

HAYDEN BROS' COMPULSORY MOVING SALE

We must vacate our annex at once. The plasterers, carpenters and plumbers are waiting on us; we have no place to store this immense stock. On Monday morning we will commence the greatest clearing sale of Dry Goods, etc., ever held in the United States; cost will cut no figure, the stock must be disposed of. To our many customers in the surrounding suburbs: It will pay you to attend this extraordinary compulsory sale.

SUMMER DRESS GOODS.

To see our immense stock of wash dress goods it would seem almost impossible to move it in so short a time, but we are forced to move out of this new building and make room for the carpenters and plasterers. Low prices rule in this department. Tomorrow we place on sale at the reduced price 5,000 yards fine satens, a beautiful line of colors to select from, at 5c yard; only one dress pattern to each customer at 5c yard. 2,000 yards of Norway dress gingham 5c yard. 3,000 yards of Aveyron cloth 12c. If you should burst a length we will refund you your money. This hose has never been sold any less than 17c per foot. All we were able to get of this hose was 10,000 feet. The 10c per foot includes couplings and all ready for use.

Peerless Refrigerators.

The Peerless Refrigerators are made of oak, antique finish, mineral fibre filling. They are made open to allow a perfect circulation of dry cold air. The construction of the upper horizontal lid is such that it can be opened or closed at any time. This is an important new device not employed in any other refrigerator, and is patented. The space between the outer and inner cases is filled closely with a mineral fibre which is superior for this purpose to anything ever before used. Other makers use saw-dust or charcoal as a filling or leave the space empty. The saw-dust will rot and decay, the charcoal will settle and leave blank spaces here and there. The mineral fibre in the Peerless will never settle or shake out; it is colorless, odorless and indestructible by heat or even fire; vermin or germ cannot exist in it; it is a non-conductor of heat it is double that of charcoal and greater than that of any known substance. The Peerless is the only refrigerator using mineral fibre filling, giving you the best refrigerator made in the world for the least money. Our No. 1—\$8.50; all other makes of the same size sell from \$12 to \$14. Our No. 2—\$10; all other makes of the same size sell from \$15 to \$18.
