THE SENIOR'S CHANT

Round about the cauldron go; Mathematics we must know; Let x equal the cold stone, When will y be thirty-one?

Drop that in the mystic pan; Tell me, pray, how old is man? Double, double, boil and bubble, Mathematics make us trouble.

Pile of a fenny snake, In the cauldron boil and bake. Eye of newt and toe of frog, Wool of bat and tongue of dog, Biology makes 'em out and jab, Thirteen hours a week in lab.

Latin, Greek and German, too, Fifty pages make a stew.

And to thicken up the mystery, Take two chapters English History, Physics, French or English Lit, Spend an hour on each or git.

All night long from six to three, Study math and chemistry, In the hours when you should dream Write an English 12-page theme.

Work at night and Sunday, too, Outside reading you must do, Next day, when you're on the bunk, Teacher springs exam—you fink.

Double, double, boil and bubble, Senior's life is full of trouble; Cool it with a Freshman's blood, Then the charm is fresh and good.

By the pricking of my thumbs, Something wicked this way comes.

CONGRESSMAN CRAMTON SHOULD BE RENOMINATED

Our Present Representative Has Certainly Made Good, for Which Reason the People are Behind Him and He Will Be Returned

With more credit to their local pride than to their political judgment Mt Clemens papers are urging Mayor Nank of that town as a candidate for congress.

Forget it, brethren. Congressman Cramton will be renominated and re-elected. He will be chosen the year to succeed himself in congress because he ought to be. He is a live wire, is always on the job and doing things, and the people of the district know it and appreciate it. He is independent of dictation from any source but quick to exert himself to serve the interests of the district or a constituent.

He is no trimmer and faces legislative questions without dodging.

He has made good on the job. In his first term he put this district once again on the map and in his second he is adding to his reputation.

He early identified himself in Congress with the Cummins-Borah element of progressive republicans and was one of the committee chosen to present to

the National Committee the proposed plan for reform of representation in National Conventions.

In his first term he was chosen by the Michigan delegation of Republicans in the house to represent them on the Republican National Congressional Campaign Committee and was appointed by Chairman Woods as Chairman of its Advisory Committee.

In the present Congress he has gained a place on the Committee on Public Lands, which committee reports to the house more legislation than any other committee of the house except one.

Whether the wets or drys are in a majority in this district is a question, but there are many who are opposed to National Prohibition who are not ready to support a candidate for congress simply because he is satisfactory to the wretches. The liquor interests in this state will have enough to do this year fighting state prohibition without trying to dictate the choice of congressmen and other candidates.

On every hand one hears praise of Cramton's work as congressman, and there is no reason why the influence of this district at Washington should be nullified by starting a new man.—St. Clair Republican, Jan. 27, 1916.

M. P. Church Re-opened

We are glad to report our church reopening as a success in every way. Even the rain did not hinder us from having a full house. Our church is certainly decorated in a way that pleases everyone, many remarking that it was more beautiful than when completed, ten years ago.

The choir rendered special anthems both morning and evening. Rev. E. L. Morrison and wife were present and sang several duets, which were appreciated by all.

Rev. Saxbee took for his theme in the morning the words of Solomon when he spoke of God filling the temple, "The Heaven of Heavens cannot contain thee, much less this house which we have built."

In the evening his theme was "The authority to become the sons of God."

Rev. Bragg gave a report of the expense which was over \$240 in cash, not saying anything about the many willing hands which donated their services in cleaning the old paint and plaster from the walls. There was money enough in the treasury to pay all indebtedness, but an appeal was made for funds and the people responded liberally, a sum being raised to the amount of \$136.00, which will be used in repairing the outside of the church in the spring.

In the evening one soul accepted the Lord, and special services were announced to continue until Thursday night.

Surely this was a day long to be remembered by our people.
