Bert Jackson, says: "I can con-  
scientiously say that during the  
last ten years I have used Doan's  
Kidney Pills occasionally with the  
greatest of relief. Sometimes my  
back ached so much I thought it  
would break, and then again,  
sharp biting pains would catch  
me, making me wince with pain.  
The kidney secretions were scanty  
and irregular in passage. By us-  
ing Doan's Kidney Pills at these  
times I have always been benefi-  
ted. Doan's have removed that  
aching and pain in my back, put  
my kidneys in good shape and  
made it possible for me to do more  
work."

J. B. Weymouth was in Detroit  
last Friday on business.

Maurice Merrill was home from  
Ann Arbor over Sunday.

We are now having some real  
winter weather—snow and cold.

Get your Christmas presents at  
the bazaar, M. E. church base-  
ment Saturday.

Seniors and Juniors held a very  
pleasant party in the Auditorium  
last Friday evening.

George Tenniswood and wife  
have gone to Clare to spend the  
winter with their son.

Albert E. Stevenson, supervi-  
sor of Kimball township, well  
known throughout the county as  
a breeder of registered short-  
horns, was attacked by an angry  
steer, while he was at the farm of  
his brother, E. G. Stevenson, near  
Amherstburg, last week, oversee-  
ing the dehorning of some cattle.  
One of the steer's horns inflicted  
some bad wounds on Mr. Stev-  
enson's face, and he was other-  
wise bruised by being thrown  
some distance.

The Thanksgiving chicken sup-  
per given by the ladies of the  
Melvin Baptist church in the pa-  
sonage Friday evening last was  
largely attended. Needlework and  
art goods were sold in the bazaar  
department. After the supper the  
Young People's S. S. class put on  
a November humoresque entitled  
"Three Thanksgivings," in the  
church. Mrs. Lansing U. Groat  
gave two readings and Rev. Lind-  
say, of Sandusky, talked on the  
subject of "Confederated Church-  
es." Proceeds of the evening were  
\$105.10.

A bunch of Yale huntmen au-  
toed to the Hadley hills near Leon-  
ard, in Lapeer county Monday  
morning. A bunch of thorough-  
bred fox hounds were taken  
along, and it was no time before  
the dogs were giving tongue on  
fresh tracks. Excitement ran  
high for a time until the fox led  
the dogs on a straight away chase.  
The huntmen returned home in  
the evening tired and hungry,  
without any pelts hanging to their  
belts, although they claim that the  
enjoyment of the day was worth  
while. They expect to make the  
trip again in the near future, as  
nearly a thousand tracks made by  
about 250 foxes were left on the  
hills.

### WARRANTS ISSUED FOR DOG OWNERS

Warrants are being issued for  
the arrest of 91 dog owners in  
St. Clair county charging them  
with having failed to pay the  
county license on the canines  
which is exacted by the state.  
County Treasurer Alex Cowan  
has already collected a large sum  
from owners of dogs for county  
licenses, but in many instances  
owners of canines who have been  
notified to pay the license fee  
have failed to do so. An act of  
the state legislature makes it  
compulsory for owners of canines  
to secure licenses for them.

### Catholics Appeal for Aid Against School Amendment

Detroit, Nov. 27—An appeal to  
Detroit Jews to aid Catholics of  
the state in their fight against  
any renewed effort to put thru  
the parochial school amendment  
was made here Sunday night by  
Rt. Rev. Michael J. Gallagher,  
bishop of the Detroit diocese.  
Bishop Gallagher addressed 600  
members of Pisgah lodge of B'Nai  
B'Rith. The proposed amend-  
ment, the bishop said was "a vi-  
olent denial of the inalienable  
rights guaranteed by the consti-  
tution" and would constitute "an  
American form of the Prussianism  
which America was determined to  
destroy when this country joined  
the World war."

USE MORE REGISTERED SIRES

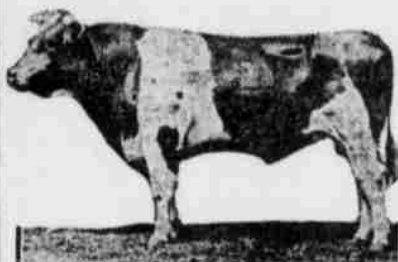

Notable Progress if Reported in Move-  
ment to Replace Scrub Bulls  
With Purebreds.

