GERMAN PLOTS REVEALS CALLEUX'S PART

Interned Enemy Alien Gives Startling Testimony to New York Official Regarding Intrigue Against France.

NEW YORK, Oct. 29.—Starting disclosures regarding the alleged negotiations of Joseph Calleux, one-time premier of France, and Count von L. Luxemburg, former German minister to Argentina, tended to establish Calleux in power in Paris in 1915, and bring about a separate peace with Germany, have been made to Deputy State Attorney-General Becker, by Count James Minotto, interned enemy alien, the state official announced here.

The disposition of Minotto, who is a non-in-law of Louis Swift, of Chicago, has been forwarded to the French ambassador at Washington, Mr. Becker said, and a summary has been cabled to Paris by a fast steamship.

Minotto was brought here last week from Fort Oglethorpe, Ga., by special agents of the department for justice, acting upon the request of the deputy attorney-general, who was commissioned by the French government to investigate various phases of German intrigue in this country against France.

Count Minotto, Mr. Becker stated, exhibited decided anti-German sentiments during his interview and appeared anxious to give all information in his possession to the authorities.

Minotto, the official stated, though apparently not commissioned for that purpose by the French government, served as a go-between in the Calleux-Luxemburg conferences.

The Calleux statements with "intrigue tending to shake the solidarity of the allies and to bring about a premature and dishonorable peace with Germany."

His case is linked with those of Bolo Fasina, convicted of treason, and executed, and Louis J. Malvy, former minister of interior, who is alleged to have been the former premier's tool in the government. The Calleux conspiracy, it is alleged, proposed an alliance between France, Germany, Italy, and Spain against England and Russia.

THE AMERICAN ARMY NORTHWEST OF VERDUN, Oct. 29.

(By the Associated Press.)—The Germans have created a great reserve zone in the Lorraine through which civilians unless they have authorization may not pass. They also have transformed a part of Alsace into a great entrenched camp, in which carefully prepared defensive positions will make up for their lack in human material.

It is known that the Germans have expected a liaison attack by American and French troops against the German left wing and have been waiting for the allied troops would break through as they have done in other attacks during the past few months.

Their anxiety was shown in the following declaration printed by the Frankfort Gazette in a recent issue: "The situation has become noticeably difficult. It is most tense on our left wing from the strategic as well as the tactical point of view. One must regard with all seriousness the increasing gravity of the situation in the Vosges, because the entente has succeeded in obtaining considerable advantages in the center of the front. Scheidt and Cambrai could in their formidable attempts to pierce our line."

Early Monday American patrols established that the Beloeys farm, northeast of Grand Pre, had been deserted by the enemy but that it was well protected by a heavy flanking machine gun fire. It therefore remains in our hands.

The Americans in the Bourgogne wood now control the ridge extending from Talmes eastward to the southern part of the wood. The Germans yesterday infiltrated through the American machine guns and rifles. The enemy was soon discovered, however, and captured with artillery and machine guns and driven off. The Americans captured several of the enemy machine guns and turned them on the German left wing and have been waiting for the allied troops would break through as they have done in other attacks during the past few months.

"WAR STILL ON" SAYS HINDENBURG. German Leader Warns Troops to Hold Fast as Armistice Is Not Yet Concluded.

WITH THE AMERICAN ARMY NORTHWEST OF VERDUN, Oct. 29. (By the Associated Press.)—Hold fast, an armistice has not yet been concluded, the German general staff, headed by Field Marshal von Hindenburg, chief of the general staff, today ordered German troops in the hands of the Americans. The German commander's appeal reads: "German soldiers, be vigilant! The word 'armistice' is current in the trenches and camps, but we have not yet reached a point to which the word represents a certainty to others. It is even a synonym of the peace so long desired. They believe that events which were caused upon them, their endurance, as well as their spirit of defiance toward the enemy, are diminished."

"We have not yet reached our aim of a 'definitive' peace," he said. "The war is still on—the same war as before. Now, more than ever, you must be vigilant and hold fast. You are upon the enemy's soil and on the soil of the world. The world is watching you. In this grave hour the fatherland relies on you for its prosperity and for its safety."

THREE BRITISH TRAWLERS BATTLE FOUR U-BOATS. LONDON, Oct. 29. (British Wireless Service.)—Three British trawlers, although outnumbered by the enemy, recently fought four German submarines out but out of action by the U-boats.

According to account of the engagement published in the Times the American trawlers, the Eira and the Mollie, were patrolling near the North Sea fishing ground, when a submarine came into sight.

The attack opened fire on the submarine, and the submarine replied. Some three more submarines appeared, which were engaged upon them in attack on the trawlers, who kept up the unequal fight, despite the fact that they were grossly outnumbered.

The captain of the Nellie Naiton, finding his ship helpless, from a shot through the stern, steered toward a Dutch lugger, and abandoned his own vessel, which soon was lost. The captain saw the Eira in flames and the Mollie out of control and when he looked for her again soon afterward she was gone.

TWO GERMAN PLANES BAGGED BY YANKS

WITH THE AMERICAN ARMY NORTHWEST OF VERDUN, Oct. 29. (By the Associated Press.)—Two German airplanes were downed Sunday inside the German lines by American soldiers.

Lieut. Samuel Colton, of Worcester, Mass., and Lieut. L. C. Holden, of New York, started on an early morning patrol. Colton was attacked by Fokkers near Grand Pre. Other Americans came to Colton's assistance and engaged the Fokkers. During the fighting Colton managed to separate one of the enemy planes from its group and downed it after five minutes of combat.

Lieut. Holden encountered a Hanover machine in the region of Fontaine while it was on its way to the American line with the object of carrying out observations. Holden had the lighter machine and managed so to maneuver that he was able to attack the Hanover from the rear. Meanwhile, however, the machine gun observer in the German plane was using his gun against Holden. The American aviator then turned his gun against the observer and saw his body crumple half way over the edge of the cockpit.

Holden then continued to pepper the enemy pilot and finally sent the machine crashing in a bit of woods behind the German lines.

Holden is now credited with four victories and Colton with three.

RECALL OF U-BOATS HELD HUN SCHEME. LONDON, Oct. 29.—Reports of German submarines being recalled to home ports, coupled with comparative inactivity on the part of the U-boats, are being discussed by admiralty officers here.

It is not believed Germany has abandoned submarine warfare. The view of admiralty officials is that the German checking operations of submarines, hopes to lead weight to the eventually reported that she is withdrawing from the sea. It is possible Germany expects to create a better feeling in America by this procedure and doubtless plans to bolster the waning morale of the submarine crews by demanding less of them.

The admiralty is believed that if the inactivity continues most of the submarines will be withdrawn temporarily, the men will be given leave and the boats will be repaired preparatory to the next great effort on the part of Germany.

"Our admiralty officer says" "If the war continues, you may expect the submarine menace to be as great, if not greater, by January than any with which we have yet had to deal."
