WHAT DO YOU KNOW

ABOUT STOVES?

We know that it is pretty hard to decide what to buy sometimes as there
are so many kinds that are good. We have several kinds that have been
thoroughly tested and always have been satisfactory, and we KNOW you
could not make a mistake if you bought any one of the following Base
Burners, and we think the prices we quote on these compare favorably
with any you might get elsewhere.

ART GARLAND No. 58—Full tickled, 16 in. firepot, large mica surface
and all the features that make these stoves so satisfactory—\$30 00.

ART GARLAND, No. 48—same as above only smaller, 15 in. firepot—\$47

GOLD COIN, No. 599—full tickled, 17 in. firepot, guaranteed to be one
of the best stoves on the market—\$50.

COLONIAL JEWEL, No. 17—well tickled, not so large a stove as the
ones just quoted, but with 16 in. firepot—\$35. Just the stove you want if
your room is not very large, as it will not take up so much room.

Call and see these stoves and if they do not please you we have others
we will be glad to show you.

John Hutton
