It is the best cough medicine I ever had in the house.—J. L. Moore, South Burgettstown, Pa. For sale by Will Lennan.

An exchange says it is queer, but this is a peculiar world. One man is saying money to build a house, another trying to sell his for less than it cost him to build it. One man is spending all the money he can make in taking his girl to the theater and sending her flowers with the hopes of making her his wife, while a neighbor is using what money he has in getting a divorce. One man escapes all the diseases flesh is heir to and gets killed on a railroad. Another escapes with only a scratch and dies with the whooping cough. One man stands off his creditors and goes traveling to the lakes or springs, while another stays to home and pays his debts.

Robbed the Grave. A startling incident, of which Mr. John Olivet of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three doctors had given me up. Fortunately, a friend advised trying 'Electric Bitters' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50c per bottle at Grant Holden's Drug Store. A Card. It's Easy To Take. Thin, pale, anæmic girls need a fatty food to enrich their blood, give color to their cheeks and restore their health and strength. It is safe to say that they nearly all reject fat with their food. SCOTT'S EMULSION OF COD LIVER OIL WITH HYPOPHOSPHITES OF LIME & SODA. is exactly what they require; it not only gives them the important element (cod-liver oil) in a palatable and easily digested form, but also the hypophosphites which are so valuable in nervous disorders that usually accompany anæmia. SCOTT'S EMULSION is a fatty food that is more easily digested than any other form of fat. A certain amount of flesh is necessary for health. You can get it in this way. We have known persons to gain a pound a day while taking it. SCOTT & BOWNE, Chemists, New York.
