WE'RE live wire butchers. We help you save time.

If you have a phone use it to order your meat supplies. You'll find we are exact on this end of the wire.

Phone orders are carefully received and as carefully put up as though you stood right by us.

Some butchers don't want to be bothered with orders over the wire. They say it's too much trouble, and mistakes occur too often.

But you heard us say we're live wires, didn't you!

More than 10% of all Cement Used in the United States is

Consider these facts about the National Cement: Starting in 1898 with one mill having a yearly capacity of 250,000 barrels of Lehigh Cement, we have grown to the extent of twelve mills located throughout the country for quick distribution to our customers, capable of producing over 12,000,000 barrels annually.

250,000 BARRELS 1898	7,064,000 BARRELS 1906	OVER 12,000,000 BARRELS CAPACITY 1915
----------------------	------------------------	---------------------------------------

This is the Cement age—in the United States yearly the consumption is ONE BARREL FOR EVERY PERSON—cement is used everywhere—for every conceivable purpose.

Cement has made possible the world's greatest engineering triumphs—canals—dams—irrigation projects—subways, etc. It enters into the construction of our homes—factories—public buildings—garages—streets—roads—sidewalks—bridges—railroads—piers—etc. The farmer uses it for barns—floors—silos—cisterns—water troughs—fence posts—etc.

Cement makes possible fire-proof concrete construction and will last forever. Directly or indirectly every person in the United States uses cement. You should know of the adaptability of cement construction. You should know about Lehigh and the reasons which make it the National Cement. WHY 10% of all the cement used in the United States is LEHIGH, the remaining nine-tenths being manufactured by over one hundred other companies?
