

## Now the whole family can go out on a Summer evening

**T**HE women should certainly be thankful for the automobile. It has given them a chance to see a lot more of their husbands.

II

But it has done a great deal more than that.

It has brought people closer together, given them new interests, swept away old prejudices.

What affects one man now generally affects a good many of his neighbors in the same way. And they have a better chance to get together and talk things over.

III

It's had its effect on the tire business.

When automobiles were new people were willing to buy any kind of a tire. Now

they're beginning to insist on *knowing what they are getting.*

And the more they insist, the better it will be for us.

IV

*We want our customers to know what they are getting.*

That's why we represent U. S. Tires—so there will be *no doubt* about it.

Whatever the size of your car, you know that the U. S. Tire you put on it is the *best kind of tire* its makers know how to make.

U. S. Tires are guaranteed for life, *without any limitation* of mileage.

That ought to mean something to the man who has thought about tires.
