### He Was Slow.

He fell! True, it was a moment of overwhelming temptation — her upturned face, with rosy lips pursed. But still, as he crept sorrowfully away, he told himself that he had been a cad to steal that kiss. But even now he could see the sudden tears in her eyes.

His broken apology still rang in the little room where the girl lay sobbing on the couch.

"It's awful," she sobbed. "To think he should have kissed me at last and — and then said he meant nothing by it! What does he think I gave him the chance for, the idiot?" — Dallas News.

**Worse Than the Lover.**

"What is worse," demanded the lovely girl, disgustedly, "than a man who will make love to you, in spite of all you can do?"

It seemed to demand a reply, so the other lovely girl said:

"One who won't."

### S. O. S.

If Constipated, Bilious or Headachy, take "Cascarets"

Sick headache, biliousness, coated tongue, or sour, gassy stomach — always trace this to torpid liver; delayed, fermenting food in the bowels.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood.

When this poison reaches the delicate brain tissues it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep. — Adv.

### THEY TURNED AWAY DAZEDLY

Young Couple in Search of an Apartment Run into Unusual Landlord.

They were swapping yarns at the Athletic club the other night and Frank Garbutt told this one, though he doesn't vouch for its veracity.

"The young husband touched the landlord's doorknob timidly and his wife just as timidly sought his hand, when the door banged open and a fierce, bewiskered man confronted them.

"I have you an apartment to rent?" piped the young husband.

"Have you any children?" roared the landlord, running a shrewd hand through his whiskers.

"No," replied the young husband, promptly.

"Any dogs?" blared the landlord.

"Not a one," chirped the young wife.

"Well, then," said the landlord triumphantly, "you can't get in here. We never rent apartments to people who haven't children or dogs."

The door slammed in their faces and they turned away dazedly.

## Honest Advertising.

THIS is a topic we all hear now-a-days because so many people are inclined to exaggerate. Yet has any physician told you that we claimed unreasonable remedial properties for Fletcher's Castoria? Just ask them. We won't answer it ourselves, we know what the answer will be.

That it has all the virtues to-day that was claimed for it in its early days is to be found in its increased use, the recommendation by prominent physicians, and our assurance that its standard will be maintained.

Imitations are to be found in some stores and only because of the Castoria that Mr. Fletcher created. But it is not the genuine Castoria that Mr. Fletcher honestly advertised, honestly placed before the public and from which he honestly expects to receive his reward.

## Children Cry For

### Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your ailing child anything but a medicine especially prepared for infants and children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.
