

THE OMAHA DAILY BEE.

E. ROSEWATER, Editor. PUBLISHED EVERY MORNING.

TERMS OF SUBSCRIPTION. Daily Bee without Sunday One Year \$8.00. Daily and Sunday One Year 10.00.

Office: The Bee Building, Twenty-fourth street, South Omaha, corner N and S.

COOPERATION. All communications relating to news and editorial matters should be addressed to the Editor.

SWORN STATEMENT OF CIRCULATION. State of Nebraska, County of Douglas.

George B. Teschek, secretary of The Bee Publishing Company, does solemnly swear that the actual circulation of The Daily Bee for the week ending January 20, 1894, was as follows:

SOMETHING ought to drop today in the line of Nebraska federal appointments.

OFFERS for those 5 per cents are flowing in with gratifying rapidity.

CONGRESSMAN TOM JOHNSON disclaims being a philanthropist.

THERE is something a trifle suggestive in the number of ex-state officials and members of the legislature whose names appear upon the lists of purchasers of the state's saline land.

AGITATION for irrigation in northwest Nebraska is by no means dying out.

SALINE land lessees who succeeded in getting the most favorable appraisements are not losing much time in perfecting their titles as owners.

PRESIDENT PEIXOTO'S announcement that the triumph of the Brazilian government is a question of but a short time is becoming a trifle shopworn.

NEBRASKA is without a United States district attorney for the nonce, and in the middle of a term of court.

NEBRASKA'S federal brigade is as yet too small a contingent to cut much of a figure in next season's democratic campaign.

"CURRENT funds," as referred to in the state depository law, are waiting for an authoritative interpretation by the supreme court.

ANOTHER injunction against the operation of the new garbage contract has been asked for.

TWO VICTORIES by President Cleveland within a week is doing fairly well, but it is by no means up to the record set by him during his first term in the white house.

THE winter campaign, which has for its object the elevation of a professional politician to the clerkship of the supreme court, is making excellent progress.

A FRISKY and blippant kitten surnamed Bilyannin has been purring around the Nebraska dignitaries at Washington.

THE popular esteem in which George W. Childs, editor of the Philadelphia Public Ledger, is held by men of all parties in the United States, was emphasized by the many expressions of regret which followed the announcement of his recent illness.

PRESIDENT CLEVELAND'S veto of the New York and New Jersey bridge bill must be a rude shock to his most ardent admirers in the metropolis.

PROJECTED FINANCIAL PLANS.

As soon as the tariff bill is disposed of in the house next week the attention of that body will probably be directed to several financial plans which have been under consideration by committees and are ready to be submitted to the house.

The bill of Mr. Springer, chairman of the banking and currency committee, will doubtless be urged by its author at the very first opportunity.

The bill of Mr. Springer, chairman of the banking and currency committee, will doubtless be urged by its author at the very first opportunity.

Never before in the history of this country has congress received so many appeals from labor as have gone to that body within the past thirty days.

It is called to which congress ought to give heed, but there appears to be little promise that the party in control will do so.

It is called to which congress ought to give heed, but there appears to be little promise that the party in control will do so.

senate. There is at present in that body strong democratic opposition to the tariff bill and so shrewd an observer as Senator Sherman regards the fate of the measure in the senate as uncertain.

Looking backward is sometimes very interesting as well as instructive. We have just fished out of the scrap bag the following special from Washington to the Chicago Tribune under date of November 21, 1892:

Judge McVoy of Iowa, who has business here before the United States supreme court, believes that Hon. John S. Clarkson will be the successor of Senator Wilson from the Hawkeye state.

OMAHA has a magnificent market house and auditorium building by the end of this year if the project is given prompt consideration by the council and city authorities.

OMAHA is to have a huge sugar factory which is to be capitalized at \$700,000. This will be a great enterprise for Omaha, and it shows the pluck and spirit of her citizens.

land and his various chief clerks. The number of Nebraska now said to be on the federal pay roll is 110, leaving 142 good fat offices open, awaiting applications from the true blue democrats who fought and bled for Mr. Cleveland last November.

THE Metropolitan Union depot project is gradually assuming shape. It takes time and full discussion of the interests involved to mature an ordinance that would prove satisfactory to the incorporators, the railroad companies that are expected to become tenants in the depot and the city at large.

WE OBSERVE that the New York Sun discriminates in making quotations from democratic newspapers between those that it pleases to term "straight democrat" and "mugwump democrat."

THERE were just about three steerage passengers to every cabin passenger arriving by transatlantic steamships at the port of New York last year.

AMONG the Eskimos kissing is done by the rubbing of noses. The report that reaches us from Washington by way of Nebraska City would naturally create the impression that Secretary Morton and Senator Manderson have been making love to each other Eskimo fashion.

Not Visible to the Naked Eye. Washington News. Eighty-seven officers protect the congressmen from the people.

THE feud between Cleveland and the democratic senators is likely to prolong the services of a good many republicans in federal offices of one kind and another.

OMAHA is to have a huge sugar factory which is to be capitalized at \$700,000. This will be a great enterprise for Omaha, and it shows the pluck and spirit of her citizens.

If the Brazilian war is not soon squelched somebody will get hurt. A physical grip shattered the political grip of Senator Walthall.

THE deeds of the James boys continue a potent inspiration in St. Joe, Emulation flatters their memory. The spasmodic, plunging rod produced by the indicators that the meteoric line has been dangerously exceeded.

THE white house carefully exclude newspaper comment of the lease master order. If a copy of the lease should be fair or foul men obtain an audience with the president.

THE miners at Mendota, Mo., have been notified of an immediate reduction from 88 to 60 cents. The men are not organized.

THE Central Pacific railway has ordered the cessation for two weeks of mines at Almy, Wyo. This leaves every mine in the camp idle.

THE Elgin woolen factory, which five months ago reduced its force from 3,000 to 1,500 and put these on five days' work per week, has since further reduced a week's work to three days.

THE Elgin woolen factory, which five months ago reduced its force from 3,000 to 1,500 and put these on five days' work per week, has since further reduced a week's work to three days.

INDUSTRIAL REVIVAL.

The Sterling organ factory at Ansonia, Conn., started last week with 200 hands. Reduced wages, ranging from 10 to 20 per cent, is a marked feature of industrial reviv-

The Little Falls Knitting mill at Little Falls, N. Y., reopened last week and will run on full time. The Silgo, Penn., iron works started up last week as a nonunion plant.

The West Shore Knitting mill started up after a long shutdown, and also the rag factory of McCleary, Wallin & Crouse at Rock-wood, N. Y.

THE BOND ISSUE.

Denver Republican: Congress will prove recreant to its duty if it permits Secretary Carlisle to carry out his high-handed scheme to increase the bonded debt of the United States \$50,000,000 without due warrant of law.

Globe-Democrat (rep.): One serious objection to Carlisle's bond scheme is the fact that it provides for only \$50,000,000 when the deficit is likely to be very much larger than that by the end of the fiscal year, with a prospect of serious increase during all the rest of Cleveland's term.

Chicago Times (dem.): Congress should intervene to check this unwarrantable assumption of power by an administration which has more than once shamed its contempt for the legislative branch of the government.

BROWNING, KING & CO. The largest makers and shillers of fine clothes on Earth. Your money's worth or your money back. This picture has nothing to do with the fact that we are still giving 25% off on all our Men's Trousers. Neither has this, but it calls your attention. BROWNING, KING & CO., S. W. Cor. 15th and Douglas Sts.
