

THE DAILY BEE.

OMAHA OFFICE, NO. 914 AND 916 FARMAN ST. NEW YORK OFFICE, ROOM 613, TRINITY BUILDING. WASHINGTON OFFICE, NO. 613 FORTUITOUS ST.

Published every morning, except Sunday. The only Monday morning paper published in the state.

TERMS BY MAIL: One Year, \$10.00; Three Months, \$3.50; Six Months, \$5.00. One copy, 10 cents.

ADVERTISING: All communications relating to news and editorial matters should be addressed to the Editor of the Bee.

THE BEE PUBLISHING COMPANY, PROPRIETORS. K. ROSEWATER, EDITOR.

THE DAILY BEE.

Sworn Statement of Circulation. State of Nebraska, County of Douglas, ss. N. P. Feil, cashier of the Bee Publishing Company, does solemnly swear that the actual circulation of the Daily Bee for the week ending April 30th, 1893, was as follows:

Table with columns: Date, Morning, Evening, Total. Rows for Saturday, Sunday, Monday, Tuesday, Wednesday, Thursday, Friday, and Average.

Sworn to and subscribed before me this 1st day of May, A. D. 1893. SIMON J. FISHER, Notary Public.

N. P. Feil, being first duly sworn, deposes and says that he is cashier of the Bee Publishing Company, that the actual average daily circulation of the Daily Bee for the month of January, 1893, was 10,363 copies; for February, 1893, 10,363 copies; for March, 1893, 11,387 copies; for April, 1893, 13,191 copies.

Sworn to and subscribed before me this 5th day of May, A. D. 1893. SIMON J. FISHER, Notary Public.

Notice to Agents and Subscribers. Hereafter all orders for papers, all complaints about postal delays, and all remittances should be directed to the Bee Publishing Company, Omaha, Nebraska.

Cornering Brick.

When Omaha had 15,000 or 20,000 population, it was well enough for the brick-makers to be also builders and contractors. In those days it would have been rather risky for a firm to confine themselves to the manufacture of brick alone.

Whiskey and Dynamite.

The main trouble in all these labor riots is whiskey. If liquor could be kept away from workmen when they are on a strike, there would be very little danger to life and property.

Sparks and Van Wyck.

The great hue and cry which the anti-Van Wyck press makes about the difference between Senator Van Wyck and Mr. Sparks about the seizure of timber out by Hall & Bros. in Idaho Territory is after all merely cannibalism.

How Trade is Hurt.

Trade is hurt more by the apprehension of mischief than by the actual extent of it. Omaha has some on the list.

They've Come to Stay.

These unions among workmen have come to stay. Every employer must take them into account and it is folly to attempt to combat the feeling which leads to their formation.

Yankee Doodle Should be Resurrected.

Isn't it about time to have a little renaissance of Yankee Doodle in this country? What with socialism, nihilism, anarchism, boycottism, strikeism, etc., it seems as if the great original idea of "life, liberty and the pursuit of happiness" was being snuffed out.

The Red Flag.

What nation and what government, this crimson tatter all bespoken with human skulls and flames and gore, Circling and flaunting evermore—What people does it represent?

At first it was a wild western congressman who was credited with having won \$50,000 at poker during the past winter at the national capital.

Philadelphus Record.

A territory which Congress has no vote, but he has the privilege of free speech. Delegate Voorhees, of Wyoming Territory, has made use of his privilege to some purpose in calling attention to the presence of a formidable lobby of members of Congress, who are industriously and impudently pushing the interests of the Northern Pacific railroad on the floor of the house.

STATE AND TERRITORY.

Nebraska Jettings. Work has begun on a \$6,000 school at Edgar.

The Fairmont creamery churns out 800 pounds of butter daily.

Fillmore county has 5,183 children of school age, an increase of 414 in a year.

The B. & M. company is completing a large addition to the branch road to Geneva will be finished in ten days.

Dan Farrell, the noted sheriff of Mills county, Iowa, captured a horse thief at Ottumwa Tuesday, after an exciting chase through Ottumwa.

The residents of Loup City are making great preparations to celebrate the advent of the railroad next week.

A grand barbecue and ox roast, speeches with other edibles comprise the bill of fare.

The blasting of an obstruction in the river near Nebraska City, Sunday, started the residents for miles on both sides of the river, and a number of telegrams were received inquiring as to the cause of the earthquake.

Papillon is pleased with the work of Judge Wakeley at the present term of court. According to the Times, "business proceeded with the utmost dispatch notwithstanding the dry goods, grocery store, drug store and post office combined; but an independent well to do place. Several stores of general merchandise, two drug stores, a hardware store, meat market, three good first-class western hotels, a fine depot building, with lumber yards, grain buyers and stock dealers doing good business.

The most important feature of the town I must not omit. It is a fine four-story machinery is of the best and will soon be in running order. The town has a bank also a great school, although the school building is a short distance from town; but soon a school house is to be erected which will be a credit to the town, and one her citizens may well be proud of.

Society. Every one knows the fallings of a new town; but consider the age of this one, not yet six months old, but it has a good Sunday school and all seem interested and anxious to succeed.

Drop all business matters; lay all enterprises away for a moment and notice the situation of Howard. It is about half way between St. Paul and Loup City, just the right distance for a thriving town. It is situated a short distance from Middle Loup river, just far enough to give it a healthy, glowing appearance, and cause those who stand on the rise of land just north of the town to nod and with admiring eyes view the scene once more.

