

BUSINESS DIRECTORY

DR. BENJ. CLYNE
PHYSICIAN, SURGEON AND ACCO-
CHIEF. Office on Main street, first
door south of George McIntyre's Ware
Rooms. Office hours from 10 to 12. Tues-
days and Saturdays all day.
YALE, MICH.

WILLIAM WIGHT.
D. C. M. Trinity University, M. C. M.
Victoria University, Toronto, Ont.
Office and residence on Main street. Office
hours: 7 to 9 a. m., 12 to 1:30 p. m. and
after 6 p. m.
YALE, MICH.

A. POLLOCK, M. D.
OFFICE Over First National Bank. Office
hours: 8:30 to 10:30 a. m., 1 to 4 p. m.
Tuesdays and Saturdays.
YALE, MICH.

DR. P. G. LATHROP.
DENTIST, has had 35 years experience
in Mechanical Dentistry. Uses the
latest methods of extracting teeth. Office
on Main street, upstairs over Newell & Tom-
ford's general store.
YALE, MICH.

J. B. STEVENS.
VETERINARY SURGEON. Graduate
of Toronto Veterinary College. Member
of the Veterinary Association. Calls
promptly attended day or night. Office in
building opposite The Palace.
YALE, MICH.

AARON WINDSOR.
TUNING ARTIST. If you want a
first-class hair cut, shave, shampoo or
facial, don't fail to give him a call.
Charges moderate. Hot and cold baths.
YALE, MICH.

SOCIETY DIRECTORY

F. & A. M.
BROCKWAY LODGE, NO. 316.
Regular communication for 1906 will
be held on the following Thursday eve-
nings of each month at 8 o'clock in Masonic hall
corner Main and North streets, Yale—Jan. 4,
Feb. 5, Mar. 5, Apr. 5, May 5 and 21, June 24,
July 5, Aug. 5, Sept. 27, Oct. 27, Nov. 27, Dec.
27.
W. A. Cavatagli, W. M.
Henry Pearce, Sec. H. E. Beard, Treas.

YALE CHAPTER, NO. 64, O. E. S.
REGULAR MEETINGS for 1906 will be held
on the following Wednesday evenings of
each month in Masonic hall, Yale—Jan. 10,
February 14, March 11, April 11, May 5, June 6,
July 11, Aug. 11, Sept. 11, Oct. 11, Nov. 11, Dec.
11.
W. A. Cavatagli, W. M.
H. Harvey Drake, W. P.

YALE TENT, NO. 88, K. O. T. M. M.
REGULAR REVIEW
Every first and third
Tuesday evenings of each
month at 7:30 o'clock start
in their hall, Matthews &
Wright Block, Yale. Yelling
Knights will be royally re-
ceived. Members request-
ed to attend regularly.
Bert Kelley, Com.
Chas. Palmer, R. K.
W. A. Cavatagli, F. R.

ADVANCE LODGE, NO. 110, I. O. O. F.
Meets every Friday evening at
their hall in Union Block, Yale.
Visiting brethren always welcome.
W. A. Cavatagli, W. M.
Alfred Goheen, Sec. F. A. Griswold, Treas.

PERE MARQUETTE
SEPT. 24th, 1905.
TRAINS LEAVE YALE AS FOLLOWS.
For Port Huron and east at 7:17 A. M. and
8:00 P. M.
or Saginaw and way Stations—
7:45 A. M. and 7:17 P. M.
For Grand Rapids, Ludington and western
points, Detroit and Toledo 9:45 A. M.
M. IRWIN, H. F. MOELLER,
Agent, General Passenger Agent.

WHEN YOU VISIT PORT HURON—Put Up at the—
Union Hotel!
PHIL EICHORN, JR., PROP.
This house is furnished throughout with Electric Call Bells, Electric Fans and every other convenience for the comfort of guests.
First-Class Tables. First-Class Rooms.
50 YEARS' EXPERIENCE
PATENTS
TRADE MARKS DESIGNS COPYRIGHTS & C.
A person sending a sketch and description may quickly ascertain our opinion free whether an invention is probably patentable. Communications strictly confidential. Handbook on Patents sent free. (Largest agency for securing patents.) Patents taken through MUNN & Co. receive special notice, without charge, in the Scientific American.
A handsomely illustrated weekly. Largest circulation of any scientific journal. Terms, \$3 a year in advance. Single copies, 10 cents. MUNN & Co., 311 Broadway, New York. Branch Office, 215 F. St., Washington, D. C.
LADES DR. LaFRANCO'S COMPOUND.
Ref. apody regulator. 35 cents. Druggists or mail. Booklet free. DR. LaFRANCO, Philadelphia, Pa.

