HERE AND THERE

Almont has a traffic officer.
Marlette's clean-up day is April 30.
Vassar will have a company of Home Guards.
Slot machines and punch boards were removed from Almont business places last week.

Dr. W. W. Wiers, of Marlette, will move to Royal Oak and take up the practice of his profession.
Dredging operations have begun on the "stoffer drain," which is located a few miles north and east of Capae.

A site has been purchased and a cannery factory will be built in Richmond in time for this season's crops.

A new oil station, with two large steel tanks, each holding 20,000 gallons, has just been completed at Minden City.

Mary Hough, principal of the Almont school, has been offered a government position at Washington. She has accepted.

The Borden condensary at Sandusky has purchased the interests of the Hire's Condensed Milk Co. at Decker-ville.

The Loughlin school, of Maple Valley, and the Melvin school are two more in Sanilac county to be recently standardized.

Charles Little, of Elkton, owns four black foxes which he says are worth \$1,000 apiece. He sold a pair last winter for \$492.

The new Henry Stephens Memorial library at Almont will soon be completed. Its librarian is Mrs. Mattie Johnson.

Prof. P. M. Keen, superintendent of the St. Clair schools, has resigned and O. M. Misenar, of Northville, will succeed him.

Howard Foster, of Peck, purchased \$500 worth of Thrift Stamps from the postmaster there recently, and it is said to be the biggest buy in Sanilac county.

A two days' carnival, held at North Branch last week as a Red Cross benefit, was a popular and successful affair, the handsome sum of \$630.00 being taken in.

On Monday, April 23, the new Borden Condensed Milk Co. at Sandusky, will hold open house and the public is invited to visit the plant, which is not yet in operation, but there will be plenty of interest to see.

The home of William Read, near Deckerville, burned to the ground last week, and an eight months old child so badly burned that it died shortly after. The mother was also burned seriously but not fatally while rescuing her child.

The Congregational church at Richmond has been thoroughly remodelled, re-decorated and transformed and while in the changing, its people have been worshipping with the Methodists. Last Sunday when the church was re-opened the Methodists united with the Congregationalists in praise and worship service.

Sanilac county experienced three fires last week. Thomas Levitt, of Buel township, lost his barn with 23 tons of pressed hay, 3 cows, 3 horses and implements. It is thought children set the fire. The origin of the fire on the Burt Mortimore farm is a mystery. Here the barn was burned with 45 tons of pressed hay, 3 horses, 6 cows and 500 bushels of oats. Children again played a part on the farm of Samuel Morlock when they set his barn on fire, causing a loss of \$3,000.

What Yale Wants To Know

The Answer Is Found In The Statement Of A Yale Resident

From week to week, from year to year, there have been appearing in these columns statements made by neighbors, which we have all read with great interest and many of us with great profit. But what we want to know is, do they stand the greatest test of all--the test of time? Here is conclusive evidence on this point from a Yale woman.

Mrs. Robert Herron, Mary St., Yale, says: "I suffered everything from my back. It was hard for me to stoop and I couldn't stand erect for any length of time without having sharp pains thru my loins. My head was dizzy and pained a great deal. Two boxes of Doan's Kidney Pills put me in good health."

A LASTING CURE
Over two years later Mrs. Herron said: "Doan's Kidney Pills gave me a permanent cure."

Price 60c at all dealers. Don't simply reach for a kidney remedy--get Doan's Kidney Pills--the same that Mrs. Herron has twice publicly recommended. Foster-Milburn Co., Props, Buffalo, N. Y.

AGRICULTURAL NOTES

C. L. Brody, St. Clair county agent from Delaware after an absence of two weeks. The U. S. Government invited three county agents from each state needing corn to go to Delaware and purchase it. He says that a very good grade of corn has been secured and it is his belief that it will easily ripen here. The corn tests on the average 90 per cent and will cost about \$5 per bushel at Detroit. It will be a mixture of Early Dent, Medium Early Dent and Flinty Dent. Orders for this corn are being taken the County Agricultural office. Any farmer wanting some of this corn should place his order early.

The Lake Port Junior Farmer's Club with a membership of ten boys and girls has begun its season's hatching of pure bred eggs. Six settings of pure bred leghorn eggs were ordered from the Michigan Agricultural College. These eggs are from a two-hundred egg strain and are furnished at \$1.50 a setting. Each member is required to hatch three settings of pure bred eggs and raise the chicks to maturity. A complete record of all operations must be kept. The success of this club is largely due to the active cooperation of Arthur Wilson, its local leader.

Much credit is due Mr. G. H. Fowler of Goodells for the success of the food demonstration and meeting held at his store last Saturday. In the afternoon a large number of women of the community availed themselves of the opportunity to hear Miss Waldron's talk and demonstration on the subject of "Wheat Substitutes" and her suggestions as to methods of using barley corn flour, and oat meal were especially well received as these materials are most plentiful just now.

The evening meeting was fairly well attended in spite of the rain and all present much enjoyed the inspiring talk given by A. E. Stevenson. He dwelt chiefly on the importance of food conservation and made his audience feel that each one present had a personal responsibility in helping to win the war.

Miss Waldron outlined the various ways by which the housewife of America could meet the situation confronting them, and spoke briefly again on the use of the substitutes. A raising vote of thanks to Mr. Stevenson, Miss Waldron and Mr. Fowler closed the meeting.

During the coming week Miss Waldron is to hold demonstrations of wheat substitutes at the Odd Fellow's Hall, Port Huron North End on Tuesday and at the St. Clair town hall on Wednesday. She will also give a sugar saving demonstration at the home of Mrs. Ed. Palmer of South Park and will speak on the use of the substitutes at the Union Farmer's Club meeting in Yale on Thursday.
