## What Some Folks Believe

The days of hard work are over. Nobody will work much in the future. Play will be the big thing in life. Three or four hours a day of work, and taking it pretty easy at that. Crops will just grow of their own sweet will. Shoes will come out of the mill just like that! Houses will grow on bushes and machines will make themselves. But wages will be high. Oh, yes, indeed! All the money one wants to spend. No need to save any, for all one will have to do when he wants more will be to get a scoop and shovel it up. Just press a button and a new suit of clothes climbs up your back, or a new fur coat snuggles itself around your wife's shoulders. Press another button and dishes come laden with food, and then rush back to the kitchen to wash themselves. There will be padded cells and straight-jackets for the foolish nuts who insist upon doing "hard work."

## TO A FIVE-DOLLAR BILL

Crinkle, crinkle, little bill; Goodness gracious, you look ill! Are you losing all your power? You seem weaker hour by hour. "Now that prices are so high, I'm so tired I could die, I just circulate all day; No one dares put me away. "When the evening board is set With the fruits of father's sweat, My small voice is hushed and still— I am in the butcher's till. "And no matter where I go, People disregard me so; I don't seem to count for much. "Amongst the profiteers and such," Bill, take heart, your luck may change, I'll admit the times are strange, Tho' you're weak, I love you still— Crinkle, crinkle, little bill. —Chicago Tribune.

# ..Cancelled Checks..

Often we are called on to produce cancelled checks which settle an account in dispute.

There is no arguing about the evidence—the check—its amount, endorsement and date are final.

Is it not strange that there are still some people who do not apply this insurance against double payment to their own personal bills? And it does not cost anything, either.
