January Crop Report.

December was a warm, dry month, the mean temperature being above and the precipitation below, the normal. The snow fall in the lower peninsula was light. The ground was not covered December 15 in the southern and central counties, and on December 31 the average depth in these sections was less than one inch.

The total number of bushels of wheat reported marketed in December is 1,494,736. The number of bushels reported marketed in the five months, August-December, is 6,235,103, which is 1,663,952 bushels less than reported marketed in the same months last year.

The average condition of live stock in the State is reported as follows, comparison being with stock in good, healthy and thrifty condition: Horses 94 per cent; sheep and cattle, 95 per cent, and swine 97 per cent.

The average price of wheat January 1, 1895, at the usual places of marketing by farmers, was 60 cents per bushel; of corn, 46 cents, and of oats 32 cents, and the average price of hay was \$7.95 per ton.

The average price of fat cattle was \$2.94 per cwt., of fat hogs \$3.96 per cwt. and of dressed pork \$4.97 per cwt.

The average price of each class of horses was as follows: Under one year old, \$18.19; between one and two years old, \$28.42; between two and three years old, \$42.58; three years old and over, \$60.77.

Milch cows were worth \$27.01 per head. Cattle other than milch cows under one year old were worth, per head, \$6.78; between one and two years old, \$12.18; between two and three years old, \$18.99; three years old and over, \$25.61.

The average price of sheep under one year old was \$1.32, and one year old and over, \$1.64; and hogs under one year old were worth \$4.32, and one year old and over, \$8.79.

The prices here given are for the State. For each class of horses and for sheep they are higher, and for milch cows, each class of cattle other than milch cows, and hogs, lower than the prices ruling in the southern four tiers of counties. The difference either way however, is in no case large.

Compared with January 1, 1894, there has been a decline in the prices of all farm products named in this report, excepting corn and oats. Corn averages 3 cents and oats 1 cent a bushel more than one year ago.

The loss on wheat is 5 cents per bushel.

The decline on fat cattle is 16 cents; fat hogs, 73 cents; and dressed pork, \$1.10 per cwt.

The several classes of horses have declined in value as follows: Under one year old, \$4.68; between one and two years old, \$7.26; between two and three years old, \$10.07; and three years old and over, \$15.06.

Milch cows have declined \$1.82 per head.

Sheep under one year old have declined 35 cents per head and those one year old and over, 52 cents per head.

Hogs under one year old average 94 cents less, and those one year old and over, \$1.40 less than one year ago.

WASHINGTON GARDNER, Secretary of State.

Shocking Accident.

The remains of Neil McKeith were brought home by train on Saturday. Deceased and Thomas Wark started for the woods on the last Tuesday in October. For three weeks they worked at Coleman, this state, and then went to Three Lakes, Wisconsin, where they found employment in Cody's Camp No. 2. On Wednesday, January 16th, McKeith was landing logs when a log dropped from the sleigh, crushing his leg and internally injuring him. He lived six hours and then expired. He was a son of John N. McKeith, who died about 16 years ago. His mother also died when he was about 2 years of age. He had no brothers or sisters and was about 23 years old. The funeral was held at the Baptist Church in Speaker on Sunday, January 20th. Elder Hooper officiating. The remains were put to rest in Speaker cemetery.