(Prepared by the United States Department  
of Agriculture.)

There is every reason to believe that  
the replacement of scrub and grade  
sires by purebreds is on the increase.  
Reports received by the United States  
Department of Agriculture from coun-  
ty agents in various parts of the coun-  
try show that the "Better Sires—Bet-  
ter Stock" movement is having a  
noticeable effect. A recent statement  
by M. G. Lewis, county agent of  
Rockbridge county, Va., is typical of a  
large number.

"The purebred bull movement,"  
says Mr. Lewis, "is progressing rap-  
idly. Since January 1, 16 farmers have  
disposed of grade or scrub bulls and  
are using registered bulls instead. On  
the other hand, there are no less than  
50 men in the county who still persist  
in holding out against the progress  
and development of the live stock in-  
terests of the county by keeping in-  
ferior grade or scrub bulls. I have a  
list of 56 owners of such bulls. Some  
of these men have grades that are  
fairly good individuals, while others  
have scrubs that are the worst kind  
of a disgrace to the community and  
to the county.

"The cost of a good registered bull  
is so small now that it is a mystery  
why any farmer will keep anything

Better Dairying Results Where Sires  
Like This Are Used.

else. Many records have been kept  
during the last few years to prove  
out the actual value of a purebred  
bull in dollars and cents."

Some of these actual figures were  
obtained recently by the Department  
of Agriculture through an inquiry  
sent out to more than 500 farmers  
throughout the United States. These  
men gave it as their opinion that in  
all kinds of farm stock purebreds have  
an earning power more than 40 per  
cent better than common stock. It is  
noteworthy that in the case of dairy  
cattle, whose productive power can be  
easily measured, purebreds were con-  
sidered to be 47.8 per cent better than  
common cows. The lowest percentage  
given for any kind of stock was 36.8  
per cent.

### FLIES DECREASE MILK YIELD

Spraying Furnishes Means of Reliev-  
ing Cow For the Time and Saves  
Temper of Milker.

The irritation of cows caused by  
flies not only lessens the milk pro-  
duced, but, due to the restlessness of  
the cows, is a frequent cause of in-  
efficient milking.

The fly spray furnishes a means of  
relieving the cow for a time at least  
and of saving the temper of the mil-  
kers. The following fly repellent mix-  
ture is recommended:

Four and one-half quarts of coal tar  
oil, 4½ quarts of fish oil, 3 quarts of  
whale oil, 1½ quarts of oil of tar and  
½ ounce of oil of pennyroyal. Dis-  
solve 3 pounds of laundry soap in  
water, add the ingredients of the spray  
and bring the whole up to 30 gallons  
with lukewarm water.

This quantity will spray 40 cows  
twice a day for 10 days. The spray  
should be applied in the morning after  
milking and in the afternoon when the  
cows are in the barn for silage or  
green feed.

### RELIABLE SOURCE OF PROFIT

Dairy Cow is More Dependable Than  
Beef Steer Because Her Pro-  
ducts Are Steady.

The dairy cow is a more depend-  
able source of profit than the beef  
steer, because her products are but  
slightly affected by market fluctua-  
tions and because she is a contin-  
uous source of revenue, for the cream  
or milk checks come in at frequent in-  
tervals. Then, too, there is an in-  
creasing demand for dairy products  
and for grade and purebred dairy  
cattle.

Most Profitable Cow.  
One good cow is more profitable than  
several poor ones.

Sterilize Milk Utensils.  
For the proper sterilization of dairy  
utensils an abundance of steam or hot  
water is needed. Immerse them in  
boiling water for two minutes, or put  
them in a tight closet and thoroughly  
sterilize with steam for thirty min-  
utes.

Way to Improve Dairy.  
Replacing the low-producing cows  
with better ones and later with pure-  
breds is only one of the ways in which  
a dairy improvement association helps  
a community.