CHINA SURPRISING THE WORLD.

Civil Service Reform the First of Many to Come.
A year or so ago the world heard that the Chinese civil service was to be reorganized on a modern basis. The world thought it a good joke. Still later the news went forth that the old lady was taking steps preparatory to setting up parliamentary government. Still the world laughed. Now comes the word that the first mentioned reform is actually in operation. The civil service examinations for this year deal not with Chinese classics but with the most practical of live problems. Candidates will be asked, among other things, to state how the resources of China can best be developed; to describe the educational systems of western countries; to speculate on the hearing of the Siberian railway and the Panama canal upon Chinese interests; to explain the meaning of free trade and protection and to describe Herbert Spencer's views on sociology. A year ago a man who would govern a province, run a railroad or tend a draw-bridge had only to know his Confucius. The contrast is startling—Cleveland Plain Dealer.

Engineer Has Fine Record.
Thomas Ridley of Pittsburg, formerly an engineer on the Pennsylvania road, was retired on a pension two years ago. When Andrew Carnegie was a poor young fellow Ridley helped him once or twice and the two have been close friends for many years. "Old Tom," as he is called, visited the multimillionaire recently. The latter presented him with a book on the flyleaf of the inscription. "Old Tom Ridley, one of my first and one of my best friends. One of the few, rapidly growing fewer, who called me Andy and have the right to do so. New York, Dec. 15, 1905. Andrew Carnegie." Ridley, who is 80 years old, carries a \$525 gold watch, with a 74 pennyweight gold chain, bearing an inscription stating that it was presented in recognition of his courage and loyalty in refusing to run his train into a fire in Pittsburg on July 22, 1877, as ordered to do by a committee of rioters.

Has Done Good Work for Mexico.
Judge Delavan A. Holmes, general agent of large packing interests in this country has been traveling in Mexico. In his opinion President Diaz will go down in history as one of the greatest statesmen of the age. "When Diaz was elected twenty-five years ago," says Judge Holmes, "Mexico was heavily in debt and the republic was on the verge of disruption after years of misgovernment. Now all is peace and prosperity, due almost entirely to the efforts of Gen. Diaz. The school system especially is a surprise to American visitors. There is a law for the compulsory education of children in ordinary branches, after which the pupil may get an education in the National university—all at government expense."

Lived in Royal Style.
Min Yung Whan, the Korean prince who killed himself as a protest against the Japanese protectorate, lived in a magnificent palace of his own, which came down to him by hereditary right, and was surrounded with an army of retainers, fighting men, slaves and women. He had a table of beaten silver crusted with the most precious sapphires, and his state dress was so heavy with gorgeous jewels that it took two men to lift it over his head. He carried with him on his travels a great white parrot with rose colored lining on his wings. The parrot's beak was perforated and each side was set with precious sapphires.

COMES OF DIPLOMATIC FAMILY.

Peruvian Minister Has Line of Statesmen Behind Him.
Felipe Pardo, the new Peruvian minister to the United States, belongs to one of the oldest and most distinguished families in the South American republic, a family of statesmen and politicians. He is a near relative of Dr. Jose Pardo, the newly elected president of Peru, and is a

leader in the civil party, which was founded by Don Manuel Pardo, former president.

POWER PLANTS FOR NIAGARA.

Scheme Now on Foot to Utilize the Lower River.
Always room for one more power plant at Niagara. The latest looks to the lower Niagara river, which falls eighty feet in a length of two and a half miles, with the whirlpool nearly at the center of this length. This is about half the descent of the great cataract above and is made by the entire volume of water that passes over both the American and Horseshoe falls. Alton D. Adams calculates that the unused power of these rapids just above and below the whirlpool could develop half as much power as could be developed by diverting the entire flow of Niagara river at the falls. If the American falls are to be saved further concessions must be limited to the gorge and lower rapids. His idea is to build pipe lines between the upper and lower points of the rapids. Niagara river has a normal discharge of 222,000 cubic feet of water a second, and this water falling eighty feet develops 2,000,000 gross horse power. Making due allowance for losses in the pipe line, water wheels, tailrace and generators, it may fairly be said that 60 per cent of the gross energy could be delivered as electric current if the entire discharge of the river were utilized. This net power is twice as great as that of all the electric plants now completed and under construction at Niagara falls.

