensation for the vanished trunk.

The Sabbath school teachers' meeting was held in M. E. church hall Tuesday evening, and although the attendance was small, a very interesting and instructive hour was passed. As the S. S. teacher has but one hour in the week in which to instruct the class, these meetings should be attended by every teacher in the village that they may become thoroughly acquainted with the lesson before undertaking to impress the truths upon the minds of the young. The next meeting will be held in M. P. church. An invitation is extended to all to attend, especially those interested in Sabbath school work.

If the following from the Ishpeming Record is true, then the gold cure institutions will have to get out of business or reduce their prices: "At the bottom of the Ropes gold mine a spring has been struck which flows a strong stream of highly colored water, being nearly as yellow as gold and plainly holding considerable of that metal in solution. It is very palatable and ice cold. Several of the men in that level have been in the habit of freely drinking of this water, and it was noticed that as they drank the desire for alcoholic stimulants died within them. Some of the men had been heavy drinkers of beer and whiskey, but since they have used this water they have no wish for any such stimulants. Their health and physical condition has generally improved, and it is thought that we have here a veritable and natural gold cure, not only for the liquor habit, but for general diseases of all kinds."

A new counterfeit \$5 national bank note has been discovered by the secret service officers. It is on the Citizens National Bank of Niles, Mich., check letter B, series of 1892, W. S. Rosecrans, register; E. H. Nebeker, treasurer, portrait of Garfield. It is a photographic production, the treasury and bank number and panel on back containing charter number being colored with pen and brush. The entire face of the note is brown, instead of black, no attempt having been made to hide the evidence of photography.

When a man patronizes home industries it can always be taken as an indication that the man is in sympathy with these industries and with the prosperity of his town. But when a man deliberately goes out of his own town to make purchases he can as well make at home, and at as reasonable prices, it is evident he cares little or nothing for his own town's prosperity. The Expositor firmly believes in home patronage, and thinks it every person's duty to patronize home industries. That which helps the merchants and citizen works to the benefit of the town in general. Every dollar spent out of town for merchandise just injures the town to that extent.

Those who study omens say another long, cold winter, filled with blustering storms, is ahead. The goosebone is nearly all white, and snow, they say, will lie on the grounds from early in December until April, or later. Corn husks are more than usually thick. The maize has put on an extra overcoat to protect itself from the zero temperature to come. Woodchucks and chipmunks are already fat enough to kill, and their fur is dense and fine and soft. They, too predict cold weather, and will seek winter quarters early. Musk-rats are unusually busy, cranes are flying southward, squirrels are laying in extra stores of provisions, and hornets' nests are hung low.

MOSTABUE, Mich., Nov. 13, 1893. W. Windecknecht, a wealthy farmer of Muskegon Co., personally appeared before me, this day, and says: "That for the past year or so he was afflicted with weakness, trembling, heart failure, extreme nervousness and headache; that he consulted with physicians but received no benefit. He was persuaded by a friend to try a sample bottle of Dr. Wheeler's Nerve Vitalizer, and he says the trembling and nervous feeling was immediately stopped by its use. Afterwards he used two bottles of the same medicine and says he is entirely cured." Signed, W. WINDECKNECHT.

Sworn to and subscribed before me a Notary Public for Muskegon Co., State of Michigan. JAS. MORRISON, This medicine sold by Grant Holden, Yale.
