Sugar Sugar Sugar

It's high, yes it's very high—28c is quite a price, but we must keep sweet at any cost. Our policy is this. At the high price we positively cannot afford to tie up money enough to fill our warehouse as a protection against canning season demands. Every person must protect their own canning supply. We have been buying all the sugar we could buy from everyone who had it to sell. At present we have a few hundred pounds to sell in as large quantities as you wish it. If taken off our hands quickly we will keep trying to get more, but money is limited and although we would like to do so we cannot lay in an amount to guarantee you all you want in canning season. Predictions are that it will be very scarce. We urge everyone to get a supply ahead as quickly as possible.
