

AN THEY BE IMPEACHED?

Ability of Ex-Officials Under Charge of Misdoings in Hill's Case Commenced

ARGUMENTS IN HILL'S CASE COMMENCED

Judge Broadly Supports His Contentions that the Court Has No Jurisdiction—Judge Found Reasons—Preparing to Push the Other Cases.

LANSING, Neb., April 24.—[Special Telegram to The Bee.]—There was an imposing array of legal talent at the supreme court this afternoon to listen to the argument of the question as to whether or not an ex-official could be impeached under the constitution of Nebraska. Judge Broadly and J. Ames of Lincoln, Attorney General Hastings, Hon. G. M. Lamberton and Hon. W. Greene were there on behalf of the managers of impeachment. The interested officials and ex-officials were represented by the following: Ex-State Treasurer Hill by Judge J. H. Broadly of Lincoln; ex-Attorney General Lasse by J. M. Stewart of Lincoln; ex-Auditor Bentzen by R. D. Stearns and J. J. Ames of Lincoln; Attorney General Hastings by J. R. Webster of Lincoln; Commissioner of Public Lands and Buildings Humphrey by Judge M. L. Hayward of Nebraska City; Secretary of State Allen by John L. Webster of Omaha.

Objects to Jurisdiction.

In his plea to the jurisdiction of the supreme court, sitting as a court of impeachment, Judge Broadly, as the attorney for ex-Treasurer Hill, set forth that the court should take no further cognizance of the articles of impeachment because at the time the articles were adopted, as well as at the time of the institution of the investigation which led up to the impeachment, J. E. Hill was not an officer of the state of Nebraska. In his replication the managers of impeachment say that the matters alleged in Hill's plea to the jurisdiction of the court are not sufficient to exempt Hill from answering the said articles of impeachment, because at the time all the acts charged in the articles of impeachment were committed, Hill was state treasurer and by virtue of his office a member of the Board of Public Lands and Buildings, and therefore under the constitution of Nebraska the legislature has power to prefer the articles of impeachment and the supreme court full and complete power to try the same.

Ohio Coal Companies Assn.

Liabilities of One Concern, \$500,000, Indebtedness of Other Concerns.

COLUMBUS, O., April 24.—[Special Telegram to The Bee.]—The Ohio Coal Companies Assn. has just received from the Ohio Coal Exchange company of Chicago, and the Crescent Coal company of Columbus, O., a statement of the liabilities of the Ohio Coal Exchange company are given at \$500,000. Of this sum \$450,000 is an indirect liability, caused by endorsing and having discounted notes received from the exchange company. The balance of \$50,000 is a direct liability. L. R. Doty of Chicago is president of this company. James D. Harris of Chicago vice president, and John W. Harris of Chicago treasurer. This company has a paid-up capital stock of \$500,000. The company did not have a single cent of assets when it was thrown into receivership by the Ohio Coal Exchange of Columbus and the Ohio Coal Exchange company of Chicago, because the latter had previously found a claim of \$110,000, the owner of the land having seized the mining machinery under the provisions of the law. The receiver, Mr. Mauck, is the secretary-treasurer of the company. The assets and liabilities of this company were not disclosed, but Mr. Mauck says the failure will be a complete one.

Other Business Troubles.

NEW YORK, April 24.—Judgments aggregating \$100,000 have been entered against Rouse Bros., one of the oldest and largest firms of this city. Debts, about \$300,000. Cause of trouble, financial stringency. The assets of Rouse Bros. are estimated at \$300,000. There have been placed in the sheriff's hands against the New York branch of Benjamin McLean & Co., wholesale dealers in general stores, at St. Laurent, have failed. Liabilities, \$83,000.

Narrowly Escaped Destruction.

Union Pacific Depot at Cheyenne Considerably Scored.

CHEYENNE, Wyo., April 24.—[Special Telegram to The Bee.]—The \$100,000 depot of the Union Pacific at this place narrowly escaped destruction today from fire. A blaze started in the rear of the depot, and in a few minutes the case and the city fire department had a sharp fight to get it under control. The loss was slight.

Shivering Samois Enroute to the Fair.

CHEYENNE, Wyo., April 24.—[Special Telegram to The Bee.]—The Samois, bound on board nineteen natives of Samois, bound for Chicago, in charge of W. S. Moore, a Samois city will be built in Chicago. On a flat car was a box fifty-four feet long by six feet wide and six feet high, and was filled with iron. The hull is of hard pine, and is water-tight and air-tight and will hold forty men. The natives were shivering with cold and invariably objecting to the trip.

Reported K-Hot by Navajos.

SANTA FE, N. M., April 24.—Governor Thornton today received a dispatch from Sheriff Dustin in San Joaquin county calling for assistance and reporting that a prominent citizen had been killed by the Navajoes. The governor immediately offered a reward of \$100 for the arrest of the murderers and wired Lieutenant Plummer, agent in charge of the reservation, to keep the Navajos on the reservation and to investigate the case.

