## Thos. H. Ince presents CHARLES RAY in "CROOKED" STRAIGHT

By Julien Josephson Directed by JEROME STORM Photographed by Chester Lyons A Thos. H. Ince Production

### SHADOWED!

COULD he go straight now? With his crooked past lurking always behind him—ready to beat him down?

In the face of all he had done back there with "Chick" and "Spark" and the rest of his light-fingered, heavy-fisted "friends," would the girl and the dead pal's kiddies be enough?

They were—after he cracked another safe! But that last "job" and the fight that went with it were two of the finest things he ever did. Come and see why.

All the appealing Charles Ray characters molded into one—a powerful, stirring, tender role that will haunt you like a beautiful song.

## THE TENNESSEE COTTONSEED CRUSHERS ASSOCIATION TO CHANGE ORDER AND TO RECEIVE

### Department of Agriculture Cuts Selling Price to \$65 Per Ton for Mills—About \$7 Reduction.

Efforts of Louis N. Geldert, Washington representative of the Interstate Cottonseed Crushers' association, to have the order of the department of agriculture fixing the price of cottonseed meal at \$65 per ton abated, has proved fruitless, according to the following telegram received Tuesday morning by A. G. Perkins, secretary of the Tennessee Cottonseed Crushers' association:

"Russell Acree and myself just had a preliminary interview with Prof. Whitney, chief of the bureau of agricultural department, with reference to circular of Nov. 5, which stated that sales of cottonseed meal at prices higher than those of Oct. 7 would be considered profiteering. Whitney stands firm on the circular and states that in all cases coming to the attention of the department will be prosecuted. He acknowledged the official decision may indirectly affect the price of seed, but stubbornly assumes the attitude that somebody must suffer. He states that the country is in the verge of civil war and price control is necessary. Expect to see senators and representatives this afternoon. At present, it might be advisable to have the farmers make a vigorous protest. Further information later."

### Big Loss to Mills.

The government order fixing the maximum price of cottonseed meal at \$65 per ton, or approximately \$7 per ton under the current market price, is characterized by Albert G. Perkins, secretary of the Tennessee Cottonseed Crushers' association, as ruinous and confiscatory. Loss to the crushers and producers in Tennessee, Arkansas and Mississippi, through enforcement of the order will aggregate \$1,250,000, Mr. Perkins estimated.

The edict, issued over the signature of Milton Whitney, chief of the bureau of soils, reached Mr. Perkins Monday, and threatens prosecution under the anti-profit laws of all violators of its provisions. It forbids the dealers to sell their meal at prices in excess of those that prevailed on Oct. 7, which is \$7 per ton less than the current price, which is \$72. This means, Mr. Perkins stated, that 12 cottonseed oil mills, operating in Memphis, and the 103 others in the tri-state territory, will have to sell hundreds of tons of their product at a loss of \$7 per ton, as the seed was purchased on the basis of \$72 per ton meal. The Memphis mills, he estimated, will lose \$250,000 on the seed now on hand. "This amounts to scarcely less than confiscation," he said.

### Competitors Unchanged.

This particular section of the country sells practically all of its meal for feeding purposes, and is not interested in the fertilizer trade. Farmers in this section do not use fertilizer. Mr. Perkins' competitors are dressed meal and peanut meal, both of which are used for feeding purposes also, and which are selling on the same basis as cottonseed meal at \$72 per ton. There is no mention in the department's order affecting the prices of these competitors.

"The oil mill men cannot believe that the government is going to put this order on us. If it does great losses will result, not only to the oil mill, but to the cotton farmers, on whom the reaction will fall very heavily. I believe that the farmers realize the seriousness of the situation they will send a strong protest to Washington."

Upon receipt of the order, Mr. Perkins called a meeting of the Tennessee Cottonseed Crushers' association for Tuesday morning at 11 o'clock at the Hotel Gayoso to discuss the sending of a committee to Washington to join with the cottonseed crushers of other states in making protest. "The word was received from Henry E. Watkins, of Atlanta, vice-president of the Georgia Cottonseed Crushers' association, that the order of the government that organization will send a committee to Washington as soon as appointments can be made."

