

THE KNEAVELS BILL PASSES.

Endorsement by the Senate of the Measure and Van Wyck's Amendments.

AGRICULTURE AND LABOR.

The House Adopts the Bill Creating the New Department—Long Discussion Regarding the Bureau of Animal Industry.

Senate.

WASHINGTON, Jan. 11.—The committee on Indian affairs reported back with amendments to the house bill granting to the Fed. Minnneapolis & Manitoba Railroad company right of way through Indian reservations in northern Montana and northwestern Dakota.

The committee on military affairs reported a bill for the relief of telegraph operators during the war.

On motion of Mr. Manderson the house bill for the relief of settlers and purchasers of lands on the public domain in Nebraska and Kansas was taken up and considered, the question being on the substitute reported by the committee on public lands.

The inter-state commerce bill was taken up and Mr. Harris, one of the three senate conferees, made an amendment to the bill.

Mr. McPherson contended that if the local freight rate is made reasonable the natural and inevitable consequence is that the through rate will be made greater.

Mr. Callom repeated the notice heretofore given by him that he would ask the senate to adjourn to-morrow till the bill was disposed of.

House.

WASHINGTON, Jan. 11.—On motion of Mr. Brazg of Wisconsin the senate amendments were concurred in by the bill providing for a school of instruction for cavalry and light artillery.

The river and harbor appropriation bill was reported back and was referred to the committee of the whole.

On motion of Mr. Caswell of Wisconsin Wednesday, February 9, at 3 o'clock, was set apart for consideration of resolutions touching the death of William T. Price, late representative from Wisconsin.

Mr. Hepburn of Iowa moved to reduce this matter amount to \$300,000. The city, he declared, was in debt, and in support of his assertion he stated that between 1850 and 1880 the population had increased only 1,700, while between the same periods the government receipts from all sources had fallen off.

Mr. Hepburn's statement was not far from the truth. In the period between 1850 and 1880 Charleston had passed through all the misfortunes of a city of 20,000 people. In 1850 the city was a grass field growing in the streets. As he did not wish to imperil the bill he asked the committee to suspend the rules and to pass the bill as amended.

There should be a number of bills the house adjourned until 2:30 p. m. Upon reconvening the house, at 2:35 p. m., passed the bill creating the department of agriculture and animal industry.

The bill provides that there shall be at the seat of government an executive department to be known as the department of agriculture and animal industry, under control of a secretary of agriculture and labor and an assistant secretary of agriculture and labor.

Mr. Herbert of Alabama then called up the bill for the relief of telegraph operators during the war, but it was not taken up.

Mr. Hatch of Utah introduced a bill for the relief of telegraph operators during the war, but it was not taken up.

Mr. Hatch of Utah introduced a bill for the relief of telegraph operators during the war, but it was not taken up.

be paid now to prevent violations of the law. A single school book for free distribution in matter of equity it would be equally logical to ask the government to reimburse farmers for the loss of their crops by cyclones, birds, rot or any other cause, because such crops were the dependence of the family.

STATE LEGISLATURES.

Proceedings in the Illinois Senate and House Yesterday.

SPRINGFIELD, Ill., Jan. 11.—In the senate a resolution was adopted providing for the appointment of a committee of three members to inquire into the causes leading to the death of Fannie Charlton, who died this winter at the deaf and dumb asylum at Jacksonville from exposure to the cold.

A bill was introduced by Chapman providing for the employment of convier labor in making school books for free distribution among those entitled to admission to the public schools, and asking for an appropriation of \$25,000.

In the house of representatives a resolution of respect in honor of the late Judge Rodgers, of Chicago, was adopted by a rising vote. A preamble and joint resolution touching on the life and services of David Rodgers, was adopted in the same manner.

Mr. Litter, providing for an appropriation of \$15,000 for the contingent expenses of the general assembly; by Crafts, to empower trustees of schools to lay out and dedicate for street and highway purposes any portion of school lands for the public benefit;

Mr. Archer, to strike out the disability against married women from the statute relating to limitations of all kinds; by Bogardus, to authorize the appointment of an agent in Washington to attend to the claims of Illinois soldiers and sailors; by Bogardus, relating to the study of hygiene and physiology in the public schools, and the creation of a bureau of instruction as to the effects of alcoholic beverages; by Bradshaw, providing for rooms in the city of Chicago for the use of a sewer, relating to the election of a justice of the peace and the method of appeal from justices' courts to circuit courts; by Hubbard, to extend the jurisdiction of county courts, and amending the law regulating appeals from county courts to circuit courts; by Collins, to amend the law relating to cruelty to animals.

Mr. Cadden introduced a bill which would increase through rates because through rates are too low in proportion to local rates.

Mr. Callom repeated the notice heretofore given by him that he would ask the senate to adjourn to-morrow till the bill was disposed of.

House.

THE PACIFIC FUNDING BILL.

A Lively Time in the House of Representatives Over the Measure.

MRS. CLEVELAND'S RECEPTION.

The Percentage of Measures to Be Considered By This Congress the Smallest in Years—National Capital News.

Consideration Postponed.

WASHINGTON, Jan. 11.—(Special Telegram to the Bee.)—Twenty-three times in the house for half an hour this afternoon over the Pacific railroad funding bill. An opportunity was offered for forcing consideration of this measure, but its friends saw that it could not be completed within the time which would be given it, and even the short talk on it would take from the position it occupies on the calendar, and so its friends fought off its consideration, while they who desired its defeat tried to take it up.

At an early hour this morning the house adjourned to the mansion room of the \$200,000 residence of Prof. Graham Bell, the telephone inventor, situated on Rhode Island avenue, Scott circle. The room was crowded with guests and flooded. Many thousands of dollars worth of furniture and books and models worth almost as much were packed in the room.

be in the mesh he is. These sort of statements do not help him at all. The fact is that Lieutenant Humphreys married a woman whom the ladies at thearrison declined to receive, and she was driven out of the camp. A disagreeable case of ostracism in respect to her, and her husband, was continued until it became necessary to call a court-martial to settle it.

THE STOCK MARKET.

Light Business at Lower Prices on the New York Stock Market.

CHICAGO, Jan. 11.—(Special Telegram to the Bee.)—The stock market opened rather firm today, but the tempo of speculation was not strong enough to cause any advance of moment. The only general conviction in regard to the market seemed to be that no movement of importance would take place until some action has been taken on the inter-state commerce bill.

It was claimed, however, that London houses were averse to carrying heavy lines of American stocks in the present condition of the English money market, and would advise their clients against loading up too heavily.

The strike among employees of the coal roads was said to be causing a heavy falling off in the earnings of Jersey Central. Bulls on the market, however, were still quite confident of much higher prices. It was rumored that one strong wing of the bull party had realized, and the fact that the remaining lots in it were trying to get out without attracting attention.
