SONORANS ELATED OVER REVOLT NEWS

Preparations for Clash Proceed—Nothing Known of Actual Encounters.

AGUA PRINCA, Sonora, Mexico, April 21.—News dispatches from a Carranza official and reporting made to American army Southern district headquarters by the intelligence service held an overshadowing interest today in the minds of officials of the state of Sonora which recently withdrew allegiance to the Carranza government.

Additional concentrations of federal and state troops for the expected clashes were reported but nothing was known of actual encounters.

Gen. Linares Pena, appointed by President Carranza to succeed Adolfo de la Huerta as governor of Sonora, reported upon his arrival at Laredo, Tex., en route to Nogales, Ariz., that the whole state of Michoacan had gone over to the rebels, Gen. Robles joining the movement with all federal troops in his command. His statement confirmed Gen. Linares' report that the Carranza army intelligence report was to the effect that Gen. Col. Alvarez Chirio, commander of the army of Mexico, and recently reported under detention at the capital, was in command of revolutionary troops in Michoacan.

The same report said the 7th Mexican federal cavalry had left Tijuana, Chihuahua, to reinforce the Juarez garrison and that 2,500 Carranza troops were concentrated at Casa Grande, Chihuahua, preparatory to march against Sonora through Pulpito Pass.

Sonora officials were without reports from their own sources regarding the Carranza claim that Gen. Angel Flores, commanding Sonora troops operating in Sinaloa, has been surrounded in Culiacan, capital of Sinaloa, which he captured recently.

Americans reaching the border from Lower Sinaloa said retreating Carranza troops were destroying bridges and otherwise impeding the progress of Gen. Flores. The Sonora leaders drew encouragement from unconfirmed reports from El Paso that a rising of 4,000 Carranza troops in the state of Chihuahua was imminent.

The Sonora leaders drew encouragement from unconfirmed reports from El Paso that a rising of 4,000 Carranza troops in the state of Chihuahua was imminent.

CHICAGO MEN MAY VOTE TO END STRIKE

CHICAGO, April 21.—Immediate ending of the unauthorized railroad strike in the Chicago district was predicted by insurgent leaders today when strikers met to vote on calling off their walkout. The strikers were held to attend a mass meeting at which a referendum on returning to work will be submitted by leaders of the Chicago Yardsmen's association.

Federal and city officials and railroad representatives had invitations to the meeting. John Gruman, president of the Yardsmen's association, who was sent to jail at Joliet, Ill., said he had no power to order the men back to work.

Meanwhile, increased movement of freight and the return of more strikers in the district was reported by railroads. Freight traffic was said to be 75 per cent of normal.

Federal investigation of activities of strike leaders will continue and "every man found breaking the law will be prosecuted," United States District Attorney Cline announced, despite the change in the attitude of the leaders. "If they want to pose as martyrs and be sent to jail, we will accommodate them," he declared.

Seven new arrests were made on federal warrants yesterday of leaders who took the train to Chicago to claim arrested for strike activities. Warrants for two others were to be served today.

A general betterment of strike conditions was reported in Central and Western states.

NEW YORK DISTRICT 50 PER CENT NORMAL

NEW YORK, April 21.—Freight traffic almost completely throttled last week by the unauthorized strikes of railroad workers, had reached 40 to 50 per cent of normal today on lines entering New York and Jersey City, according to a statement issued by J. J. Mantel, spokesman for the lines.

With passenger service virtually normal again the roads are concentrating efforts on clearing up the freight traffic and hope to be operating normally by the end of the week, Mr. Mantel said. He denied claims of strike leaders that seventy per cent of the strikers still were out.

Farmer Gives His Twin Sons To New Democratic Army

Having read in the Memphis news-papers of the opportunity for young men in the new democratic peace-time army, J. D. Fowler, a Shelby county farmer, has decided to give his twin sons to Uncle Sam.

Mr. Fowler walked into the army recruiting station with the twins and wanted to know if the new army would build his boys and mold them into a manhood that would be of benefit to the boys and their parents when they returned to civilian life.

Plans were laid out for the boys' future and then submitted to the father for approval. After looking over the proposition the father at once closed the deal and said that it was the best bargain that had ever been offered.

The twins, Floyd and his brother, Lloyd Fowler, wanted an education as well as a training and that they could get it in the army. They were only 18 years of age and could not enlist without the consent of their parents, so to make sure they brought their father with them.

Here in one case where a parent is fulfilling his obligation both to his sons and his country, says Sergeant Maber, "during the great war the army needed his sons but the boys were too young to enlist, but today the boys had their arms about their fathers' door life and its vocational training."

"Down at Camp Pike, Little Rock, Ark., the famous Third (Marine) division is calling to young men to come and share the good times that they are having. They are doing a lot of things, such as horse racing and all sorts of athletic, dancing and singing help to make the soldiers' hours those of pleasure."

All applicants who enlist in any of the Third division regiments will be forwarded to Camp Pike direct to the organization that they enlist for. Information may be obtained by writing to the sergeant who are seen on the streets of Memphis and the surrounding towns, or by applying at the army recruiting station, 125 North Court avenue.

CINCINNATI EXPECTS 50-FOOT STAGE TODAY

CINCINNATI, April 21.—With the Ohio river rising nearly a foot an hour the local forecaster predicted that a stage of between 45 and 50 feet would be reached by this morning. This will represent a rise of between 15 and 21 feet in 24 hours, a record seldom equaled in the Cincinnati district. Swollen tributaries due to heavy rains throughout the watershed was responsible for the sudden rise.

Many cellars and basements in the lowlands of Cincinnati and surrounding towns were flooded today when sewers became clogged, but the property loss was comparatively small. Persons living along the river front are prepared to move should the rise continue. The stage last night was just above 40 feet.
