Notary Public.

MINNEAPOLIS will make a strong bid for the next republican convention.

REPORTS FROM KANSAS, especially the northern tier of counties, are very encouraging for a large crop.

MERELY by way of reminiscence it is stated that the Florida senatorial contest is still unsettled.

PLUTOCRAT SENATOR LELAND STANFORD aspires to become the peoples' candidate for president.

The Chinese minister to Paris and London is said to be "fast" in the financial world.

The district court of Lancaster county decides that Patrick Egan must pay his subscription to the St. Theresa cathedral.

The Chicago Herald in discussing Chairman Terry's speech on the silver question at Denver hits the nail squarely on the head when it says, "owners of bullion, whether of gold or silver, have no vested rights."

BRAZIL promises to furnish the next unhappy example of a fiat currency.

PROF. BRUCE, who made his great record in America by his "American Commonwealth," has found space in the London Speaker to speak with the most caustic disrespect in regard to Secretary Blaine.

PLINY HOISES, by the help of the Indian Rights association, is making a game fight for his liberty at Sioux Falls, S. D.

SENATOR PEPPER, who has the inside track for the independent nomination for the presidency, is quite frank in admitting that the independents will not win in 1892.

EASTERN newspapers are giving greater prominence to the free coinage resolution of the Denver congress than the facts in regard to its adoption warrant.

DAVID BUTLER. The death of David Butler removes from life one of the rugged pioneers who helped to lay the foundations of this commonwealth.

A self-made man in the fullest sense of the word, David Butler rose from the poor plowboy to the governorship of this state by the sheer exertion of irresistible will-power, coupled with natural talents of no mean order.

David Butler's public career would have doubtless raised him to the highest position within the gift of the people of this state had he not succumbed to the pernicious influences of political associates who imposed upon his inauspicious generosity and led him astray from the path of duty.

CLEMENCY TO CRIMINALS. In the Fremont jail two murderers await execution under sentence of death for the crime of murdering a neighbor for money.

THE ORIGINAL PACKAGE DECISION. The decision of the supreme court of the United States affirming the validity and constitutionality of the original package law passed by the last congress, establishes some important principles hitherto in doubt or in dispute.

THE PURCHASE OF THE SALT LAKE HERALD by a democratic syndicate probably means that the gentiles will no longer form a distinct party in opposition to the Mormons.

THE KANSAS GENTILEMAN with whiskers who draws pay as the successor of John J. Ingalls deliberately told the aggregated disconcert at Cincinnati that there are 9,000,000 farmers in the union loaded with mortgages.

THE STATE BOARD OF TRANSPORTATION can not afford to allow the Doty statement to remain uncontradicted.

LESS than two weeks remain in which to complete the assessment rolls of the city. Millions of dollars' worth of personal property will not be levied upon next year because it has not been found by the assessors.

OMAHA will give General Benjamin Butterworth a cordial welcome to her citizenship, should the business of the company which himself and five Omaha citizens have incorporated, require him to reside here.

THE DIRECTORS of the Bank of England contemplate a complete organization of the banking system of the country making subsidiary joint stock banks.

SO long as Omaha consents to the ridiculously low assessed valuation of property in the city, just so long will capital flight shyness men. Of the east who loan money at four to six per cent per annum do not take kindly to the idea of paying a six per cent tax on permanent investments.

WHY is it that nearly every office holder in the city and county carries an annual pass good on all lines of the Omaha street railway company?

TAX-SHIRKING corporations exhibit no uneasiness over the fact that the assessors are already turning in their assessment rolls.

HEREAFTER it will be contempt of court to exchange hats in Judge Dandy's forum.

precious metals could be furnished. The output of gold after paying the enormous cost of transportation to the railroad. The tribute levied by primitive transportation companies was a severe drain on the resources of the people.

The opening of these highways to the heart of trade and industry places the Black Hills on the high road to prosperity. The effect is already apparent in the confidence displayed, the activity prevalent in the mining camps and vigorous energy shown in the development of mines and reduction of minerals heretofore untouched.

Prominent among the mineral resources of the Hills are the vast deposits of tin ore. To the outside world the extent and importance of these deposits were practically unknown until South Dakota became a sovereign state.

The resources of the Hills are not limited to the metals. It is self-sustaining agriculturally and borders on a vast area of grazing land capable of supplying the wants of several million beef eaters.

Officials of State Institutions Called Down for Unprompting Authority.

GUARDING AGAINST A DEFICIENCY.

Work of the State Relief Commission Drawing to a Close—The Last Order for Supplies—State House Notes.

LINCOLN, Neb., May 26. [Special to THE BEE.]—Officials of state institutions who may think they have a license to run affairs with a free and easy management should consult the new board of state institutions and buildings before contracting any debts without positive authority.

The law provides that certain supplies shall be bought on contract after bids have been advertised for, and for other articles there must be an order of the board. The Hastings steward has set aside both provisions. The board has not only objects to his usurping authority, but it doesn't like the looks of his account.
