Clothing

Advertising for suckers by describing a high cost garment at a low price, knowing that it would be a snarl for the rakesucker on earth, is the old SPIDER AND FLY TRICK.

If the suckers complain, one firm in particular takes pains to tell them that other clothing houses have nothing but convict-made goods. As our clothing department is always mentioned in these malicious attacks, we wish now to repeat most emphatically what we have said before, that this report is false in every particular, and we still offer

\$100 Reward

for any article of convict-made goods that can be found in our house. It does not seem as though such absurd falsehoods would have any weight with an intelligent man or woman, but it is surprising to hear of the absurd rot that is made to take the place of competition. We are selling clothing on its merits, as good, well finished clothing, and it is impossible for us to be outdone in price, styles, quality, make or assortment of stock to select from.
