THE UNIVERSAL CAR

Out of the more than 3,000,000 Ford cars now in use, about sixty percent have been sold to farmers. Probably no other one thing has brought to the farm so much of comfort and profit as has the Ford car. It has enlarged the social life, doubled the facilities for marketing, brought the town next door to the farm, multiplied for the farmer the pleasures of living. A family car without an equal in low cost of operation and maintenance. We solicit your order for one now because the demand is large and continually increasing.

## How to Lower Your Meat Bills

Hints From the Department of Justice

### A MESSAGE FROM THE STATE FAIR PRICE COMMISSION TO THE HOUSEWIVES OF THIS STATE.

The women of this state could materially reduce the cost of their food by purchasing the less expensive cuts of meat. These cuts are cheap only in the sense that the price is lower. They are nutritious and, when properly prepared, are highly palatable. Some of the less expensive meat contains higher nutritive value than the most costly portions. But the cheaper cuts are sadly neglected because of lack of information as to their merit and their preparation. As a consequence, the demand for meats at retail is highly uneven. This makes merchandising more expensive and adds to the cost of living. The Fair Price Commission purposes to disseminate information about the cheaper cuts which, turned to account by consumers, will help to reduce meat bills.

FAIR PRICE COMMISSION.

### BUY FORE-QUARTER BEEF AND SAVE MONEY.

The fair price commission declares that if consumers will buy more fore-quarter beef—whence come less expensive cuts—they will save money. Here is something which the United States department of agriculture recently said on the subject:

"Because of its reputation as the choicest cut, the people ask for porterhouse steak, whereas if they would try a chuck steak, the chances are it would prove to be satisfactory and it would cost much less. The reputation of porterhouse steak with the consequent large demand for it, coupled with the fact that this cut forms only a very small per cent of the carcass, causes it to sell at a higher price than any other cut."

"If people in general could realize the value of meat from the fore-quarter as compared with that from the hind-quarter and would use more of it, prices of meat as a whole would be greatly reduced and would be more stable."

"An abnormal demand for any commodity forces up the price and this condition applies to porterhouse steak or other choice cuts. People should use more fore-quarter meats and reduce prices of living. Any of the fore-quarter meat is good for making meat loaves or Liberty steak, while in some markets, steaks are cut from the rib and sell as short cut steaks."

The department of agriculture shows plainly how expensive it is to discriminate against the fore-quarter beef:

"The average consumer seldom realizes the difference in the selling price

of beef taken from the hind-quarters and that cut from the fore-quarters, and if he is aware of it he very likely does not understand the reason therefor. The wholesale prices on hind and fore-quarters of beef are based on a differential of so much over carcass price for hind-quarters and so much under carcass price for fore-quarters. It is seldom that fore-quarters ever sell as high or that hind-quarters sell as low as carcass prices. The average differential is usually 2 cents over on hinds and 2 cents under on fore-quarter. At present, the differentials are greater, both over and under.

"The differential is changed according to the market."

This is just the time of year for persons with porterhouse habits to get acquainted with beef from the fore-quarter. Such meat is used largely for roasts and steaks. On this account it requires more heat for cooking. In cold weather, when it is necessary to heat the house for personal comfort, there is a double reason for using fore-quarter beef.

#### Neck Meat of Beef Loaf.

2 lb neck meat of beef, ground.  
1/2 lb lean pork, ground.  
1 egg.  
1 green pepper, chopped fine.  
2 cupfuls bread crumbs.  
Liquid to moisten.  
3 slices of bacon.

Mix the beef, pork, egg, bread crumbs and seasonings with sufficient milk or water to form into loaf. Arrange strips of bacon on top. Bake in loaf or in casserole in a moderate oven for two hours. Cover if necessary to prevent the top from becoming too hard and dry.

## GOOD WILL ONLY DIVIDENDS FROM SALVATION STORE

A RELIEF SUPPLY DEPOT

MENDING GARMENTS

No; the Salvation Army has not gone into the wholesale grocery business. The picture shows merely one of the Army's relief stations. It is just like scores of others scattered through the cities and towns of the country at strategic points where quick relief can be given in emergency cases.

Not limited in their stock to groceries only, these Salvation Army relief depots carry clothing, underwear and other necessities for men, women and children. It is the aim to have at hand for immediate distribution food and clothing for any kind of a case of need. More than 100,000 destitute persons were served temporary relief from these stations last year.

And Salvation Army relief depots. It is systematic as well as sensible. The industrial department gears neatly with the relief department. In the industrial homes the broken down

reliefs of humanity are put to work rejuvenating broken down household goods—chairs, tables, beds, benches—and shoes and other wearing apparel.

It is a 50-50 proposition, for the down-and-outers are reviving their faith in themselves and in God at the same time they are repairing the furniture and other articles. They get back, too, their courage. The Salvationists tonic them up with honest encouragement and sympathy. They go back into industry, valuable to themselves and to the nation.

What becomes of the remade furniture? Families in distress obtain it at the Salvation Army relief department. Because the relief work dovetails with the industrial department the Salvation Army is able to supply impoverished families with household goods at absurdly low prices or without any charge at all, according to the circumstances.

Regularly retailed up to \$60.00

Regularly retailed up to \$80.00

Mr. Higer has just returned from Chicago with 500 Men's and Young Men's double service suits. Double service means more than the average suit, it is made to wear twice as long because the cloth has undergone a special process which makes it stand twice the wear.

Delays in the arrival of the woollens—due to freight congestion—brought about this unusual situation. The Suits couldn't be delivered in time to outside points, so Society Brand turned to us, their largest distributor for immediate disposal. We grasped the opportunity at a surprising price concession, and here they are—Suits that will find a welcome place in the wardrobe of the most discriminating dressers.
