## GET A PRIZE!

The great contest for prizes and premiums at the several fairs is over, and while several received prizes, there are many who were "not in it," as at the fairs all cannot be accommodated with prizes, and, consequently, many are doomed to disappointment. Not so at The Racket—as everyone gets a prize; there being no blanks and no disappointments. The great bargains are all prizes and all that is necessary is to visit and do business at this store and you will not be disappointed. As the money saved to customers each year amounts to more than ten prizes at any fair.

### Death of Nellie DePeel.

For many weeks past Miss Nellie DePeel, daughter of Mr. and Mrs. A. DePeel, who reside on Mechanic street in this village, has been seriously sick. During this long period of suffering Nellie seemed to hover between life and death, and there was that painful fluctuation of hope and doubt on the part of friends.

As life lingered from day to day, and week to week, many anxious enquiries were made by the sympathizing public, but no very hopeful answer could ever be given. As a last resort, and by the express wish of the patient and friends, who were apprized of the extreme danger and risk, a surgical operation was performed last week. But all efforts of no avail, and she fell asleep in death on Sunday morning, October 16, 1898. The deceased was born July 7, 1880, and was 18 years, 3 months and 9 days old at death.

The funeral service was held at the home Tuesday, Oct. 18, conducted by Rev. Wm. Rennie, pastor of the F. M. church. Despite the drenching storm, these services were attended by a large throng of people who followed the form of the loved daughter to its rest in Elmwood cemetery.

Miss DePeel was a young lady of exceptional qualities and scores of people both young and old, loved her for her true self and character. It cannot restore Nellie to the home of the bereft family, but it is a source of consolation to know that many outside the family circle mourn the loss of a friend.

A few days before her departure, Nellie started to repeat the 23rd, but her strength was not sufficient and she asked Mrs. Moore to finish the psalm. She was fully conscious of her approaching death and expressed to members of the family her great confidence in God's forgiving love.

### October Crop Report.

The number of acres of growing wheat in the State last spring as returned by supervisors in the Farm Statistics was 1,730,224; the average yield per acre as found by threshing is 19.12 bushels, and the total yield in the State 33,083,261 bushels. The total yield is found by multiplying the number of acres in each county by the average per acre in the same county and footing the products. The average per acre in the southern counties is 19.36 bushels; in the central, 19.60 bushels, and in the northern, 15.02 bushels. These averages are based upon a return of 164,183 acres threshed in the southern counties, more than 28,000 in the central counties, and more than 10,000 in the northern counties. The average per acre in the State is 0.52 bushels, and in the southern counties, 0.55 bushels less than the September estimates.

It should perhaps be pointed out that the returns that will be made by supervisors next spring may show that the acreage actually harvested this year was less than above stated. The number of "acres harvested" as reported by supervisors the next spring after the harvest, is nearly always less than the "acres on the ground" reported in the spring preceding the harvest.

No further estimate of the wheat crop of the present year will be made by this department.

The total number of bushels of wheat reported marketed by farmers since the September report was published is, 2,154,884, and in the two months, August and September, 3,867,281. This is 2,352,249 bushels more than reported marketed in the same months last year. Oats are estimated to yield 31.75 bushels per acre, barley 21.79 bushels, and corn 58 bushels of ears. The estimate for oats is from threshers' records. The estimates indicate that these are all full average crops. Corn was very generally harvested without damage by frost.

Potatoes are estimated to yield 68 per cent and beans 66 per cent of average crops. The estimate for potatoes indicates a very general belief that the crop has been badly damaged by drouth.

The percentages for winter apples are: Southern counties 47, central 77, northern 72, and State 56. One year ago winter apples were estimated at 11 per cent in the southern counties and 18 per cent in the State.

The percentages for late peaches are: Southern counties 52, central 73, northern 92, and State 82. One year ago the figures for the southern counties were 8, and State 12.

A picnic was given to the First and Second Primary departments in J. E. Francis' woods a week ago last Friday for the purpose of gathering autumn leaves. The leaves are for study and a border for the blackboards.

A pleasant surprise was given the First Primary department last Friday afternoon. At three o'clock the First Primary was invited to the Second Primary department where a fine program had been prepared.

A change has been made in the way of distributing the books of the library which makes it much more pleasant and easier, for both pupil and teacher. Those who have books are requested to bring them in before Friday night.

The Juvenile Sewing Circle met at the home of Mrs. S. Bettes last Saturday afternoon. The time was spent in making aprons. The proceeds amounted to \$1.00. These proceeds will be expended for the needy during the winter.

### Three Doctors in Consultation.

From Benjamin Franklin.  
"When you are sick, what you like best is to be chosen for a medicine in the first place; what experience tells you is best, to be chosen in the second place; what reason (i. e., Theory) says is best is to be chosen in the last place. But if you can get Dr. Inclination, Dr. Experience and Dr. Reason to hold a consultation together, they will give you the best advice that can be given."  
When you have a bad cold Dr. Inclination would recommend Chamberlain's Cough Remedy because it is pleasant and safe to take. Dr. Experience would recommend it because it never fails to effect a speedy and permanent cure. Dr. Reason would recommend it because it is prepared on scientific principles, and acts on nature's plan in relieving the lungs, opening the secretions and restoring the system to a natural and healthy condition.
