End-of-the-Month Sale

These events have come to be regarded with very especial attention by the Memphis public—and with every reason—because the economies offered on these occasions are from their very nature of an extraordinary kind. Just once a month we go through our shelves and list all accumulations of odds and ends, broken assortments, overstocked numbers. This merchandise is then priced without any thought of the cost, with just one purpose in view, to sell them out completely in one day's business. The eagerness with which the public attends these monthly sales is evidence of the wonderful values which can be gleaned here by the watchful shopper.
