During the democratic and republican conventions THE BEE will print more complete telegraphic reports from both St. Louis and Chicago than any paper in the west.

In spite of reports, it is very evident that the Irish are still holding Ireland.

No sooner does Emperor Frederick become better than Chancellor Bismarck becomes worse.

THE socialists will get some comfort from the democratic convention. The red bandana is on top for good.

MEMBERS of congress trying to patch up a tariff bill and read convention reports at the same time make a sorry mess of it.

THE unanimous choice of Grover Cleveland for president by no means interferes with the claims of Jeff Davis to the silver crown presented to him a few days ago.

THE mikado of Japan has forbidden base ball, under heavy penalties, being played in his empire. He must have seen a game in Kansas City between its two nines.

DULLNESS in the stock market in Wall street is so oppressive that one can almost imagine the brokers on 'change to be members of the Hill democrats at St. Louis waiting for something to turn up.

PENNSYLVANIA iron manufacturers announce a cut of 10 per cent in the wages of their iron workers, to take effect this week.

NEW YORK'S novel plan of dividing the support of its delegates between four vice-presidential nominees presents an easy way of getting out of a tight box.

MR. HENRY VILLARD of Northern Pacific fame has finally consented to interest himself in the south pole.

THE republic of Mexico is passing through the throes of a presidential canvass. A monster political demonstration was made in the City of Mexico by twenty thousand workmen in favor of the re-election of President Diaz.

THE only return which we are promised for favoring this bill to continue the exorbitant trans-Missouri tolls for fifty years longer is the construction of new branches to the Union Pacific system.

WHERE these branches will be built is problematic. Ten chances to one they will be built in Kansas and Colorado for the benefit of Kansas City, where the Boston managers of the Union Pacific have extensive personal investments.

Cleveland Has It. The first part of the programme at St. Louis has been carried out. Grover Cleveland was yesterday renominated by acclamation, with all the accessories of demonstrative enthusiasm, as if the convention had done some unexpected thing of surpassing significance.

There was no encouragement for the democracy in the result of the Oregon election. The party had undoubtedly expected a different outcome. The campaign was made on national issues, and the influence of the administration was thrown into the scale to the fullest extent practicable.

There is a moral influence in this republican victory, by an increased majority, at this juncture, which is of very substantial value. Its effect upon republicans everywhere will be reassuring.

Clinton is placed on the list of towns wanting a union depot. The terra cotta factory at Muscatine is expected to be sold.

Friday evening the police raided the saloons of Cedar Rapids, finding in five places 169 bottles of beer. A scheme is being made in Dubuque to secure a club of 100 strong to go to Chicago at the time of the republican convention.

WILLIE MORTON was calmly laying out a park in Nebraska City—his gift to the town—Mr. Boyd was energetically laying out Morton as a politician. And now that Boyd is on top in the St. Louis convention, the high water of his enthusiasm has again widened the breach between the slaughter-house and packing-house statesmen.

It is getting late in the season for Chairman Balcombe to "order" contractors to begin work on paving and curbing streets, the contracts of which had been let in 1887.

They mourn for Jeff Davis. Every Missouri colonel should wear crapes on his left arm for thirty days in memory of Old 1863.

Reduce the Tariff. The republican party might as well shut up shop if it decides to encourage national extravagance as the only remedy for the results of unnecessary taxation.

Not Doubtful. Just what the prohibitionist idea is in being vice president from Kentucky is not clear. Certainly Kentucky is not a doubtful state. So far as the whisky question is concerned.

He Takes Down the Sign. "Daniel" remarked the president this morning, in a reflective mood, as he finished reading an able editorial in the National Republican, "Daniel."

M. E. Stevens Conference. Mr. J. M. Davis, of this city, is in receipt of a letter from the Rev. James Shaw, now of Bloomington, Ill., one of the leading preachers in the Illinois conference.

turn is broken contracts and unredempted pledges. If the managers of the Union Pacific had lived up to their obligations to this city, its population to-day would be double what it is, and the road would have the benefit of the traffic of a great city.

dead man and who paid \$45 of the latter's money to the undertaker, brought the missing gentleman forward a few hours after the announcement was put on the streets. He claims that he got the money in question from the sisters in the hospital, the same having been given them by Murray when he entered the institution. The sister supposed O'Neill was a friend of the dead man and returned the money so that it might eventually reach those who had been the cause to it or that it might be used in defraying the expenses of Murray's burial.

Some of the Quacks and Hangers That Infect the City—Advertising Doctors in General.

"It would astonish you," remarked a citizen one week ago, "if you knew the number of quacks doctors, jugglers, fortune tellers, clairvoyants and conductors of snake-oil and schoolboy physicians in Omaha. The law prohibits the sale of snake-oil, but it is sold by purchasing bogus certificates that are allowed to be brought into the city by the mail."
