BALLOT FRAUDS PROVEN BEYOND A DOUBT

Report Refers to Holcomb's House Rent and Wolfe's Land Deal and Calls on Governor Poynter to Take Action.

The report of the senate investigating committee that was appointed by the last legislature has been completed and the document was yesterday forwarded to Governor Poynter. It embodies the history of the investigations substantiated as was published while the committee was in session and concludes with a dignified appeal to the governor to do his duty and punish the parties whose guilt is indicated.

The committee declares that the charges of fraud in connection with the account of the constitutional amendments have been sustained by the most conclusive evidence as well as by the appearance of the ballots themselves. It finds that ex-Governor Holcomb has misappropriated at least \$775 of the amount drawn by him on account of house rent during his term of office and recommends that the attorney general be instructed to take the necessary steps to recover the amount and return it to the treasury. The committee also comments with some severity on the action of the state officials in refusing to aid its members in their investigations.

Acting under the directions of Governor Poynter Lieutenant Governor Gilbert has refused to place the report of the senate investigating committee on file in the executive office. Senator Jacob R. Roche went from Omaha to Lincoln to see the attorney general and took it direct to the state house. The acting governor explained that he had been directed not to accept the report, but was willing to allow the senator to leave it in the office, to be disposed of when Governor Poynter returns to the state. Roche agreed to and the report is now in the chief executive's office, but is not an official filing.

In telling his story the bandit chief says he was asked by Major Jose Acosta of the Cuban army to help raid Mariel and was told that there was no danger in the enterprise. Riera says that he and his associates took him to the Cuban barracks, where the plot was arranged with Sergeant Formin of Acosta's regiment and five or six others. Arms were supplied the men and the telephone wire was cut by order of Acosta.

Major Auman, who was with the Thirteenth infantry at San Juan hill, is at present in command at Fort Porter under an order from the secretary of war issued April 1, 1899, directing him to take charge of the fort during the absence of the Thirteenth in the Philippines. As the orders of the secretary of war are believed to take precedence over the orders of General Miles the question is to be submitted to the War department as to who is actually in command of the post.

Several shots were exchanged and in the excitement Mrs. Cunnard had her jaw shattered. The mob finally secured the elders and rode off with them. Nothing has been seen of them since. The elders were driven out of two towns in Jasper county early in the week.

HALL'S MEN TAKE CALAMBA

Four Soldiers Killed and Twelve Wounded in Two Hours' Fight.

TWO OFFICERS SWIM RIVER UNDER FIRE

Soldiers Are Then Ferried Over, the Insurgents Fleeing Through the Hills—Gunboats Render Good Service.

MANILA, July 27.—7:40 p. m.—An expedition composed of troops from San Pedro Macati, Pasig and Morong, under Brigadier General R. H. Hall, yesterday captured Calamba, an important trading town on the south shore of Laguna de Bay.

There were two hours' sharp fighting, during which four soldiers were killed and twelve wounded. The trenches commanding the harbor were under water, but the swampiness of the land made the work harder. The troops boarded caecoes Tuesday night. The force comprised 400 of the Washington volunteers, 150 of the Fourth cavalry and two guns of the First artillery. These were ferried over, the insurgents fleeing through the hills—gunboats rendered good service.

The soldiers in and around Manila are now well housed in permanent quarters or nepe houses, which are built on a bamboo framework and are cool and dry. Even on the hottest days the soldiers are comfortable. The rains had not started in earnest when Captain Barker and Lieutenant Eberly sailed for Manila. It was well understood then that the rains would cut off the transport of supplies by rail and that it would be the reason for Lawton's abandoning San Isidro, there being a swamp between it and the railway that is impassable during the rains.

The only animal available for transportation during the wet weather is the water buffalo, but the army has utilized this docile beast for other purposes, having established a thriving vaccine farm on the outskirts of Manila and reaping a fine quality of virus from the buffalo calves.

TRAITOR FOR A GIRL'S SAKE

Oregon Volunteer Deserts His Comrades and is Shot in Trenches of the Philippines.