The government's order follows: "At the time of the hearing held in Washington, Oct. 6 and 7, with reference to prices for sulphate of ammonia, nitrate of ammonia, nitric acid, rock phosphate, and bulk acid phosphate and department was of the opinion that prices of these materials were unjustifiably high. It has recently come to the attention of the department that prices for certain of the raw fertilizer materials mentioned above have been increased since Oct. 7, or that an increase is contemplated. The department is contemplating ordering a reduction in the price of raw materials, following the hearings given to producers of these materials because of the fact it was feared such an action might dislocate the feed situation and the raw fertilizer materials mentioned above had concentrated for the major part of their requirements at prevailing market prices.

### All Fertilizers Affected.

"The department feels that an increase in the price of the above raw materials is particularly unwarranted at this time and as announced in the press notice on Oct. 10 and 11, proposes fully to exercise its own power under the license provisions of the control law approved Aug. 10, 1917, to prevent profiteering.

"You are, therefore, advised that any sale hereafter made by you of sulphate of ammonia, dried blood, tannage, fish scrap, cotton-seed meal, rock sulphate or bulk acid phosphate at prices higher than those prevailing on Oct. 7, 1917, will be considered by this department as prima facie evidence of profiteering. All such cases coming to the attention of the department will be referred to the department of justice for prosecution in accordance with the provisions of the recent amendment to the control act which provides a penalty for profiteering of a fine not exceeding \$5,000 or imprisonment for not more than two years or both.

"This act must not be construed as an implied approval by the department of prices for raw materials prevailing on Oct. 7. The department still feels that these prices were and are too high, but will not, for the reasons given above, at this time, insist that a reduction be made."

### LITHUANIANS AGREE TO PARTICIPATE IN MEET

COPENHAGEN, Nov. 11.—Through the mediation of American, British and French representatives, the Lithuanian government has agreed to participate in the conference with a view to settling differences between Lithuania and Poland, according to the Lithuanian agency.

A stern reply has been sent by Lithuania to the request of Col. Bernhardt, commander of the Germano-Russian force near Riga, to negotiate for peace. It is reported here that Bernhardt is still receiving reinforcements and ammunition from Germany.

### 24-HOUR STRIKE ON.

ROME, Nov. 11. (Havas).—A 24-hour general strike has been proclaimed in Florence. Calling of the strike followed a clash between the police and socialist demonstrators, during which five persons were wounded.

# Tuesday, November 11 Armistice Day

## One Year Ago Today the World War Ended And the Period of Reconstruction Commenced

The ideals of democracy, the impulses of generosity, the desire to see fair play and justice to all nations were fulfilled one year ago today. When the armistice was signed the commercial, financial and industrial reconstruction of the world began.

America today is going through a commercial regeneration. Bigger and greater things are before us—we must accomplish them with the same cheerful heart and might that we went into the war.

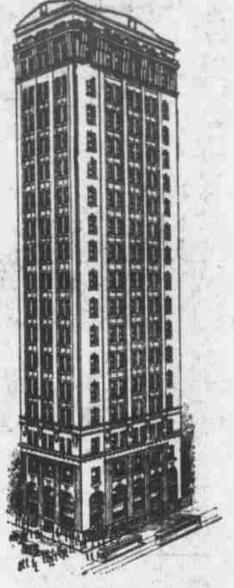

The reconstruction has only begun. We must produce more goods, machinery, food—not only for our own needs, but for almost every European nation until these peoples have readjusted their national life. We must work and save.

In work is health, happiness and contentment. Saving develops character, it broadens one's idea of responsibilities. It gives poise and a fuller appreciation of values. It generates confidence and assures the future against unknown possibilities. WORK AND SAVE, remembering that the nation is no stronger than the individuals that compose its political body.

IF you want something extra nice in the way of tea, try Tetley's—it comes in 10c packages! You'll be so delighted with its refreshing fragrance and clear color, you'll try more—and use it always.

## Tetley's Tea

It's the blending that makes Tetley's such downright good tea—a blending perfected through years of experience.

