JUBILEE AT NORMAL

The Enrollment Reaches One Hundred and the Event is the Occasion of a Pleasant Celebration.

Program of Speeches and Music Rendered Reception to Huron College Students.

A PLEASANT EVENING.

The celebration Friday evening at the Northern Normal and Industrial School was a very pleasant event in the history of that institution. The affair was quite impromptu. President Koehler stated that the faculty and students had determined that when the 100th student was enrolled they would have a little celebration of the event. The hall was soon filled to its limit. The large folding doors of the adjoining room were thrown open and it also was pretty well filled, so that the speakers were greeted by a decidedly fine audience.

President Koehler opened the exercises by saying that it was no small thing to plant an institution of learning, and that thing having been done in this city it was surely cause for congratulation. He then called upon the mandolin club for a selection. This club is a very creditable organization and will be a very pleasant feature of all the school entertainments. The members of the club are:

- Prof. F. W. Smith, mandolin.
- Nunnadell Smith, " "
- Harriet Cornelle, " "
- Louise Belber, " "
- Leslie Gage, violin.
- Calla Smith, guitar.
- Altha Montague, " "
- Roy Dennison, " "
- Benj. Bolton, " "
- Miss Hagard, piano.

Senator Lawson, Judge Hauser and Rev. Mr. Montague made brief but instructive speeches and very appropriate to the occasion. At the close of the exercises the mandolin club rendered another selection and were enthusiastically encored.

At the close of the entertainment the Huron college foot ball team were given a reception by the Normal students, which was a pleasant ending of an eventful day at the school. The 100th student enrolled was Arthur Davies of Aberdeen.

A NEW WAY AROUND THE WORLD.

From Paris to San Francisco with but one Change of Cars.

The Overland Limited and the Trans-Siberian Express.

Travel from the far east to London and other European points which has heretofore sailed from China, Manchuria, The Philippines and Japan through the Suez canal, is likely hereafter to follow the Royal Mail, which it has recently been demonstrated can be brought to London through San Francisco and across the United States three or four days more quickly than via the old route.

The traffic department of the Chicago and Northwestern Railway has advised that the Russian Ministry of the Interior has arranged with the International Sleeping Car Co. for a new sleeping car service on the Trans-Siberian Railway between Moscow and Port Arthur, to be weekly at first, tri-weekly later on, and eventually a Train-de-Luxe will be inaugurated between Warsaw and Port Arthur, leaving Warsaw daily. At Warsaw connection is made with the famous Express du Nord from Paris, Berlin and other European capitals.

Thus Port Arthur will be within easy reach of Paris, and from Port Arthur the journey is completed in fast vessels across the Pacific to San Francisco and on the New Overland Limited via the Southern Pacific, Union Pacific and Chicago and Northwestern Rys to Chicago.

Inter-Continental travel is thus practically established through what had until recently been supposed to be the wastes of Siberia; now proven to contain much rich farming country which is being rapidly settled. Such circling of the globe will be a delightful holiday besides which the present transatlantic journey takes on a very ordinary aspect.

The equipment for the Siberian Express is to be in control of the International Car Co., and the service will be of the highest character, now nearly approaching the American standard that is usual on the Continent.

Olwin Dry Goods Co.

Another Big Money-Saving Event

Special Half Price Clearing Sale of Ladies' Tailor-Made Suits

We have about fifty Suits, mostly one of a kind. Some were samples, all are numbers that we can get no more of—suits that we can take no special orders on.
