

COX'S IDEALTY
IS THE ISSUE OF
MORNING CAMPAIGN

(Continued from Page 1.)

Advocates Ratification.

The first duty of the new administration clearly will be the ratification of the treaty. The matter should be approached without thought of the batteries of the past. The public verdict will have been rendered, and I am confident that the friends of world peace as it will be provided by the league, will have in mind the constitutional principle of favorable territorial action. The treaty should be our platform reference to reservation is vague and indefinite. Its meaning is not certain. It should state our interpretation in the event that as a matter of good faith to our associates and the world at large, any misunderstanding in the future. The point is that after the people shall have spoken, the treaty will be the hands of its friends in the senate, and a safe index as to what they will do.

We Hear It Said That Interpretations

are announced by the president, but they will at least be assuring to many of our citizens, who feel that in signing the treaty, the president should be made responsible for the ratification. It is a matter of good faith to our associates and the world at large, any misunderstanding in the future. The point is that after the people shall have spoken, the treaty will be the hands of its friends in the senate, and a safe index as to what they will do.

Domestic Problems Pressing.

We have domestic problems to be settled. They are most pressing. Many conditions growing out of the war will not and should not continue. One of the first things to be done is the repeal of war taxes. To have paid by current taxes more than one-third of the expense of the greatest war in the history of mankind, is a reflection on the high sense of national duty which we as America view the obligations following the termination of the war. It is not a matter of expediency, but of principle. It is not a matter of expediency, but of principle. It is not a matter of expediency, but of principle.

Favors Collective Bargaining.

Capital develops into large units without violence to public sentiment. It is not a matter of expediency, but of principle. It is not a matter of expediency, but of principle. It is not a matter of expediency, but of principle.

Would Decrease Tenantry.

The government should be held responsible for the maintenance of the public interest. It is not a matter of expediency, but of principle. It is not a matter of expediency, but of principle. It is not a matter of expediency, but of principle.

Urges Suffrage.

The women of America, in emotion and conviction, have measured up during the war to every requirement, and emergency service, and they are entitled to the privilege of voting. It is not a matter of expediency, but of principle. It is not a matter of expediency, but of principle.

Are you satisfied with your complexion

Even if you are, you will find that a touch of Resinol Ointment now and then prevents pimples, blemishes, and other skin troubles. It is not a matter of expediency, but of principle. It is not a matter of expediency, but of principle.

GRACE MARVEL.

Al G. Barnes' big four-ring circus is scheduled to give two performances here Monday, with the largest array of wild animal talent ever assembled under canvas in a train of 25 cars. It carries more lions, tigers, leopards, zebras and other species of wild animals than any other circus on the road, according to Thos. Francis Healy, representative of the circus, who is at the city making final arrangements.

Another feature of the Barnes circus which has been trained to do many wonderful stunts. The ship has actually developed an ear for music and steps in perfect time to the lively strains of the circus band.

Al G. Barnes, head of the show, has safeguarded to the public, but as a conserving process to the utility. Financial credit is necessary to physical rehabilitation of the Federal Reserve.

Interest in Education.

There must be an awakened interest in education. We owe too much to the next generation to be remiss in this matter. There should be no encroachment by the federal government on local control. The central government, however, can investigate the possibilities of progressive education, and in helpful manner create an enlarged public interest in this subject.

Confidence in Government.

If I were asked to name in these trying days the first essential overhaul, I would say it would be confidence in government. It would be nothing less than a calamity if the next administration were elected under corrupt auspices. The public mind should be kept in a state of alertness. The public mind should be kept in a state of alertness.

Miss M. E. Regenauer Tells How Cuticura Healed Skin Trouble

"My trouble started like a bump and kept spreading until my face was covered. Itched so badly sometimes I could not help scratch my face, and I could not sleep. Whenever I got warm it was worse, and it caused a discharge for a time. I used Cuticura but they did no good. I sent for a free sample of Cuticura Soap and Ointment and it proved successful, so I bought more, and when I had used three cakes of Cuticura Soap and two boxes of Cuticura Ointment it was healed."