### COLUMBUS DISTRICT REVENUE HEADQUARTERS

COLUMBUS, Miss., Nov. 11. (Sp.)—This city has been named as headquarters of the internal revenue department for the northern district of Mississippi, and the office will be opened at once. Ten deputies will make Columbus headquarters. Temporary offices have been secured in the city hall building, and these quarters will be used until a permanent location is secured in one of the large bank buildings here.

### ARMISTICE CELEBRATED.

HUNTSVILLE, Ala., Nov. 11. (Sp.)—Celebration of Armistice day was held here Tuesday night, with appropriate ceremonies. Two miniature museums were unveiled on Whitesburg pike, where a tree is being planted for each of the 45 Madison county heroes who died in the world war. This patriotic work is being done by the Grace club, which is composed of young women and girls. On Tuesday evening an address will be delivered by Rev. George Stover, of Nashville, formerly of Huntsville, who will launch a movement for a \$100,000 memorial hospital.

### IF THIN AND NERVOUS, TRY PHOSPHATE

Nothing Like Plain Bifro-Phosphate to Put on Firm, Healthy Flesh and Increase Strength, Vigor and Nerve Force.

When one stops to consider the heat of this people who are searching continually for some method by which they may increase their flesh to normal proportions by the filling out of ugly hollows, the rounding off of protruding angles with the attendant bloom of health and attractiveness, it is no wonder that many and varied suggestions along this line appear from time to time in public print.

While excessive thinness might be attributed to various and subtle causes in different individuals, it is a well-known fact that the lack of phosphorus in the human system is very largely responsible for this condition.

It seems to be well established that this deficiency in phosphorus may be met by the use of an organic phosphate known throughout English-speaking countries as Bifro-Phosphate. The assimilation of this phosphate by the nerve tissue soon produces a welcome change in our body and mind. Nerve tension disappears, vigor and strength replace weakness and lack of energy and the whole body soon loses its ugly hollows and abrupt angles, becoming enveloped in a glow of perfect health and beauty and the will and strength to be up and doing.

CAUTION:—While Bifro-Phosphate is unparagoned for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.

# Kellogg's

WON ITS FAVOR THROUGH ITS FLAVOR

EVERY grocer everywhere sells Kellogg's every day.

The sweetheart of the corn

Kellogg's Toasted Corn Flakes

Kellogg's betters the breakfasts in millions of homes. More Kellogg's is eaten today than ever before.

### KAFFEE BEEN FOR HEADACHE

Few Drops of "Freezone," The Light Corn Right Off

A tiny bottle of "Freezone" costs so little at any drug store, apply a few drops upon any corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off with your fingers. Truly No Hump!

### SEND COIN DIRECT TO THE RED CROSS

If a Red Cross worker doesn't reach you Tuesday, Nov. 11, Armistice day, the last day of the third annual roll call, you are requested to send or bring \$1 for a 1920 membership in the Red Cross to headquarters, second floor, Court avenue and North Second street. The support of the Parent-Teacher associations, expected for the Red Cross, did not materialize. For this reason many persons in the residential sections of the city were not reached by Red Cross workers during the drive, which lasted from Nov. 2 to Nov. 11.

Memphis and Shelby county are falling the Red Cross—which never failed their boys in the army camps or in the sea-stricken fields of France, in Italy or Siberia.

Right now the Red Cross is looking after 250,000 American soldiers still on foreign soil. Right now "the greatest mother in the world" is watching over and caring for 125,000 wounded and maimed American boys still in hospitals from wounds they received during the world war.

It is to care for these boys that the Red Cross is asking \$1 from you for a 1920 membership. The boys saved the country for you—you will desert them before your honest obligation and solemn promise to them have been carried out!

The Red Cross drive ends Tuesday. Shelby county has only a little more than half her quota now. Less than \$100,000 has been raised for memberships. And \$20,000 was the sum set as the quota for Memphis and Shelby county.

