

Colds and Coughs

Stop Them When They Start.

It is impossible to estimate the results of a cold if it is allowed to run its course. Neglected colds may cause serious complications that often times result in fatal diseases. Don't consider a cold a trifling matter. Treat it now. Don't waste time with narcotic mixtures. Get a bottle of

Ham

Honesty

YOU wouldn't give a child a bottle of poison to play with. Yet when you let a child eat ham that is unreliable you run about the same risk. Some ham, as you very well know, is not fit to eat. It's not properly cured, and it's kept from rotting by poisonous preservatives barred by the pure food law. It is your duty to buy ham only where you know you'll get the real article. This is most important. Buy here.

Will Move To California

Mr. and Mrs. Harry Waterman expect to leave in a few days for San Diego, California where it is their intention to make their future permanent home. The removal perhaps no other family in the village would occasion so much genuine regret. For nearly 50 years in this village the name of Waterman has stood for everything that was best for Peck. For about 40 years he and his father before him were the leading merchants in the village and the people here had come to look upon the Waterman store and the name of Waterman as friends that grew closer together as the years passed. About 4 years ago Mr. Waterman's health failed and a year ago he sold his mercantile business and has since been living a retired life which he was amply able to do. The Times joins his hundreds of friends in Sanilac county in wishing him health and every other good thing in California and hope he will improve so rapidly that he and his family may soon again return to Peck where they are friends to everybody and everybody is their friend.—Sanilac County Times, Peck.