KANSAS CITY, July 27.—The Star today says: The tragic scene which attended the death of Corporal Leonard F. Hayes, America's only traitor in the Philippines, was witnessed by Sergeant George A. Lamarsh of Company H, Twentieth Kansas volunteers, now in this city. Sergeant Lamarsh went to the Philippines with the Second Oregon about fourteen months ago. Corporal Hayes, he says, became enamored of a Filipino beauty and deserting his comrades was placed in charge of a Filipino battery with the rank of lieutenant. He met his death almost in the first engagement in which he fought against his country. Speaking of this battle Sergeant Lamarsh said:

"We had charged the Filipinos, driving them back and killing and wounding many. Among the wounded left on the field we found Hayes, who was recognized by several of the boys. One of the soldiers of the Second Oregon drove his bayonet through the body of the wounded traitor and lifted him up above his head and held him there while the soldiers shot him. The body was thrown into a trench and the traitor was a dead Filipino. We would have treated him worse if we had known how."

CHARGE OF DESERTION TO FACE

Drink Leads a Young Soldier to Commit Most Grave Offense.

SAN FRANCISCO, July 27.—On board the transport Ohio, which with the Newport, sailed at midnight last night for the Philippines, was a young soldier who committed the most grave offense of desertion. He was a member of Company H, Fourth United States Infantry, manhandled and guarded, to be returned to Manila upon the charge of "desertion in the face of the enemy," the penalty for which is death. The young soldier has been confined in the Presidio for some time since Friday. He was taken there from the transport Indiana. When taken before Colonel Fremont at the Presidio today Givens stated that he had not realized for a week after he deserted his post the enormity of his offense. He had been drinking heavily and in his self-contradictory condition went aboard the Indiana. Four or five days out the first sergeant reported him to the commanding officer, Givens was taken into custody and as soon as the vessel arrived he was sent to the Presidio. Cabled orders from Manila directed he be sent back for court-martial. Givens deserted from his company when it was stationed at blockhouse No. 7, a mile and a half north of Manila. The command was given by General Schenck, president of the bands. One day in the latter part of May he went to Manila, drank heavily and cast military obligations to the wind.

MANILA BECOMES CLEAN CITY

Streets Are Cleared of Ancient Rubbish and Houses Are Perfected by Chinese and Filipinos.

WASHINGTON, July 27.—Lieutenant Eberly, flag lieutenant of the Oregon under Captain Barker, has just arrived in Washington from the Philippines and brings some interesting details of the situation in Manila. He says that the sanitary conditions in Manila are better than in general believed in the United States and better than would be naturally supposed after such a short American occupation.

POYNTER AND HIS PARTY TO BE ON HAND

Governor Breaks Into Print to Deny that He is There on a Political Mission—Transport Expected on Sunday.

SAN FRANCISCO, July 27.—(Special Telegram.)—All California will join in the welcome of the First Nebraska, and the demonstration will commence as soon as the vessel is sighted out at sea. As the signal comes in all the whistles in the city are to be blown, and the people will flock to the wharf to see the ship and the city's defenders. The detention in the harbor by the quarantine and customs officers will last only two or three hours and then any person will be able to go on board. Arrangements have been made to meet the ship with an official tug on which will be a brass band and the party of officials who are to tender the welcome. Up to date the indications are that this party will be strictly confined to Governor Poynter and his select party.

The coming of the Nebraska people to welcome the First Nebraska regiment home has raised quite a furor here and the political aspect of the matter is the morning of the hour. The Chronicle this morning has broken up the political scheme worked up by Governor Poynter and his associates, and this brought forth from the governor a denial in an interview printed in an afternoon paper, in which he said there was no politics in the visit. As governor of the state he had a right to appoint himself as any other citizen, and to form a reception committee. In referring to the veto message of last winter he tells the San Francisco people that the republicans "had a majority in the legislature and could have passed the resolution over his veto if they had desired."

INSURGENTS ARE PREDATORY BANDS

G. E. Towle of South Omaha, one of the Nebraska boys who came over a few days ago, was interviewed today. He gave it as his opinion that the war in the Philippines could never be ended by treaty, for the reason that the insurgent forces were all broken up in the provinces by the Americans, and on the residents of the island, and sometimes on each other. Towle says there is a sentiment in the regiment that the campaign has not been well managed, and that it might have been pressed much faster. He says the insurgent bands with no attempt at agreement between them and a treaty would have to be made with each leader, and no certainty that it would be respected after being made. He said the Tagals were very little better than the Americans, and that the Americans were on the residents of the island, and sometimes on each other.