The land on which the town is situated is sufficiently high not to allow low, dense fogs which arise from the river to settle thereon, thus causing unhealthiness. Beautiful residence lots can be obtained just north of the business part of town, which overlooks the whole town-site and the flowing river beyond.

Who would want a better or more picturesque or healthy site for a western home? The land for miles in all directions is taken and under cultivation, thus affording and supplying the town's demands. A ferry-boat in good running order just south of the town, so the people from the south side of the Loup are seen on the streets. It is hoped soon to have a bridge across the stream. Still the work continues. The school and store are at work on the south side of the Middle Loup, following the new line through to North Platte. Thus the town, affording every possible advantage for improvement.

Big Profits of the Stars. Mr. Edwin Booth only fails to stand at the head of the list of American money-making actors this season for the reason that he would not act more than twenty weeks of the season. His average receipts during the season were \$700 a night, or a total of over \$90,000.

Next year he is paid \$150,000 for 200 nights, but he will have to work a great deal harder, for Mr. Lawrence Barrett intends to get all that there is out of it.

Next to Mr. Booth in the proportion made, but first in the actual amount, comes Mary Anderson. She will not see less than \$100,000 as her profits of the present tour. Her tour is 30 weeks of the gross receipts. The best week she played to was \$15,000 in Philadelphia, which would give her very nearly \$5,000 for her share, but of course this was exceptional. The business has averaged probably about \$10,000 a week, and the season lasts about thirty-two weeks.

Strange to say, Miss Anderson is disappointed at the end of the season, for when she first came, it will be remembered, seats were put at \$3.50 apiece, but very wisely and discreetly dropped to \$1.50, which she has been playing to all over the country.

Mr. Joseph Jefferson, who is one of the money-making stars, also cut his season quite short this year. He acted for about sixteen weeks, and there was no single week of that time that he did not make over \$2,000 for his own share.

Lotta has not been doing as well this year as in the past. The public insist upon taking her to be a prima donna, and there is a material decrease in receipts compared with what used to be her record. She works away as hard as ever, though, and is as anxious for the excitement of the stage. The really good reason for her continuing this hard life when she has a fortune in her own hands already of fully \$75,000.

Mr. Barrett will not make much money this year. The defection of Louis James and Maria Walwright gave him a bad blow from which he has not recovered, and it is very likely he will end his season only a trifle better off than at its beginning.

Maggie Mitchell is still piling up the duets. She has had some phenomenal business at certain places, and is yet one of the most popular stars before the public. This in spite of the fact that she started a good many years before Lotta. She is a tough little woman, who looks almost as well to-day as ten years ago.

Carrie Davenport has had a good season of it. The fact of engaging Mailliard has aided her very largely. It is a poor week when Miss Davenport's profits are not \$1,500, and very often they go as high as \$2,000.

Salvini will take away from the country about \$10,000. It is reckoned by one of his intimates that out of the \$10,000 more than \$1,300 will stick here.

There is a new pest for western farmers to fight in the shape of a yellow worm which develops into a black fly about the eighth of an inch in length. It is very thrifty in some parts of the Willamette Valley, Oregon. The insect is known to entomologists as the "wheat isosoma." It has appeared in Kentucky, Illinois and Missouri. There is only one breed a year.

Mr. I. B. Nixon, Cashier of First National Bank of Sing Sing, N. Y., suffered greatly from Costiveness and Dyspepsia, due to overwork and want of regular exercise. After wasting much time and money in seeking a remedy, he began taking the old reliable Brandeth's Pills, two every night for three weeks. He now has a good appetite and regular digestion, and will answer any written or personal inquiry regarding his remarkable cure.

THE FIELD OF INDUSTRY.

Troy carpenters have gained the eight hour day and 30 cents per hour.

In St. Louis quite a number of industries have adopted the eight or nine hour day.

Cincinnati is spending \$4,000,000 in repaving her streets, mostly with granite pavement.

Marathon pipe and foundry works are to be erected at Chattanooga, Tenn., which will give employment to 600 men.

A separate federation, similar to the Knights of Labor and working in harmony with it, is to be established in Great Britain.

A gas and oil company has been organized in Pittsburgh to develop a belt of nearly 11,000 acres of gas and oil land in Allegheny and Washington counties, Western Pennsylvania.

Notwithstanding the depressing effect of labor agitation upon the industries, the New England boot and shoe manufacturers have manufactured and shipped 3,500,000 more pairs of shoes so far this year than last year.

Even if times are hard people will not go without shoes. Last week 55,000 boxes of boots and shoes were sent from Boston to the west and south.

How Trade is Hurt. Trade is hurt more by the apprehension of mischief than by the actual extent of it.

Omaha has some on the list. It is passing strange that no relative of Miss Folsom has been discovered in Chicago. Aspirants for federal office are catching on very generally in other towns.

Fully Accounted For. A New York gentleman who has visited Washington says it seemed like a section of Manhattan Island or Albany or Buffalo, so many of the faces on the streets and behind the desks and counters were familiar to him.

They've Come to Stay. These unions among workmen have come to stay. Every employer must take them into account and it is folly to attempt to combat the feeling which leads to their formation.

Yankee Doodle Should be Resurrected. Isn't it about time to have a little renaissance of Yankee Doodle in this country? What with socialism, nihilism, anarchism, boycottism, strikeism, etc., it seems as if the great original idea of "life, liberty and the pursuit of happiness" was being snuffed out.