WILL MAKE PERILOUS VOYAGE.

Walter Wellman, who will start in airship on trip to the North Pole.

Mme. Loubet is Popular.
Mme. Loubet, the wife of the president of the French republic, is a typical Frenchwoman, and has become, since her arrival at the Elysee, exceedingly popular. Mme. Loubet has the strong maternal instinct which always distinguishes a southern Frenchwoman; she is a fond and vigilant mother and is often met walking about in the neighborhood of the palace with her youngest son. From the first she has taken special interest in all those charitable institutions designed to benefit the children of the poor and the orphans of Paris.

New Yorkers Living in Hotels.
Wealthy New Yorkers manifest an increasing tendency to live out of the city. Social observers go so far as to say there are indications that ere long the families who have longest been identified with New York will choose to make their homes in a suburb and will be satisfied with an occasional visit to town. What is more, most of these persons, even to the richest, will prefer to put up at a hotel or to live in an apartment hotel when they do come to town instead of maintaining an establishment of their own.

Prominent Antiquarian Dead.
Richard O'Flynn, the most prominent Irish antiquarian in New England, is dead in Worcester, Mass., aged 76 years. He came to this country in 1851. He was a molder by trade, but for the last thirty years kept a store, doing an extensive business in all kinds of antiques. He represented several steamship companies and financial institutions in Great Britain and Ireland.

Kentucky's New Senator

Thomas H. Paynter, who was selected for United States senator from Kentucky, will succeed Senator Blackburn at Washington. Paynter was born in Lewis county, Kentucky, in 1851, attended Central college at Danville, Ky., and was admitted to the bar in 1872. He was a member of congress in 1889-1895 and was elected judge of the justice court of appeals in 1894. His home is at Greenvu, Ky. He was re-elected to the appellate court in 1900.

HAVE PERPETUAL MOTION IDEA.

Many Men of Ability at Work on This Problem.
In the days of the Mayflower the first perpetual motion inventors took out their patents for "engines which, being put in order, will cause and maintain their own motions with continuance and without any borrowed force of man, horse, wind, river or brook," and in the last century they have applied for about 600 patents which are based chiefly on the force of gravity, loss of equilibrium, specific gravity of floats and weights immersed in water or other liquid, aspiration of receptacles inflated with air or gas under water, compression and subsequent expansion of gases, and of the surface tension of liquids. So sanguinely hopeful are these ingenious designers that in many cases they provide brakes to stop their machines if necessary, or to prevent any dangerous increase of speed. The care and thought expended on the principle and detail of many of the inventions demonstrates that many men of mental ability cling to the idea that perpetual motion is possible and that they themselves are successfully solving the problem.

Premier Thirty Years.

Richard Seddon, whom Sir William Harcourt once congratulated on having "discovered the valuable secret of perpetual power," has just won at the general election in New Zealand. He is now in his thirtieth year of uninterrupted premiership. Mr. Seddon was only eighteen years old when he sailed from Liverpool as a steerage passenger to seek his fortune in Australia. On landing in Melbourne he found employment in the local government railway workshops, and there he remained for some years until he was attracted with many other Australians to the newly discovered gold fields on the west coast of New Zealand. There he came to the front as a diggers' advocate, was elected to the local municipal council, became mayor, then M. P., then minister of mines and finally the perpetual premier that he is to-day.

Long Range Electricity.

From the Victoria falls to Witwatersrand, a distance of 700 miles, engineers propose to carry electrical power to mine South African gold. They are convinced the plan will be commercially successful, especially as the dry climate is most favorable, while there is no lee in the rivers to interfere with the working of the turbines and no snow to break down the transmission lines. It is estimated that in the driest season 500,000 horse power could be developed. The available head of water is about 330 feet, but a head of 1,000 feet could be obtained by engineering works of a comparatively light type. This would produce about 1,000,000,000 horse power. At present \$15,000,000 is spent annually on the Rand for power.

Hard-Drinking Statesmen.

