## SCHOOL OPENS TUESDAY

EVERYTHING IN READINESS AND PROSPECTS BRIGHT FOR BIG ATTENDANCE ON OPENING DAY.—BUT FEW NEW TEACHERS.

The Yale Public Schools will open for the year on Tuesday, the fifth of September.

The building is being thoroughly cleaned, the floors oiled and the whole put in first-class shape for business.

We have a class of about twenty of our own students to enter the high school. These together with the large number to enter from the outside will without doubt make the largest freshman class in the history of our high school.

We have just installed a new program clock which is one of the finest additions to our equipment which we have ever made. Practically all the schools in large cities are supplied with such a clock equipment and it is found to be a great addition to the efficiency of any school system. This clock and its accessories, which is a gift of our splendid graduating class of last June, has been installed at an expense of \$135. This class was the largest and in many respects the finest ever graduated from Yale High. We were and are especially proud of this class and as the classes to come enjoy the benefits of their splendid donation to the school, we are all bound to hold them in grateful remembrance.

We shall be delighted to show the clock and explain its operation to any and all of the friends of our schools. Come and see us.

There have not been many changes in our teaching force and we are looking forward to the best year in the history of the schools.

Eva Petit..... Kindergarten and Drawing

Our grade course of study has been thoroughly revised and several changes made which we feel very sure will greatly increase the efficiency of our grade work. Some few changes are being made in the text books where it was clear that old books were out of date. All books will be sold at the school house as usual on Tuesday afternoon.

I will be in my office at school building on both Friday and Saturday of this week to consult with parents and particularly new students in regard to their work for the year. Shall be glad to meet and welcome boys and girls who are planning to enter high school.

## SLEEPER NOMINATED

Returns Show Bad Axe Man An Easy Winner.—Cavanagh Is Defeated but Windsor and Vincent Win Out.

Tuesday was nearly a perfect day for the republican electors of Yale, and Brockway township, for, with the exception of Wm. Cavanagh for drain commissioner, every man who received a majority in these precincts was nominated. Sleeper was our choice for governor, and despite the weak, cheap opposition put up he has a handsome majority in this locality, and returns from the state indicate that he will have a plurality of about 12,000.

The many warm, personal friends of Steve Windsor in this, his home town, are much pleased over his handsome majority in the nomination for the office of sheriff of St. Clair county. He received the largest majority of any of the county candidates, and Hayland, who was championed by the minority in these parts, had to be satisfied with third position, being next to Robertson in a three-cornered fight. The splendid vote which Steve rolled up is just another piece of evidence which goes to prove that every knock is a boost.

But best of all, when the votes were all counted, Joe Vincent had "slid home" with enough votes to make him the republican nominee for county clerk.

If Cranton isn't satisfied with the way Yale and vicinity stood by him, we might suggest that someone make a motion that "the secretary be instructed to cast a ballot, etc." Spears was distanced in the first quarter. Mr. Cranton is the right man in the right place and the people of the Seventh district realize that he has more than a passing acquaintance (even in Washington) and they don't care a rap "who is Spears."

Out of a total of 272 votes cast on Primary Day in Yale, there were only five Democratic ballots cast.

On page five we publish the count as "she" was piled up in Yale.

### Rev. Bragg Goes to Adrian

It is with the deepest regret that we this week announce the removal from our city of Rev. Chas. Bragg and family, who leave on Thursday next for Adrian to make their future home. At the recent Conference of the M. P. church Rev. Bragg was appointed traveling evangelist for the state and has decided to make his headquarters in that city.

Rev. Bragg has had charge of the Yale and West Brockway appointments four years and in that time has endeared himself to every member of the churches. He is also highly respected by every citizen in Yale who is not affiliated with his church.

Mrs. Bragg will be greatly missed by the ladies of the church, among whom she was a general favorite, always ready and willing to do her share in any work that was for the good of the church. The family will be greatly missed by a host of friends, but all join in wishing them success in their new home.

In speaking of his successor Rev. Bragg says: "Rev. Crandall comes to Yale with a fine record as a strong pulpit man and an excellent pastor, with a successful ministry of seventeen years. His strong fort is sociability."

To the incoming pastor, Rev. F. L. Crandall, we extend the hand of welcome. We speak for all of our citizens in hoping that "you'll like Yale."

### Delegates to Dem. Convention.

The following delegates were named Tuesday to attend the Democratic county convention:—

First ward—R. E. Barr, Geo. Stableford and L. Hector.  
Second ward—Jas. Stirling, Wm. E. Barr and E. W. Farley.  
Third ward—Adrian Poppelwell, R. E. Andreae and Peter Gleason.

- Figures refer to the number of weeks a subject is taken.
- Senior reviews are given during the second semester, but no credit is given toward graduation.
- The requirements for graduation are—Credit in one four-year subject, two two-year subjects, and enough additional work to make in all the equivalent of fifteen one-year subjects.
- The requirements for admission to the University of Michigan are fifteen one-year subjects of which the following must be offered: Three years of English, two years of a foreign language, one year of Algebra and one year of one of the sciences—Physics, Chemistry, Botany or Zoology. They must embrace two subjects of three units each.
- Two years of Mathematics and one of Physics will count as a Three-year subject, and three years of Mathematics and one of Physics will count as a four year subject.
- All students must take three years of English and do the prescribed rhetorical work.
- While it will be seen from the above that our course of study as now offered gives considerable liberty in the choice of subjects to be pursued, it is understood that all students are to consult the superintendent before classification and be guided by him in the selection of work.
