The pure food law has largely stopped the sale of adulterated spices, but such a law cannot stop the sale of poor goods. An apple is a "pure" apple, even if it is a gnarly, tough shrunken one. This is the same with spices. The most inferior kinds will pass inspection so long as not adulterated. What you want is carefully selected, full flavored spices—the best there is. We have them and they cost you no more than the inferior grades are commonly sold for. Try our

COMING TO YALE.

It is a great pleasure to announce the coming to our city of Drs. Babington & Thomas, the Detroit expert Specialists, whose reputation stands second to none in this country in the curing of chronic diseases.

They are the originators of many of the leading methods now used in the treatment of Chronic Nerve, Blood, Skin and Catarrhal diseases of men, women and children, and have been the means of curing hundreds of people during their years of practice in Detroit.

Patients will be able to consult with these eminent gentlemen free of charge on the day of their visit here, and after making a thorough examination of your case they will, without a penny's cost to you, point out just what you should do and further they will advise you the proper mode of living and diet, then by following their instructions and treatment you can be permanently cured and able to enjoy good health.

They will be at Paisley Hotel on Aug. 27th, and as many have already arranged to meet them, they would like to have those who come for consultation call as early in the day as possible that they may be able to give you all the time and attention necessary.
Consultation and examination is absolutely free to those who call during this visit.
