An Unique Feature of Our Buyers and Managers Sale; Wednesday

# Display Managers Sale

Introducing two prominent members of our selling organization—Mr. L. K. Cochran, at top; Mr. Leo Jacobson, at bottom—our display managers and window trimmers, who collaborated in the selection of items for this special day.

It is the contention of these gentlemen that window displays sell as much merchandise as newspaper advertising—that people are influenced more by what they see in the windows—so this day is somewhat in the nature of a test.

Every item in this sale is on display in our windows. There are TWENTY-ONE BIG SPECIAL VALUES—and we want you to come down and see them. For this reason we have omitted sale prices from this ad. We will say this, however, that in every instance the sale price is considerably lower than the regular price—IN SOME CASES LESS THAN HALF.

## TEACHERS' SALARIES OPPOSED BY SCHOOL BOARD

Demand for Recognition and Big Salary Increase To Be Fought Out at Session Thursday.

If the increase in salary demanded by the Teachers' association which would fix the minimum wage for grammar school teachers at \$1,200 a year and high school teachers \$1,500 yearly should be granted it would mean an added expense of \$175,000, according to rough estimates made at the city board of education Tuesday.

Here are the estimates:  
Average estimated increase for 208 grammar school teachers, \$500 per annum, \$105,000  
Average estimated increase for high school teachers, \$300 per annum..... 70,000  
Total..... \$175,000

Added to this budget for increase to old teachers would be the additional teachers' pay to new ones employment made necessary by the rapid growth of the school.

Only a big increase in the tax levy could offset these big increases the city board of education.

Memphis teachers have formed an association affiliated with the National Teachers' Federation and are demanding recognition which demand is accompanied with a big increase in salaries in many instances. They maintain that the rules of the association will not permit the teachers as individuals to sign contracts for the coming year and at Monday night's meeting of the board of education presented a new contract embodying the drastic changes and demands for reforms the teachers believe to be just. The board, after an animated discussion in which vigorous opposition was voiced by practically every member of that body, finally upon motion by Mrs. Isaac Reese, voted to take the matter up in executive session on Thursday of this week.

The new contract as drawn up by R. Grattan Brown, who appeared as attorney for the teachers, demands collective bargaining, that is, that the form of contract shall henceforth be dictated by the association and the board shall not deal with the teachers as individuals but that the problems are usually present in person to the board be threshed out first among the members of the association, presented to the board of education.

Incorporated in the new contract is a new scale of wages that members of the board last night declared to be impossible in view of the fact that the board now faces a big deficit.

Salaries Already Increased.

A minimum salary of \$100 a month for teachers in grammar schools and a minimum of \$150 a month for high school teachers means a raise of as high as \$10 a month for some of the teachers, and the board contends that the amount thus added to the budget cannot be met with the present resources.

Forecasting the sentiment which will dominate the executive session of Thursday, Anthony Walsh, chairman of the finance committee, said: "We might as well take the bull by the horns. The demands made are impossible to meet, with the board of education already facing a big deficit. It looks like business as usual. It is a question whether the board of education shall run the schools or whether the teachers shall do so."

The demands of the teachers were presented immediately after the report of Prof. Wharton S. Jones, superintendent of city schools, as read. The superintendent recommended that all the teaching force, superintendent and janitors be retained, those resigning or leaving. He incorporated in his suggestions the idea of a contract to be mailed each of the teachers, selected and that the final personnel of the teaching corps be determined after acknowledgment of the contract and its acceptance be received. Teachers are paid by the twelfth month, the superintendent pointed out. In the past many of them have accepted pay during the summer months and when the fall term opened they were not allowed. In fairness to the board, he maintained, they should know just what teachers would be depended upon to be on hand at the beginning of the term. Of course in the contract the salary was to be stipulated.

A raise of \$10 a month was granted following the teachers' strike last year when the school tax levy was increased from 23 cents to 25 cents. An agreement was drawn up at that time. It was shown, where the board pledged itself to increase salaries if any of the funds obtained by the increase remained after paying debts and running expenses of the board.

Teachers Confused.

A general misunderstanding of the agreement entered into following the strike last year developed in the delegation of teachers pressed their demands for higher pay.

The delegation insisted that the increase in pay granted from September, 1918, extending through the year 1919, was nominal for the year 1919 as well. Mr. Walsh took exception to this view and declared that any increase in 1920 depended upon the financial status of the city. He was of the opinion that there would be a sufficient amount over and above enough for the necessary expenses of the board to grant a substantial increase, and emphatically declared that the purpose of the increase in the levy was largely to get an increase for the teachers and they certainly would get it if the financial condition will permit.

Harding, Peres, president of the board, did not agree with Mr. Walsh in this. Mr. Peres, probably the only member of the board conversant with the probable findings of the school survey, may have had in mind some recommendations to be made in the report of the survey which are likely to draw heavily on the board's resources.

The discussion continued until it is believed the teachers will concentrate their efforts first on the question of recognition of their union and the problem of collective bargaining before the adjustments of salaries are finally taken up.

All the old teachers were re-elected and were guaranteed every increase to which they are entitled, according to the board's construction of the agreement after the strike, as drawn up by Marion Evans, attorney for the board of education and "Coke" Jester, a high attorney for the teachers' organization at that time.

Teachers To Be Assigned.

The following teachers were elected subject to assignment: Martha Washington Myers, Martha Lanier, Barbara Webster, Mrs. Oscar Smith, Bernice Matthews, Thelma West, Frances Newby, Floy Podesta, Louise Garibaldi, Mills Mahler to be transferred to grade schools; Evelyn Brooks, assistant in domestic science in vocational school, and Emma Nevill.

Miss Elizabeth Hancock was elected head of the domestic science department at the Central high school, to succeed Miss Mary Cooper, resigned. Miss Hancock will be paid \$120 a month. Her assistant will be Miss Alice Woods, whose salary was fixed at \$85 a month.

Miss Anne Barron was elected eighth grade teacher at Peabody school.

Salaries of Prof. J. J. Jester and J. L. Highman were raised in recognition of the splendid work accomplished during the last term. Prof. Jester, principal of Central high school, will receive a salary of \$25 next term, while Prof. Highman, principal of Crockett vocational school, will receive \$250 a month.

Other salaries fixed are as follows:

**CHARLOTTE, WIDOWED QUEEN, 79 YEARS OLD**

BRUSSELS, June 24. (Correspondence of the Associated Press.)—Charlotte, widow of Emperor Maximilian of Mexico, was 79 years old on June 7. She is in good health and lives at the Chateau de Bouchou, near Antwerp, which was unharmed by the Germans. She seems to have remained in ignorance of the happenings of the last five years and only manifested anxiety when the big guns thundered during the siege of Antwerp.

The princess is unaware of the death of her brother, King Leopold of Belgium. The word death is never mentioned in her presence and when, one by one, her old friends and servants die, she is told they have gone on a "long journey." Her tragic indifference makes it impossible to tell whether she understands.