Judge Metz May Serve.

CHEYENNE, Wyo., April 24.—[Special Telegram to The Bee.]—In the case of Johnson county against W. S. Metz, judge of the Fourth judicial district, the supreme court today decided in favor of the defendant. The case was brought to test the constitutionality of the act creating a new judicial district, and Judge Metz was appointed judge of that district. Metz is a resident of Cheyenne, and is a member of the bar.

Old Liberty Bell on Its Journey.

PHILADELPHIA, Pa., April 24.—The old liberty bell was placed on a specially constructed truck this morning and escorted by the Philadelphia contingent of the National guard of Pennsylvania to the Pennsylvania depot, whence it will start on its journey to New York. The bell is being transported in a specially constructed truck, and is being guarded by a detachment of the National guard.

Edwin Booth Heter.

NEW YORK, April 24.—Edwin Booth was better this afternoon. His physician, after a day, appeared more cheerful than before. "Booth is doing well," he said. "He has recovered the use of his right arm and leg. The muscles of his face have relaxed somewhat and his eyes are clearer. I think the immediate danger of his death has passed, but, of course, there are still grave fears."

Midnight—At this hour the physician said to his belief that Mr. Booth will recover from his present attack.

Judge Pound's Reply.

Judge Pound, on behalf of the managers of impeachment, contended his argument in reply to Judge Broadly at 4:30. In opening his argument he referred to a writ which immediately he issued to keep the members of the court from leaving the building, and reminded his opponent that all branches of the law had advanced. He failed to understand his friend, Judge Broadly, when the latter argued that because

Will Defeat Prohibition

Iowa Republicans Determined to Repeal the Present Liquor Law.

HOW THE CAMPAIGN WILL BE FOUGHT

Indications that the State Convention Will Be Controlled by the Liberal Element—One of the Features of the Approaching Contest.

DES MOINES, Ia., April 24.—[Special to The Bee.]—The death knell of the prohibitory liquor law has been sounded, and its repeal by the next legislature is almost a foregone conclusion. This result has been brought about by a variety of causes, but chiefly by the failure to enforce the law in the large cities and the interference of the prohibitionists of the so-called third party prohibitionists.

Des Moines, Ia., April 24.—[Special to The Bee.]

Whether repeal will be carried by the active assistance or mere passive assent of the republican party is an interesting question and one which threatens, unless wise counsels prevail, to split the party. The radical prohibition element in the republican party is fast crystallizing around the resubmission idea and will only agree to a resubmission of the present liquor law as a condition of the repeal of the law. A new vote is taken on the question of enacting a prohibitory liquor law in the original form of the law, and the result of the same question that was voted on in 1882 and adopted at that time by about 30,000 majority.

What Holes' Election Signifies.

Should the party adopt this policy at its coming convention and make a winning fight on this platform, a vote on the question—whether to have a first or second year legislature—could not be reached for three years, and no change could be effected in the present law until 1898. The liberal element in the republican party is being an indirect way of fastening prohibition upon the state for the half of another decade. They insist that the election of Lincoln in succession to the republican party, while making a fight squarely on this one issue, is ample proof that the people are tired of prohibition, and are demanding a change to some other method of regulating the liquor traffic.

Reynolds' Murderer Not Captured.

CHESTER, Mo., April 24.—[Special Telegram to The Bee.]—In the preliminary examination of James Pease, charged with being an accessory to the murder of Thomas Reynolds, witnesses testified that Pease threatened the life of the murderer, and that, at the residence the tragedy occurred, Pease threatened to consume most of tomorrow. It is generally conceded that Pease is innocent. The murderer, David Ferris, has not been captured.

How the Legislature Will Sit.

Even if the prohibition banner should still wave from the head of the parade in the coming campaign a glance at the probable make-up of the legislature shows that its composition is not so favorable to the prohibitionists as it was in the last session. The situation is somewhat complicated by the fact that a United States senator to succeed James T. Wilson is to be elected. Many republicans are anxious to support the prohibition, but hesitate long before giving the democrats a vote for a member of the legislature, if being in a position to vote for Boies for the United States senate.

People's Party Not Considered.

No consideration has been given in this article to the so-called people's party, as it will not likely carry more than the one district over to the right, and its union by fusion with the democrats, with whom the member always votes on important questions.

Gun Down by a Switch Engine.

CRAWFORD, Ia., April 24.—[Special Telegram to The Bee.]—Christ Kraft, a young Norwegian in the employ of a milk dairy, while crossing the railroad track at a avenue at noon today, was run down by a switch engine making a home cut and cut to pieces.

Dr. Ristine Dying.