William Sulzer, the Tammany congressman who has just been presented with some thirty quarts of rare old liquor, has never taken more than half a dozen drinks in his life. Mr. Sulzer is wont to recall a celebration while he was speaker of the New York state assembly. Senator Edmunds of Vermont on that occasion was a principal speaker and before he began his remarks he had caused the disappearance of nearly a quart of fine old brandy. Later in the day Mr. Edmunds did away with about the same amount of old rye. The distinguished Vermontier is about the last of the old guard led by Thurman of Ohio, to the members of which a quart of liquor was just enough for field at one meal.

Your Life Current.

The power that gives you life and motion is the nerve force, or nerve fluid, located in the nerve cells of the brain, and sent out through the nerves to the various organs. If you are tired, nervous, irritable, cannot sleep; have headache, feel stuffy, dull and melancholy, or have neuralgia, rheumatism, backache, periodical pains, indigestion, dyspepsia, stomach trouble, or the kidneys and liver are inactive, your life-current is weak. Power-producing fuel is needed; something to increase nerve energy—strengthen the nerves. Dr. Miles' Restorative Nerve is the fuel you need. It feeds the nerves, produces nerve force, and restores vitality. "When I began taking Dr. Miles' Restorative Nerve and Anti-Pain Pills I was confined to my bed. I had severe nervous spells, the result of two years illness with malaria. I gradually grew so weak that I was unable to sit up. The spells would commence with cold chills, and I would become weak and almost helpless. My circulation was poor. I had doctored right along but grew weaker and weaker. The Nerve seemed to strengthen me right away and my circulation was better. I have taken in all seven bottles of the Nerve, and I am entirely well." ROSA E. WEAVER, Sturtevant, Ia. Dr. Miles' Nerve is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money. Miles Medical Co., Elkhart, Ind.

RAPID RAILWAY SYSTEM

The Great Panoramic Route Between Port Huron and Detroit.
Low Rates - Parlor Cars - Frequent Service.
(Cars run on central standard time. Time table subject to change without notice.)
Detroit-Port Huron Specials Daily, running over new short line.
Lv Port Huron (waiting room) 7:56 a. m., 3:30 p. m.
Arrive at Detroit (M. C. Depot) 10:24 a. m., 6:02 p. m.
Leave Detroit (M. C. Depot) 7:48 a. m., 3:45 p. m.
Arrive at Port Huron (waiting room) 10:20 a. m., 6:29 p. m.
Time between Port Huron and Detroit city Hall, two hours and thirty minutes.
Regular runs leave Port Huron (waiting room) for St. Clair, Marine City, Algonac, Mt. Clemens, Detroit and all intermediate points at 6:20 a. m. and every hour thereafter until 8:30 p. m. Cars running over old route via Algonac.
Direct connections are made in Port Huron with Pere Marquette trains to and from the north, and with all way stations. Also stations on the Port Huron, Saginaw and Bay City Division.
Fare Port Huron to Detroit one way, 50c. Round trip tickets can be purchased at Waiting Room in Port Huron to Detroit and return a \$1.00.
For folders, time tables, booklets, etc., address Harry Bullen, Gen. Supt., Detroit, Mich., or Geo. W. Parker, G. E. and P. A., Detroit, Mich.

The American Boy

"GOOD ALL THE WAY THROUGH"
That's what the boys of America say of THE AMERICAN BOY. It develops the taste for good reading, and interests boys in all manly sports, games, and exercises. Your boy will like THE AMERICAN BOY because it's all boy. You will like it because of the high character of its contents. Over 100 big pages. Over 100 stories. Over 1000 illustrations. Contains real stories of travel and achievement; instructive tales of history; games and sports; how to do things, etc.

Subscription price of "The American Boy" 1 year...\$1.00
Subscription price of "The Yale Expositor" 1 year...\$1.00
Total...\$2.00
Both 1 year for...\$1.50
Address: THE YALE EXPOSITOR, Yale, Michigan.

FOLEY'S HONEY AND TAR

The original LAXATIVE cough remedy.
For coughs, colds, throat and lung troubles. No opiate. Non-alcoholic. Good for everybody. Sold everywhere.
The genuine FOLEY'S HONEY AND TAR is in a yellow package. Refuse substitutes. Prepared only by Foley & Company, Chicago. SOLD BY ALL DRUGGISTS OF YALE.
