FARMERS PLAN

SAY THEY WILL CUT THE STATE FAIR IF DETROITERS ARGUE FOR RECIPROCITY.

FARMERS MAKE STRONG FIGHT AGAINST THE MEASURE.

P. Hull, Master of Michigan Grange, Ex-Gov. Warner, Dr. Snyder and Others Spoke Against Reciprocity.

The Michigan state fair has been dragged into the Canadian reciprocity issue by the Wolverine farmers who are in Washington to fight the measure, and it it said that, should a delegation come from Detroit to fight for reciprocity, the farmers of the state will retaliate by avoiding the state fair in Detroit next September.

President Snyder of the Michigan Agricultural college declares his doubt of any very strong pro-reci-procity argument from Detroiters. Detroit needs the farmers, the college president insists, but the farm-er can get along without Detroit, as other cities in Michigan can supply the farmer's needs. Other members of the farmer delegation take the same view, and they talk of reprisals against the Michigan metropolis if it takes what the farmers believe is a "selfish stand for its own supposed gain against the interests of the rural districts.'

A Buffalo delegation of 100 is in Washington urging reciprocity and the Michigan grangers are raising the cry that the Bisons came at the

brewers' instigation. "It's a move to get free barley from Canada," is the talk. "The brewers want to get cheaper material.'

N. P. Hull, master of the Michigan Grange, declares he has no knowledge of such a move in Detroit, but the point is made that Canadian reciprocity will put cereals in the free list. With the liquor interests versus the "drys" drawn into the reciprocity fight the contest is admitted here to take on new angles.

On the other side of the argument Senator Stone sprung a sensation while the Michigan farmers were before the senate committee, by asking that a subpena be issued compelling the appearance of the law firm of Allen & Graham of New York, and directing it to produce all the anti-reciprocity literature it has printed or writtei

Mr. Hull declared the firm was employed by the grangers, and a stormy argument ensued. Stone remarked that if nothing was the matter there ought to be no objection to the lawvers coming and Hull said he not only had no objection, but would have the lawyers come without a subpena.

Editor Waterbury of the Michigan Farmers said the farmer never has had the real benefit of protection because production exceeded demand, but the time is near when this condition will cease and the farmer can get higher prices unless reciprocity

M. J. Lawrence, publisher of the way in No. 1 shaft, Michigan Farmer, ex-Gov. Warner, Dr. Snyder and C. E. Bassett also spoke against reciprocity

State Officers After Delinquent Peddiers.

Hawkers and peddlers who are operating in the state, will soon have to pay the state license or pay a John C. There is an unusually large demand this year on the state domain commission from all parts of the state for seedlings to be used in reforestation purposes. Trees planted now will require attention for a number of years, but the start which has been made causes hope that at least some of the plants receiving attention will continue to be cared for and a continuation of the propaganda of education as to the value of forestry and the beneficent results to be obtained will, it is believed, heighten the in terest and assure further effort. FLAMES RAGING ALL AROUND LAKE SUPERIOR AND IN THE NORTHWEST.

VESSELS ON LAKES COMPELLED TO ANCHOR-SMOKE.

Bridges Destroyed, Telegraph Lines Leveled and Homesteads Are Wiped Out in the Canadian Northwest.

Forest fires surround the entire copper country and the forest rangers of the Northern Forest Protective association, a new organization, were sent out for first time from Ontonagon. In Ontonagon there is a continuous stretch of fire from Lake Superior to Channing, 90 miles. At Chassel, headquarters of the Worcester Lumber Co., the entire village has been out fighting fires since Sunday morning, keeping the flames away from the village.

State Game, Fish and Forestry Warden Pierce believes that forest fires raging in the upper peninsula, and in some sections of the northern part of the lower peninsula, are caused for the most part by farmers clearing land who do not take pre

A report from a deputy in Alcona gives the information that several farm homes have been destroyed in that county, but a further spread of fires has been checked by the timely arrival of rain. The present damage to the state and private property owners cannot be estimated, owing to the meager reports received, but it is known that thousands of dollars worth of timber has been destroyed aside from the loss of other property.
At L'Ansé, the John Moran Lumber

lost a large quantity of cordwood which was piled in the woods. At Otter Lake, a farming district in the southern portion of Houghton county, the farmers are in danger. It was reported that a farmer had been burned with his entire family. The Worcester Lumber Co. sent a rescue party to Otter Lake.

The forest fires are burning in hundreds of places on all sides of Lake Superior. The property loss already has been great. Vessels on Lake Superior are forced to anchor when near land, because of the clouds of smoke.

Great forest fires are still raging through northern Manitoba and Saskatchewan, and scores of small towns along the line of the Canadian North ern railway are in danger. Hundreds of men are fighting the flames. Fires are burning fiercely at Swan river, Dauphin, and at the foot of the Riding mountains, Many settlers have lost everything, bridges have been destroyed and miles of telegraph poles burned down. The situation in be Prince Albert district is grave. Fires on the Minnesota-Ontario border are gaining ground and threatening a number of settlements.

Grave. The last wish of Casey Van Lieren, of Luther, who shot his wife, son and daughter and took his own life, that he be buried with the victims in one grave, was complied with.