CRAWFORD, Ia., April 24.—[Special Telegram to The Bee.]—Word was received here today that Doctor Henry Ristine, one of the most prominent physicians of this city, was lying at Pass Christian, Miss. He has been in a critical condition for months.

CALVIN, MURDERER AND SCOUNDREL.

Minister of Troy, N. Y., So Characterizes the Great Reformer.

TROY, N. Y., April 24.—A meeting of the Troy Presbytery held today discussed the overtures handed in by the general assembly. During the discussion Rev. P. S. Swain said that Calvin was a Calvinist, a Calvinist, and said: "I do not like the idea of Calvinism. Calvin was a murderer and a scoundrel. He said many good things and some will accept, but the church should be the exponent of the gospel and not of Calvinism."

TO EDUCATE THE MASSES.

General Weaver's Plan to Establish an Independent School of Political Science.

DES MOINES, Ia., April 24.—[Special Telegram to The Bee.]—General J. B. Weaver, candidate of the people's party for president, has issued a circular, in which he says in part: "Every patriotic citizen whose mind is awake to the necessity of economic reform in the United States is painfully aware of the great lack of means through which to reach the minds of the people. They realize that the adversaries of human liberty—those who would rob and enslave the world—are but handicapped and have the attention and control of the masses of the people. They control the best trained intellects and most of the colleges and universities of the country. So great is the power of this state craft that a half dozen men, by their thrust into power can, by a majority of a legislative body which is really bent on honest service to the people, once the overshadowing necessity for general, thorough

and correct instruction of the great body of the people upon economic questions and the grave duties of citizenship must be apparent to all.

Union Pacific Strike Ended

Iron Workers Will Go Back to Work This Morning.

MUCH GRATIFIED AT THEIR SUCCESS

Yesterday's Conference Resulted in a Compromise, the Details of Which Are Withheld Until Approved by President Clark.

AT 7 o'clock last evening it was announced that the Union Pacific iron workers' strike had been satisfactorily settled and that after one week of idleness and anxiety the men would go back to their families and lazes this morning. The exact details of the agreement will not be made public until after they have been officially approved by President Clark, but there is no question but that the action of his representatives will receive his sanction.

Assaulted a Young Lady.

BEATRICE, Neb., April 24.—[Special Telegram to The Bee.]—This evening about 9 o'clock Jim Jones, a negro employed as third cook at the Paddock house, insulted Jennie Williams, a dining room girl employed in the same house. Miss Williams resented the insult and the man, who was drunk, made a terrible blow in the face, knocking her down, breaking her nose and otherwise seriously injuring her. Upon the affair being made public a large crowd gathered and threats of severe punishment were made. Officers Randall and Spain arrested Jones and took him to the jail, where he will have a hearing in the morning.

Were Worry of Life.

LENOX, Ia., April 24.—[Special Telegram to The Bee.]—C. Wooster, a prominent farmer, who lived near here, committed today by cutting his throat. He had been for some time afflicted with some financial losses recently and was despondent.

White Waiting for News.

At the shops at 5 o'clock it was announced that nothing important had taken place during the strike. The men were waiting for their time, two of whom were bosses and one of whom had been in the employ of the company for ten years. They had been asked to return to work and had preferred rather to quit than to do so.

Chicago Carpenters Strike a Fizzle.

CHICAGO, Ill., April 24.—The strike of carpenters ordered yesterday turned out a fizzle. Not one-tenth of the men expected to go out left work and many of these went back to work before the day was over. At the World's fair, where the walking delegates claimed at least 2,000 men would go out, the strike was not felt in the slightest degree. The men were making money and were making too much money to quit on the order of the walking delegates. The strike was practically over by evening and there will be no more news of it.

Received with Happy Shouts.

AT 6:30 p. m. the conference at headquarters broke up and the members of the executive board proceeded to town. Superintendent McGinnis and Harry Easton went to the Millard to see President Clark, but found him temporarily out, and the board proceeded to Gate City hall. As President McGinnis was leaving the hall he was followed and so soon as he announced the result of the conference a mighty shout arose that shook the building to its foundations. The crowd came pouring in, and the men gathered and gathered in little groups, shook each other's hands long and often and chattered and chattered as if they had never known a care. The members of the executive board were the heroes of the hour and had such an impromptu reception as they made their way to the hotel. The men had all been told that an agreement had been reached, that everything was harmonious, and that they should all go to work by this morning.

Missouri Moved by a Cyclone—Details Menager—Nobody Reported Killed.

KANSAS CITY, Mo., April 24.—A regular twister swooped down on Independence, Mo., at 4 o'clock this afternoon, doing lots of mischief, but miraculously causing no deaths. A green, ominous-looking cloud had been hovering over the city and the people, fearful that a deadly cyclone was to sweep over them, sought places of safety.