The American Legion aided in the drive. The school children have been called upon for aid, and promised a membership at \$1 each. The good housewives of Memphis, 300 strong, have put the Red Cross over the top. To little Miss Beryl Kathryn Corrington, 7, goes the honor of being the school child to win one of the Howard Chandler Christy posters—"The Spirit of America"—which are offered to every boy and girl who turns in five memberships, at \$1 each, to the Red Cross chapter, at Court avenue and North Second street.

Little Miss Beryl was on hand, almost as soon as the local chapter opened Tuesday morning. She turned in a membership for 1920, and proudly departed with her poster. She is the daughter of Mr. and Mrs. J. L. Corrington, Young avenue. There are many other posters for the Red Cross who can get 5 members for the Red Cross.

All of them—the soldiers, the children and the women—are falling down because the business and professional men of Memphis and the county are too self-centered to contribute the \$1 asked for 1920 memberships.

The close of the drive marks the first anniversary of Armistice day! One year ago today 200,000 people in Memphis and Shelby county were lauding the fighting Americans in khaki, and the Red Cross. Today less than 15,000 people have shown their appreciation of what the boys and the Red Cross did for them!

### ST. LOUIS.—Richard V. Murphy, held for alleged attempts to swindle Robert R. Collins, Trenton, Tenn., out of \$10,000 on a fake horse race, has been identified as a member of a gang that swindled two men out of \$25,000 in 1915 in a similar manner.

PALESTINE, Tex.—Between 40 and 50 houses were wrecked and several persons injured in a wind and rain storm that swept through the residence section of Oakwood, Leon county.

SALTA, Argentina.—A strong earthquake shock has been felt here, but no damage has yet been reported.

NORFOLK, Va.—Former Lieut. R. B. Bullock, of Richmond, Va., has been convicted in a federal court of violating the Mann act and sentenced to three years in the Atlanta penitentiary. He married a young French girl while he had a wife and five children in America.

PENSACOLA, Fla.—Ensign Lambert Hewitt Monday night completed a round trip flight from here to Long Island, N. Y., landing here in a heavy rain and wind storm. He used a two-motor naval flying boat.

NORFOLK, Va.—Wreckers have succeeded in floating the British seamer Bretanier, which went ashore several days ago 15 miles below Virginia Beach.

PRAGUE.—President Masaryk of the Czechoslovak republic, has signed the peace treaty of Versailles.

PARIS.—The linotypers and typographers of the Paris newspapers have voted to strike and newspapers did not appear Tuesday.

MONTGOMERY, Ala.—Breaking a window of a Pullman car on the New York-San Francisco limited, near Auburn, Ala., Miss M. J. Drouet, 25, of Houston, Tex., hurled herself from the speeding train and sustained injuries that will probably prove fatal.

NEW YORK.—The death of Walter Howard Weyl, 45, economist and author, is announced, having occurred in a local hospital.

EDITH CAVELL'S CELL IS TO BE TINY MUSEUM

BRUSSELS, Nov. 11 (French Wireless Service).—The cells occupied by Edith Cavell and Gabrielle Petit previous to their execution by the Germans are to be transformed into miniature museums. This has been decided by the court of justice.

Clothes worn by the two women, their books and other belongings have been collected and placed in the cells. Plates bearing appropriate inscriptions will be attached to the doors.

### TELEGRAPH BRIEFS

ASHEVILLE, N. C.—The Asheville Wholesale Grocery Company building here has been destroyed by fire, the loss being estimated at \$100,000.

SHAWNEE, Okla.—George W. Moore, state labor organizer, former head of the local trades assembly, is under arrest on a warrant from Creek county charging complicity in the riotous incident to the telephonic strike at Drumright.

PARIS.—The cost of living in France has risen 161 per cent since the armistice, according to statistics issued by the minister of labor.

### Watches

Beautiful Diamond Bracelet and Sautoir Watches

Ultra-modish timepieces distinguished by their refinements of decorative detail and designing.

Presented in a particularized display of ribbon bracelet watches of platinum, daintily mounted with diamonds. The rectangular, octagonal, oblong and square shapes predominate in popularity.

We direct attention to our assortment of handsome gray, blue and lavender Enamel Sautoir Watches, decorated with platinum and diamond ornaments.
